TEC Professional Services Questionnaire

A. Project Name and Advertisement Resolution Number:

Routine Engineering Services for Sewer Projects in Jefferson Parish (Supplemental List)
SOQ 20-22| Resolution No. 136766

B. Firm Name & Address where Project work will be performed:

5130 Tchoupitoulas St.
New Orleans, LA 70115

C. Name, title and contact information of Principal, as defined in Section 2-926 of the Jefferson Parish Code of Ordinances, who is a registered, licensed architect, professional engineer, or surveyor in the State of Louisiana:

Ronald Schumann, PE, Executive Vice President
504-523-1619 • 504-909-6209 cell
r.schumann@ilsengineering.com
Register Professional Civil Engineer
Louisiana No. 20102 (1972)

D. Name and contact information of employee who is a registered and licensed architect, professional engineer, or surveyor in the State of Louisiana in the applicable discipline. A subcontractor may be substituted here only if the advertised Project requires more than one discipline.

Ruhan Isim, PE, Lead Civil Engineer
504-523-1619 • 504-312-8804 cell
r.isim@ilsengineering.com
Register Professional Civil Engineer
Louisiana No. 0039882 (2015)

E. Please provide the number of employees whose primary function corresponds with each category:

<u>4</u> Administrative	<u> </u> Estimators	<u> </u> Specification Writers
<u> </u> Architects (Licensed)	<u> </u> Geologists	<u>1</u> Structural Engineers
<u> </u> Chemical Engineers	<u> </u> Geotechnical Engineers	<u>2</u> Graduate Engineers
<u>2</u> Civil Engineers	<u> </u> Interior Designers	<u>1</u> Project Managers
<u>13</u> Construction Inspectors	<u> </u> Landscape Architects	<u>4</u> Clerical
<u> </u> Ecologists	<u> </u> Land Surveyor	<u>2</u> Grant/Funding Specialist
<u> </u> Electrical Engineers	<u> </u> Mechanical Engineers	<u>2</u> Drafting/AutoCADD
<u>4</u> Engineer Intern	<u> </u> Environmental Engineers	
<u> </u> Professional Land Surveyors		<u>35</u> TOTAL

F. Is this submittal by a JOINT-VENTURE? Please check: YES ☐ **NO** ☒

If marked "No" skip to Section I. If marked "yes" complete Sections G-H.

TEC Professional Services Questionnaire

G. If submittal is by JOINT-VENTURE, list the firms participating and outline specific areas of responsibility (including administrative, technical, and financial) for each firm. Please attach additional pages if necessary.

1.N/A

2.

H. Has this JOINT-VENTURE previously worked together? Please check:

YES ☐ NO ☐

I. List all subcontractors anticipated for this Project. Please note that all subcontractors must submit a fully completed copy of this questionnaire, applicable licenses, and any other information required by the advertisement. See Jefferson Parish Code of Ordinances, Sec. 2-928(a)(3). Please attach additional pages if necessary.

Name & Address:	Specialty:	Worked with Firm Before (Yes or No):
1. BFM Corporation, LLC 15 Veterans Memorial Boulevard Kenner, LA 70062	Professional Land & Hydrographic Surveying	Yes
2. The Beta Group The Beta Group, 1428 ½ Claire Ave., Gretna, LA 70053	Engineering and Construction Services, Geotechnical Services, Material Testing	Yes
3.		

J. Please specify the total number of support personnel that may assist in the completion of this Project:

35 _____

TEC Professional Services Questionnaire

K. List the professional in charge, key persons, specialists, and individual consultants anticipated for this Project and provide their relevant information below. If necessary, please attach additional documentation (i.e. resume) that demonstrates the employment history and experience of the Firm's key persons that may assist in the completion of this Project. Please attach additional pages if necessary.

PROFESSIONAL IN CHARGE OF PROJECT:

Name & Title:

Ronald L. Schumann, PE
Executive Vice President

Project Assignment:

Project Manager

Name of Firm with which associated:

Years' experience with this Firm:

5
37 with other firms

Education: Degree(s)/Year/Specialization:

B.S. / 1978 / Civil Engineering

Active registration: Year first registered/discipline:

1982 / Civil Engineering/ PE/ LA. License No. 20102
1984 /Civil Engineering /PE/ AL License No.14739

2002 /Civil Engineering /PE/ MS License No. 15442

TEC Professional Services Questionnaire

Other experience and qualifications relevant to the proposed Project:

Mr. Schumann is a Civil Engineer with **42** years of experience in planning, design, and construction of civil engineering projects. Project involvement has encompassed major concrete structures, flood control structures, drainage projects, drainage pump stations, hydraulic structures, coastal and marina projects, ports, marinas, intermodal facilities, interstate highways, state highways, airports, heliports, transportation and traffic analysis, transportation planning, line and grade studies. Mr. Schumann also has experience in corridor studies, environmental impact statements, environmental assessments, **wastewater treatment plants and pump stations**, commercial/residential site development, design and layout, heavy and light rail design, railroad relocation, reconstruction and rehabilitation of streets and infrastructure. Experience also includes providing construction management services for buildings, sport facilities, light rail transit projects, port projects and street infrastructure improvements, as well as direction of topographic and right-of-way surveys for highway and roadway projects.

HANO Florida Avenue Housing Development, HANO (New Orleans, LA)

Mr. Schumann served as project and construction manager responsible for coordinating the design and construction work for the infrastructure and the vertical construction of 26 duplex housing units funded under a HUD program. The infrastructure work included water, **sewer**, and drain line systems, natural gas lines, underground and overhead electrical and telecommunications lines, and newly constructed roadways. Mr. Schumann also performed the final structural and site work inspections for substantial completion, prepared the punch lists and completed the closeout for the project. Value: \$2M (AE Fee) \$15 M (Construction Cost)

Multiple Pump Stations Highland Rd. - Kenilworth Pkwy. Pump Station Improvements, SSO Control and Wastewater Facilities Program, East Baton Rouge, LA (City of Baton Rouge)

The project, which is part of the Baton Rouge SSO Program, required the design and preparation of plans and specifications for the replacement of 9 lift stations ranging in size from 0.5 to 7.4 MGD and the construction of 2 new lift stations with flows up to 14 MGD. The new pump stations will work in conjunction with force main upgrades in other South Lower Basin projects to alleviate chronic sanitary sewer overflows (SSOs) at and near these pump stations and in their respective upstream basins. The upgrades will also allow the pump stations to convey peak wet weather flows. Services also include geotechnical fieldwork and analysis, surveying, Phase I Environmental Site Assessment, Wetland Delineation, permitting, and architectural design.

Fort Polk North and South Fort Wastewater Treatment Plant Upgrades, Fort Polk, LA

Mr. Schumann was a project manager for improvements and upgrades to the North Fort and South Fort Wastewater Treatment Plants, responsible for overseeing the design and preparation of plans as the designer on the Reynolds design-build team. The project required converting the primary contact tanks to aeration tanks and providing an improved disinfection system to increase the capacity of the plants and meet the new LPDES effluent limits.

TEC Professional Services Questionnaire

Education: Degree(s)/Year/Specialization:
B.S. / 2001 / Mechanical Engineering
Active registration: Year first registered/discipline:
2015/ Civil Engineering/ PE/ LA. License No. 0039882
Other experience and qualifications relevant to the proposed Project:
<p>Mr. Ruhan Isim has over nineteen (19) years of experience in the field of Civil Engineering serving as lead project engineer in many civil projects including SELA Flood Control Program, drainage projects, sewer projects, and street projects. He has a high level of expertise in hydraulics, CADD, GIS, Sewerage Pump Stations design and Commissioning, startup, testing, Water Distribution Networks modeling and design.</p> <p>FEMA Road Repair for RR036 East Riverside, Garden District, Irish Channel and St. Thomas Group B Neighborhood, New Orleans Department of Public Work (DPW), New Orleans, LA This project involves fully reconstructing Constantinople Street and Marengo Street between Tchoupitoulas Street and Magazine Street. Mr. Isim is the civil engineer on this project and is responsible for preparing the roadway profiles, design sewer, water and drainage replacements for this project.</p> <p>FEMA Road Repair for RR064 Hollygrove Group D (FRC), New Orleans Department of Public Work (DPW), New Orleans, LA This project involves fully reconstructing 12 blocks. Mr. Isim is the civil engineer on this project and is responsible for preparing roadway profiles, design sewer, water, and drainage replacement for 6 of the 12 blocks within this project.</p>

TEC Professional Services Questionnaire

FEMA Road Repair for RR065 Hollygrove Group E (FRC), New Orleans Department of Public Work (DPW), New Orleans, LA

This project involves fully reconstructing 12 blocks. Mr. Isim is the civil engineer on this project and is responsible for preparing roadway profiles, design sewer, water, and drainage replacement for 6 of the 12 blocks within this project.

FEMA Road Repair for RR071 Lake Terrace and Oaks Group C (FRC), New Orleans Department of Public Work (DPW), New Orleans, LA

This project involves fully reconstructing 14 blocks. Mr. Isim is the civil engineer on this project and is responsible for preparing roadway profiles, design sewer, water, and drainage replacement for 4 of the 14 blocks within this project.

SSO Program Sewerage Pump Station Startup Commissioning, Baton Rouge, LA

Mr. Isim review's SSO program Sewerage Pump Station commissioning submittals. Inspects control panels logics, VFD logic and programming, bubbler settings, and SCADA data exchange tables and creates punch list for sewerage pump stations final completion.

S&WB Burke Sewerage Pump Station Design, 404 Hazard Mitigation Replacement, New Orleans, LA

This project consisted of the rehabilitation of an existing sewerage pump station for the New Orleans Sewerage & Water Board (SWB) as a result of damage caused by Hurricane Katrina. The scope of work. included development of demolition, civil engineering, structural engineering and architectural drawings, as well as coordination with mechanical and electrical drawings. Mr. Isim reviewed shop drawings and submittals and performed closeout inspections during the construction.

Deep South Studios, Orleans Parish, New Orleans, LA

Deep South Studio is, 18.75 acres, the largest and most modern independent film, television production facility at Algiers, New Orleans, LA. Mr. Isim is responsible for developing and designing plans for demolition, new utilities (water, sewer, drainage), site layout, grading, driveway, and traffic control. Mr. Isim has also acquired permits for this new construction.

HANO Florida Avenue Housing Development, HANO (New Orleans, LA)

Mr. Isim served as lead project engineer and construction manager responsible for coordinating the design and construction work for the infrastructure and the vertical construction of 26 duplex housing units funded under a HUD program. The infrastructure work included water, sewer, and drain line systems, natural gas lines, underground and overhead electrical and telecommunications lines, and newly constructed roadways. Mr. Isim also performed the final structural and site work inspections for substantial completion, prepared the punch lists and completed the closeout for the project. Value: \$2M (AE Fee) \$15 M (Construction Cost)

Lovett Road Greenwell Springs Capacity Improvements Baton Rouge, LA

Project consists of construction of approximately 111,000 feet of 8 to 36-inch force-main. Mr. Isim created project definition, work plan and RFQ. Reviewed SOQ's for design consultant selection. Mr. Isim reviewed Fee Proposal and negotiated with Design Consultant. He guided design consultant to meet SSO Program design requirement and schedules. Reviews design consultant work with bi-weekly meetings and review design consultant invoices. Mr. Isim review submittals and coordinates PIH meetings. Prepare bid documents for construction.

Highland Road Pipeline Project Baton Rouge, LA

Project consist of construction of approximately 40,000 feet of 12 to 42-inch gravity sewer, and 11,000 feet of 10 to 24-inch force-main. Mr. Isim created project definition, work plan and RFQ. He created System Curves for sewerage pump station projects. Reviewed SOQ's for design consultant selection. Mr. Isim reviewed Fee Proposal and negotiated with Design Consultant. He guided design consultant to meet SSO Program design requirement and schedules. Reviews design consultant work with bi-weekly meetings and review design consultant invoices. Mr. Isim review submittals and coordinates PIH meetings and prepare bid documents.

Perkins Old Perkins Area BPS514 Replacement, Baton Rouge, LA

Project consists of construction of new 53,000 GPM @ 137 TDH submersible sewerage pump station. Prepare bid documents for construction. Crated Project definition, Reviewed SOQ's for design consultant selection. Mr. Isim

TEC Professional Services Questionnaire

reviewed Fee Proposal and negotiated with Design Consultant. He guided design consultant to meet SSO Program design requirement and schedule. Reviews design consultant work with bi-weekly meetings and review design consultant invoices. Mr. Isim created System Curve for sewerage pump station 514 also reviewed physical modeling and commissioning submittals, witnessed factory PLC testing. He also commissioned PS514.

Sewer System Evaluation and Rehabilitation Program (SSERP), New Orleans, LA

Project consist of evaluation of 2400 gravity sewer line segments and 4000 sewer manholes combined Up-Town and Mid-City areas. Mr. Isim, during design phase, reviewed CCTV videos and prepared plans by using RDSS program, prepared cost estimate and bid documents. During bid phase he prepared addendums' and prepared conformed documents. During construction, he reviewed shop drawings/submittals, answered RFI's and negotiated with contractor for change orders. Keep track schedule and attended monthly progress meetings.

TEC Professional Services Questionnaire

This project involves fully reconstructing 12 blocks. Mr. Jones is the civil engineer on this project and is responsible for preparing roadway profiles, design **sewer**, water and drainage replacement for 6 of the 12 blocks within this project.

FEMA Road Repair for RR071 Lake Terrace and Oaks Group C (FRC), New Orleans Department of Public Work (DPW), New Orleans, LA

This project involves fully reconstructing 14 blocks. Mr. Jones is the civil engineer on this project and is responsible for preparing roadway profiles, design **sewer**, water and drainage replacement for 4 of the 14 blocks within this project.

DPW Engineering Pool, Roadway Enhancement & Reconstruction, Black Pearl Neighborhood, New Orleans, LA

This project involves fully reconstructing the 7700 block of Benjamin Street (Adams – Burdette) and milling and overlaying the 200 block of Cherokee Street (Benjamin – Hurst) and the 400 block Short Street (Pearl – Leak). Mr. Jones is the civil engineer on this project and is responsible for preparing the roadway profiles, **design sewer** and water replacement drawings for this project.

RTA Elysian Fields Avenue and St. Claude Avenue Streetcar Extension, New Orleans, LA.

This proposed project will extend the existing streetcar network approximately 1.1 miles along St. Claude and Elysian Fields Avenue in the Marigny and St. Roch neighborhoods of New Orleans. Mr. Jones is the civil engineer on this project and is responsible for the **design of the relocations of sewer**, water and drainage utilities that conflicted with the streetcar tracks on this project.

Sewerage & Water Board of New Orleans, Drainage / Network Engineering, New Orleans, LA

Responsibilities included managing a major Engineering Division, lead and manage professional engineers and overseeing the design and reviews of all new sewer, water, and drainage within the city right-of-way.

Responsibilities included the management of the \$200 million **Sanitary Sewer Evaluation and Remediation Program** (SSERP) and the \$50 million Emergency Sewer System Assessment (ESSA) Program. These sewer repairs are federally mandated by the Consent Decree and have a specific time frame for completion. Currently, we are on schedule to meet all milestones of the Consent Decree.

Sewerage & Water Board of New Orleans, Network Engineering, New Orleans, LA

Project Engineer for multiple water and sewer replacement contracts. Responsibilities included the **design of sewer** and water replacements and coordinating construction ahead of the Submerged Road Program (Phase B).

Sewerage & Water Board of New Orleans, Network Engineering, New Orleans, LA

Project Manager for the South Louisiana Submerged Road Program (Phase A): Responsible for managing \$15M of Community Development Block Grant (CDBG) funds for the replacement of sewer and water mains within the project. Responsibilities included the design of all water and **sewer main replacements** within the project. Responsibilities also included managing four construction contracts and one consultant engineering firm providing construction inspection. Conducted bi-weekly progress meetings to ensure the projects were completed on time and ahead of schedule.

Sewerage & Water Board of New Orleans, Network Engineering, New Orleans, LA

Reviewed and approved Permit Applications submitted by public and private utility agencies to install their utilities within the city right-of-way.

Reviewed and approved Subdivision Dockets for the City Planning Commission for the compliance with water, sewer, and drainage requirements.

Responsible for the construction management of the annual **sewer** and water extension contract valued at \$4M.

Responsibilities included processing invoices, negotiating prices from the contractor for items not included in the contract documents and issuing change orders, as necessary.

Prepared an Emergency Letter Bid and design drawings for the installation of Emergency Discharge Connections (EDC) for twenty-three **Sewer Pumping Stations**, shortly after Hurricane Katrina. This enabled temporary pumps to pump directly from the wet well into the force main, preventing sewer overflows.

He was heavily involved with revisions to all the S&WB Standard Drawings. This included extensive research in obtaining the latest ASTM, ANSI, and AWWA standards. Most of the S&WB Standard Drawings have not been updated since the 1970s.

Sewerage & Water Board of New Orleans, Network Department, New Orleans, LA

Responsible for all activities associated with the repairs to the water distribution and **wastewater collection system** within the City of New Orleans. Ensure compliance with the requirements of the federally mandated Consent Decree.

Founded in 1994, Integrated Logistical Support, Inc. (ILSI) is a certified 8(a) 100% woman-owned, minority owned small business based in New Orleans with a project office in Baton Rouge and is a project management firm with a strong record of performance on multi-year, multimillion-dollar projects completed in the federal, state, and municipal sectors. ILSI has over 20 years' experience performing similar work with the City of New Orleans. The firm holds licenses in the state of AL, FL, LA, MS, TX, and GA.

ILSI has performed on a variety of multi-year, multi-million-dollar public sector contracts, all providing Program Management, Engineering and Construction Management services. ILSI is serving a large municipal Client and US Army Corps of Engineers project with no break in service for over 20 years. Planning and executing large-scale infrastructure projects grows more complex by the day. Bringing together multiple professional disciplines and managing multiple partners and stakeholders demands the communications process follow a clear channel of accountability for all, especially when under acute time pressure.

Our experts have many years of experience in delivering some of the most challenging and intricate projects on budget. Our approach involves defining our clients' goals, defining and planning the whole process, monitoring the work as it happens and delivering outstanding buildings or infrastructure. These include:

- \$750M USACE Hurricane Protection Quality Assurance Project
- \$200M USACE Periodic Inspection Program for existing Civil/Hydraulic Structures
- \$1.5B Southeast Louisiana Urban Flood Control Program (SELA) – CPRA Funded
- **\$1B City of Baton Rouge Sanitary Sewer Overflow Rehabilitation Program**
- \$104M Program Management and Construction Management for the New Orleans Superdome Renovation and Sports Arena Facility
- \$850M Capital Improvement Program Management project for the Louis Armstrong New Orleans International Airport
- \$150M Program Management Major/Minor Streets Improvement project for the City of New Orleans
- \$300M Construction Inspection Services Program for the Port of New Orleans Napoleon Ave. Wharf

TEC Professional Services Questionnaire

Redevelopment Project

• \$140M Power Plant Retrofit Hardening and Pump Station Program for the Sewerage and Water Board
ILSI has worked almost exclusively for government agencies, resulting in a level of understanding that will expedite project delivery. We have performed, civil engineering, design, program management, construction management, cost estimating and inspection work on projects for the USACE, LADOTD, City of New Orleans Department of Public Works, Sewerage and Water Board of New Orleans, St. Tammany Parish, New Orleans Aviation Board, City of Baton Rouge, Hammond and City of Houston.

The firm enjoys DBE status with the following firms: RTA, LA Department of Transportation and Development, the City of New Orleans, Sewerage and Water, the New Orleans Louis Armstrong International Airport, the City of New Orleans, The Women's Business Enterprise National and Gulf Coast Council, Women's Presidents Organization (WPO), and the LA Minority Business Council. The firm is also a member of the Louisiana Professional Engineering and Land Surveying Board (LAPELS, American Society of Civil Engineers (ASCE), American Council of Engineering Companies (ACEC), and Society of Military Engineers (SAME).

The firm was recognized as the 2005 Small Disadvantaged Business of the Year for Excellence in Government Contracting by the Small Business Administration's Procurement Technical Assistance Center (PTAC) and the Department of Defense. ILSI was recognized again by SBA/PTAC in 2006 for Excellence in Government Contracting for Orleans Parish.

ILSI was recognized twice by the Department of Defense (DoD) and PTAC Small Disadvantaged Business of the Year for Excellence in Government Contracting.

ILSI has provided continuous A/E and Planning services for over 17 years to the US Army Corps of Engineers (USACE), New Orleans District – completing over 60 Task Orders with rating Superior to Very Good.

Our Executive Vice President for this contract will be Ronald L. Schumann, PE. Ronald Schumann is a licensed professional engineer in LA, AL, MS, FL, and TX in civil engineering. He holds a BS in Civil Engineering from Louisiana Tech University. Mr. Schumann has civil engineering experience for planning, design and construction oversight of civil works projects including streetcar lines designs, renovation projects such as public parks and civic spaces, design-build new builds, sidewalks, bike lanes, roadways, and bridge projects and green infrastructures including pervious surfaces, bioswales, open channels, and landscaping such as tree planting. He has served as Project Manager on numerous projects throughout the City of New Orleans for DPW and S&WB. His experience dates back to the design of a portion of the approaches to the Crescent City Connection including the design of both the Lake Bound and River Bound frontage roads, drainage systems and relocation of all utilities in the corridor through a section of downtown New Orleans. His experience includes performing design and construction management directly for the Department of Public Works on numerous streets, sidewalks, and bike lanes reconstruction and rehabilitation projects throughout New Orleans. Mr. Schumann also worked directly for the S&WB on a number of the SELA program projects including, the Claiborne Avenue, Napoleon Avenue and Louisiana Avenue SELA projects. Mr. Schuman also has extensive experience working for and with many of the public agencies and utility companies in New Orleans including the New Orleans Regional Planning Commission, LADOTD, FHWA, USACE, Louisiana CPRA, SLFPA-East, Orleans Levee District, Port of New Orleans, New Orleans Regional Transit Authority, Entergy, Atmos Energy, AT&T, and Cox Communications. **He is a past President of both the Louisiana Section and the New Orleans Branch of the American Society of Civil Engineers.**

AWARDS

ILSI Engineering was recognized twice by the Department of Defense (DoD) and PTAC Small Disadvantaged Business of the Year for Excellence in Government Contracting.

ILSI Engineering has provided continuous A/E, Planning and Construction Management services for over 17 years to the US Army Corps of Engineers, New Orleans District – completing over 60 Task Orders with ratings Superior to Very Good.

ILSI Engineering recognitions:

- ✓ **2005 Small Disadvantaged Business of the Year for Excellence in Government Contracting, by the SBA, Procurement Technical Assistance Center (PTAC), and DoD.**

TEC Professional Services Questionnaire

- ✓ 2006 DBE of the Year for New Orleans by SBA-PTAC-DoD
- ✓ #19 in Top Louisiana Fastest-Growing Companies on 2015 Inc. 5000 list.
- ✓ USACE – New Orleans District - Exceptional achievement for the Hurricane and Storm Damage Risk Reduction System (HSDRRS) mission.
- ✓ Engineering News Record (ENR) - ILSI Engineering recognized for providing engineering services on the SELA 23, uptown Napoleon Avenue, Phase 2 Project.
- ✓ 2013 GOLDMAN SACHS Alumnae, “10,000 Small Businesses.”
- ✓ Featured in the 2015 August issue of Essence Magazine
- ✓ NOLA.COM – Readers selected ILSI Engineering for Minority Entrepreneur Profile.
- ✓ 2014 Inner City Standout, at the ICIC’s Inner City 100 Symposium and Awards and 2015 Inner City 10K Small Business Alumni nominee for ICIC’s Inner City 100 Program
- ✓ Published in “The Atlantic” magazine in August 2015
- ✓ Gambit Magazine’s “Forty Under 40” – Iam Tucker, President, selected in 2012.

ILSI Engineering has performed on a variety of multi-year, multi-million-dollar public sector contracts, all having Construction Management and Engineering tasking. These include:

- ✓ \$750M USACE Hurricane Protection Quality Assurance Project
- ✓ \$200M USACE Periodic Inspection Program for existing Civil/Hydraulic Structures
- ✓ \$1.5B Southeast Louisiana Urban Flood Control Program (SELA) – CPRA Funded

U.S. SMALL BUSINESS ADMINISTRATION
WASHINGTON, D.C. 20416

October 31, 2013

Iam C. Tucker, President
Integrated Logistical Support, Inc.
1100 Poydras Street, Unit 2775
New Orleans, Louisiana 70163-1104

Dear Ms. Tucker:

Congratulations! Your firm has been certified as a Participant in the U.S. Small Business Administration's (SBA) 8(a) Business Development Program. Your nine (9) year program term begins on the date of this letter.

During participation in the 8(a) Business Development Program, you will receive business development assistance from an assigned Business Development Specialist in the Louisiana District Office located at 365 Canal Street, Suite 2820, New Orleans, Louisiana 70130. The phone number is 504/589-6685.

Your firm will become eligible to receive 8(a) Business Development contracts after you submit a business plan using SBA Form 1010C and receive SBA's approval of the plan. We are sending a copy of this certification letter to the SBA Louisiana District Office. That office will send you the business plan form.

SBA requires that the 8(a) participant's President or Chief Executive Officer sign a Participation Agreement to show that he or she understands the conditions of 8(a) program participation. Please read the Agreement carefully, sign and date one copy and return it to the SBA Louisiana District Office at the address shown in the second paragraph above. The second copy is for your records.

Even though your firm's approved North American Industry Classification System (NAICS) Code is 541330, your firm may be awarded contracts under other NAICS Codes, as long as the firm is qualified to perform the required service or task. In this regard, please note that contracts awarded under 8(a) Business Development Program authority generally result from the self-marketing efforts of participating firms. While your firm's acceptance into the 8(a) Business Development Program is not a guarantee of contract support, SBA will make every effort to assist you in your marketing efforts.

I welcome you as an 8(a) Business Development Program participant and wish you every possible success.

Sincerely,

Darryl K. Hairston

Integrated Logistical Support, Inc.
Iam C. Tucker
5130 Tchoupitoulas Street
New Orleans, LA 70115

JUL 20 2020

Dear Iam C. Tucker:

We have received your firm's Disadvantaged Business Enterprise (**DBE**) and Small Business Element (**SBE**) annual affidavit. Based on the information which you provided we have concluded that your firm continues to meet the eligibility requirements of our program and remains certified for only the following specific work categories that fall under the listed NAICS codes:

NC541330-Engineering Services

C09-Civil Engineering

NC541512-Computer Systems Design Services

C11-Planning

C18-System Design

NC541513-Computer Facilities Management Services

C16-Computer Analysis

NC541611-Administrative Management and General Management Consulting Services

C10-Management

NC541618-Other Management Consulting Services

C74-Construction Management

NC561990-All Other Support Services

C17-Support Services

Please note that per the federal regulations, suppliers only receive 60% goal credit towards the materials they provide. Also note that A Louisiana Contractor's License is required by any contractor performing work in excess of \$50,000 with the exception of electrical, mechanical and plumbing which are required to have a license if work is in excess of \$10,000. You may contact the State Licensing Board for Contractors at (225) 765-2301 for more information. Your firm's certification will be recognized by all participants of the Louisiana Unified Certification Program. This includes all entities receiving federal transportation funding within the boundaries of our state.

Due to recent changes in the Federal Regulations which govern our **DBE and SBE** programs, firms which have been certified will no longer have an expiration date, however you will be required to submit an annual affidavit with all supporting documents stating that your firm continues to meet the eligibility requirements of the program. This form will be sent to you approximately 4 weeks prior to your anniversary date (**April 30, 2021**). You must notify our office immediately, regarding any changes which affect the social and economic disadvantage, size, ownership or control of your firm.

Integrated Logistical Support, Inc.
July 14, 2020
Page 2

We reserve the right to withdraw this certification, if at any time, it is determined that **DBE and SBE** certification was knowingly obtained by the submission of false, misleading or incorrect data. We, further reserve the right to request additional information and/or conduct an on-site visit at any time during your certification period.

If we can be of further assistance, please don't hesitate to contact the DBE Certification Unit at (225) 379-1382.

Sincerely yours,

Rhonda Wallace
DBE/SBE Program Manager

RE: SLDBE Certification Approval

Dear Iam Tucker:

We are pleased to inform you that **Integrated Logistical Support, Inc.** has been approved for certification as a State & Local Disadvantaged Business Enterprise (SLDBE). This approval represents certification with: City of New Orleans, Sewerage & Water Board of New Orleans, Louis Armstrong New Orleans International Airport and Harrah's New Orleans Casino & Hotel.

Your firm's contact information will be active on the online SLDBE Directory (<http://neworleans.dbesystem.com>). It will reflect your areas of certification. Your specialties will be listed as:

CERTIFICATION DESCRIPTION: CIVIL ENGINEERING; STRUCTURAL ENGINEERING; ELECTRICAL ENGINEERING; CONSTRUCTION MANAGEMENT; PROJECT MANAGEMENT; PROGRAM MANAGEMENT; BUILDING INSPECTION SERVICES; WATER RESOURCE ENGINEERING SERVICES

NAICS 2362201: CONSTRUCTION MANAGEMENT, COMMERCIAL AND INSTITUTIONAL BUILDING

NAICS 236220: PROJECT MANAGEMENT

NAICS 541330: CIVIL ENGINEERING SERVICES

NAICS 541330: ENGINEERING CONSULTING

NAICS 541350: BUILDING INSPECTION BUREAUS

NAICS 541330: ELECTRICAL ENGINEERING SERVICES

A re-certification notice will be emailed to you prior to the date of expiration. **However, should you not receive notification from this office for your re-certification, it is your responsibility to contact us.** Submittal of this information is necessary to ensure that there is no interruption in your certified status during your certification period. If a re-certification application is not received, we will proceed with decertification procedures.

We invite you to view City of New Orleans, Sewerage & Water Board of New Orleans, Louis Armstrong New Orleans International Airport and Harrah's New Orleans Casino & Hotel websites for SLDBE opportunities.

If we can be of further assistance, you may contact us at 504-658-4275 or via e-mail at saoliva@nola.gov.

Sincerely,

Sonia Oliva

Iam Tucker
Integrated Logistical Support, Inc. dba ILSI Engineering
5130 Tchoupitoulas Street
New Orleans, LA 70115

Dear Iam Tucker,

The Housing Authority of New Orleans, (HANO) has reviewed your application for certification to participate in its Disadvantaged Business Enterprise Program. The Development and Modernization Department has determined that your firm meets the eligibility requirements for a **Disadvantaged Business Enterprise (DBE)**. This DBE certification is for the period beginning **May 28, 2020** and ending on your State and Local Disadvantaged Business Enterprise (SLDBE) Program anniversary date of **April 22, 2021**. Upon renewal, please resubmit your renewal letter and application to HANO.

Your firm is eligible in the following work categories:

- NAICS 236201 – Construction Management, Commercial and Institutional Building
- NAICS 236220 – Project Management
- NAICS 541330 – Civil Engineering Services
- NAICS 541330 – Engineering Consulting
- NAICS 541350 – Building Inspection Bureaus

We have listed your company's name under the categories detailed above in HANO's Section 3/DBE/WBE Business Directory. Certification of your firm in no way guarantees business or contracts with HANO. Certification **ONLY** means that you are eligible and will be afforded an opportunity to participate in contracting opportunities as a DBE vendor.

We welcome you as a qualified Disadvantaged Business Enterprise and look forward to working with you and your company. If you need additional information, please contact me at (504)670-3423 or tprice@hano.org.

Sincerely,

Tony Allen Price

Tucker Building
5130 Tchoupitoulas Street
New Orleans, LA 70115

Dear Iam C. Tucker:

We are pleased to inform you that your firm has been certified as a Small Business Enterprise (SBE).

Your firm remains certified in the SBE Program until there are any changes to your company or to your personal net worth that exceed the SBE eligibility criteria. Please note that you must notify our office immediately regarding any changes which affect the economic disadvantage, size, ownership or control of your firm.

You are required to submit an annual affidavit stating that your firm continues to meet the eligibility requirements of the program. If you are both DBE and SBE certified you will receive a Disadvantaged Business Enterprise Annual Affidavit approximately 4 weeks prior to your DBE Certification anniversary date. The annual affidavit for the DBE program will automatically apply to your SBE certification. If you are SBE certified only, you will receive a Small Business Enterprise Annual Affidavit approximately 4 weeks prior to your SBE Certification anniversary date.

We reserve the right to withdraw this certification if at any time it is determined that SBE certification was knowingly obtained by the submission of false, misleading, or incorrect information. We further reserve the right to request additional information and/or conduct an on-site visit at any time during your certification period.

If we can be of further assistance, please contact the Office of Small Business Development at (504)827-8408.

Sincerely,

Eliza Eugene,
Director, Office of Small Business Development

PROFESSIONAL IN CHARGE OF PROJECT:

Name & Title:

Ralph P. Fontcuberta, Jr., PLS
Executive Vice President

Project Assignment:

Registered Professional Land Surveyor

Name of Firm with which associated:

BFM CORPORATION, LLC
Professional Land & Hydrographic Surveying

Years experience with this Firm:

39 years (Founding Principal of BFM in 1982); 54 years total (1967)

Education: Degree(s)/Year/Specialization:

Coursework, Building, Delgado College, New Orleans
Coursework, Math, University of New Orleans

Active registration: Year first registered/discipline:

1974, Professional Land Surveyor (Louisiana Lic. No. 4329)
1974, Professional Land Surveyor (Mississippi Lic. No. 1633)

Other experience and qualifications relevant to the proposed Project:

Ralph P. Fontcuberta, Jr., PLS has provided services on an almost incalculable number of surveying projects throughout southeastern Louisiana in the past half century and **has been a registered Professional Land Surveyor (PLS) since 1974**. He is thoroughly knowledgeable in all aspects of surveying: topographic, hydrographic, boundary, right-of-way surveying, and all facets thereof. He has provided surveying services for residential, plant, and industrial layout projects, ranging from small private lots & buildings to multi-million-dollar programs, including the New Orleans FEMA Streets/Recovery Roads Program. Since the beginning of his career, his work has entailed computations, drafting, and field work for various industrial, commercial, municipal, and private clients.

Projects have included topographic surveying needed for a wide variety of engineering, architectural, construction, and other related endeavors. This work has included projects for numerous branches of virtually every regional city/parish/town government, multiple State agencies, Federal agencies, private/public companies, and numerous other public/private entities.

TEC Professional Services Questionnaire

Other experience and qualifications relevant to the proposed Project:

Ralph P. Fontcuberta, Jr., PLS (continued)

Mr. Fontcuberta's **surveying experience with Jefferson Parish can be traced back to BFM's inception in 1982**, and before then while working as a surveyor with another firm. He has over half a century of experience with surveying throughout the region and **specifically with Jefferson Parish**.

Relevant project history includes, but is certainly not limited to, the following:

- Sewer Lift Station L-11-1, Saddler Road at Westbank Expressway, Marrero, Jefferson Parish, LA
- Sewer Lift Station F8-3, W. Esplanade Avenue at Houma Boulevard, Metairie, Jefferson Parish, LA
- Lift Station F8-3, Metairie, Jefferson Parish, LA
- Destrehan Lift Station Upgrades, Jefferson Parish, LA
- Sewer Lift Station L-13-6, Ehret Road, Marrero, Jefferson Parish, LA
- Lift Station E3-2 (Elmwood & Citrus), Metairie, Jefferson Parish, LA
- Saddler Street Sewer Lift Station, Marrero, Jefferson Parish, LA
- Lift Station F7-12 (Grace King and Rockford), Metairie, Jefferson Parish, LA
- Lift Station K-11-3, Marrero, Jefferson Parish, LA
- Lift Station F1-1, Elmwood Industrial Park Subdivision, Jefferson Parish, LA
- Lift Station F7-13B (SCIP Project No. D55102), Jefferson Parish, LA
- Lift Station No. 6 Improvements, City of Harahan, Jefferson Parish, LA
- Lift Station F1-1, Elmwood Industrial Park Subdivision, Jefferson Parish, LA
- Lift Station C4-1A (N. Sibley and Boone), Metairie, Jefferson Parish, LA
- Hanson City Area Force Main Improvements, Kenner, Jefferson Parish, LA
- Kennedy Heights Sewer Lift Station, Jefferson Parish, LA
- Rehabilitation of D8-3 Lift Station (Purdue Drive & 37th Street), Metairie, Jefferson Parish, LA
- Route Topographic (including Lift Station/Force Main) Surveying Services, Jefferson Parish, LA
- Cleary Avenue & West Napoleon Lift Station & Force Main, Jefferson Parish, LA
- Lift Station D4-2 and Proposed D4-2B Surveying Services, Metairie, Jefferson Parish, LA
- N-12-1 (41st & Gardere Canal) Lift Station, Jefferson Parish, LA
- Lakeside Mall Lift Station Servitude, Jefferson Parish, LA
- Transcontinental & Wabash Sewer Treatment Plant, Jefferson Parish, LA
- East Bank Sewer Treatment Plant, Jefferson Parish, LA
- G6-4A Sewage Treatment Plant, Jefferson Parish, LA
- Helios Sewage Treatment Plant, Jefferson Parish, LA
- West Napoleon Avenue Sewage Treatment Plant, Jefferson Parish, LA
- Sewerage Improvements on Multiple Roadways, Jefferson Parish, LA
- Elizabeth & Utica Sewerage Lift Station, Jefferson Parish, LA
- Emergency Generators for Sewer Lift Stations and Helios & W Napoleon Pump Stations, Jefferson Parish, LA
- Haring Ditch Sewer Improvements, Jefferson Parish, LA
- Effluent Pump Station & Structures at Harvey Wastewater Treatment Plant, Jefferson Parish, LA
- Sewer Force Main, Kent Avenue to Transcontinental, City of Kenner, Jefferson Parish, LA
- Kent Avenue Sewer Improvements, Yale to Rye, Jefferson Parish, LA
- Bucktown Harbor Sewer Upgrade Survey, Jefferson/Orleans Parishes, LA
- Live Oak Manor Sewer Improvements, Jefferson Parish, LA
- Parish Line Pump Station (Pump Station No. 5), Jefferson Parish, LA
- Churchill Farms Sewer Force Main, JEDCO Business Park Southeast Land District, Jefferson Parish, LA
- Sewer Force Main at the JEDCO Business Park, Jefferson, LA

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:

Name & Title:

Chad M. Poché, P.E.
Executive Vice President

Project Assignment:

Engineering Liaison

Name of Firm with which associated:

BFM CORPORATION, LLC
Professional Land & Hydrographic Surveying

Years experience with this Firm:

4 years (became partial owner of BFM in 2017); 28 years total (1993)

Education: Degree(s)/Year/Specialization:

M.S., 1998, Civil Engineering, University of New Orleans
B.S., 1993, Civil Engineering, Louisiana State University

Active registration: Year first registered/discipline:

Louisiana, Civil Engineer, No. 27667, 1998
Mississippi, Civil Engineer, No. 15405, 2002

Other experience and qualifications relevant to the proposed Project:

Mr. Poché is an Executive Vice President with (and partial owner of) BFM Corporation, LLC, and a co-founder of BFM's sister company, Gulf South Engineering and Testing, Inc. He has been a consulting geotechnical engineer for more than 25 years in South Louisiana, working on traditional and unique geotechnical engineering projects (shallow and deep foundation design, slope stability, pavement design, etc.). Mr. Poché has also provided construction oversight for waste facilities and virtually every type of earthwork related project. He has been the geotechnical engineer of record for thousands of projects throughout his career.

Mr. Poché's experience includes the development of appropriate scopes of work and proposals for a broad range of projects; planning and coordinating analyses; preparing technical reports; foundation and geotechnical engineering design; construction recommendations; Miss. River facility permitting; managing personnel and office operations, and; serving as an Expert Witness. Mr. Poché has logged soil borings; overseen the installation of ground water monitoring wells, piezometers, and inclinometers; overseen and evaluated pile load tests; overseen, performed, and evaluated dynamic pile testing (PDA and PIT); performed CMT field testing and inspection; and performed laboratory testing.

BFM Corporation projects overseen by Mr. Poché would include:

TEC Professional Services Questionnaire

Other experience and qualifications relevant to the proposed Project:

Chad M. Poché, P.E. (continued)

Lift Station No. 6 Improvements, City of Harahan, Jefferson Parish, LA. BFM prepared a Route Topographic Survey of the project site in Harahan, which included portions of Wilson Street and Grove Avenue. The full scope plan & profile included all services, utilities, properties, elevations and items necessary to perform any and all engineering and construction work. (\$24,190 (fee); 2018)

Lift Station D4-2 and Proposed D4-2B Surveying Services, Metairie, Jefferson Parish, LA. BFM provided boundary and topographic surveying services for the existing Lift Station, D4-2, and the proposed Lift Station, D4-2B, to be located at the corner of Olga Avenue and Howard Avenue in Metairie. BFM also provided Right-of-Way to Right-of-Way of associated streets and sites of the existing and proposed lift stations. (\$22,860 (fee); 2016)

Lift Station F7-13B (SCIP Project No. D55102), Jefferson Parish, LA. BFM provided topographic surveying services in relation to improvements at Lift Station F7-13B, located at the intersection of Stefano Street and Wanda Lynn Drive in Garden Subdivision, Metairie. (\$4,770 (fee); 2018)

Lift Station F1-1, Elmwood Industrial Park Subdivision, Jefferson Parish, LA. BFM's surveying services for the project involved a topographic survey of Lift Station F1-1 located at the intersection of Plantation road and Toler Street. (\$4,880 (fee); 2018)

Lift Station E5-4, Jefferson Parish, LA. BFM provided topographic surveying services for the project site, located at Transcontinental and West Metairie. (\$6,530 (fee); 2018)

Hanson City Area Force Main Improvements, Kenner, Jefferson Parish, LA. BFM provided topographic surveying services which included the location of utilities. (\$1,000 (fee); 2018)

Lift Station F8-3, Metairie, Jefferson Parish, LA. For the project (located at West Esplanade Avenue & Houma Boulevard, in the Dreyfous Tract), BFM executed a topographic survey; scope included two TBMs (Temporary Benchmarks), three point ties, and location of improvements within limits & monuments to establish apparent rights-of-way (ROW). Baseline was set parallel to West Esplanade Avenue. (\$11,890 (fee); 2019)

Destrehan Lift Station Upgrades, Jefferson Parish, LA. BFM provided a full boundary survey update of the 2700 Destrehan Lift Station Upgrade project; the scope included establishing two TBMs (Temporary Benchmarks) on or near the project site and location of existing improvements within the designated Limits of Survey. This also included location of visible above-ground utilities and those underground utilities with visible surface evidence. (SCIP Project Number:D3564) (\$5,750 (fee); 2019)

Sewer Lift Station L-13-6, Ehret Road, Marrero, Jefferson Parish, LA. BFM's surveying scope involved topographic and boundary surveying services. (\$8,790 (fee); 2019)

Saddler Street Sewer Lift Station, Marrero, Jefferson Parish, LA. BFM provided topographic surveying services for the project, located near the West Bank Expressway Access Road. (\$5,715 (fee); 2018)

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
John Philip Thayer Field Operations Supervisor
Project Assignment:
Field Operations Supervisor
Name of Firm with which associated:
 Professional Land & Hydrographic Surveying
Years experience with this Firm:
13 years (joined BFM in 2008); 14 years total (2007)
Education: Degree(s)/Year/Specialization:
B.S., 2007, Physical Education, Trevecca Nazarene University
Active registration: Year first registered/discipline:
<i>Professional Land Surveyor Registration in process, State of Louisiana</i>
Other experience and qualifications relevant to the proposed Project:
<p>Mr. Thayer is a Field Operations Supervisor with considerable experience in field surveying services, including ALTA/as-built surveying, construction layout, boundary, topographic, cross-sections, GPS use, and numerous other surveying types.</p> <p>Effluent Pump Station & Structures at Harvey Wastewater Treatment Plant, Jefferson Parish, LA. BFM provided surveying services to locate the effluent pump station and all structures for a section of the Harvey WWTP in Jefferson Parish. The project also included all necessary topographic surveying services. (\$2,418 (fee); 2009)</p> <p>Lift Station F1-1, Elmwood Industrial Park Subdivision, Jefferson Parish, LA. BFM's surveying services for the project involved a topographic survey of Lift Station F1-1 located at the intersection of Plantation road and Toler Street. (\$4,880 (fee); 2018)</p> <p>Lift Station F7-13B (SCIP Project No. D55102), Jefferson Parish, LA. BFM provided topographic surveying services in relation to improvements at Lift Station F7-13B, located at the intersection of Stefano Street and Wanda Lynn Drive in Garden Subdivision, Metairie. (\$4,770 (fee); 2018)</p> <p>Bucktown Harbor Sewer Upgrade Survey, Jefferson/Orleans Parishes, LA. BFM provided surveying services for the project. (\$13,918 (fee); 2009)</p>

TEC Professional Services Questionnaire

Other experience and qualifications relevant to the proposed Project:

John Philip Thayer (continued)

Live Oak Manor Sewer Improvements, Jefferson Parish, LA. BFM provided topographic surveying services. (\$19,278 (fee); 2009)

Sewer Lift Station F8-3, W. Esplanade Avenue at Houma Boulevard, Metairie, Jefferson Parish, LA. BFM's services involved a boundary survey with servitude acquisition (updating boundary and creating servitude, which was provided by the client and utilized to create the final survey). The project was located on the East Bank of Jefferson Parish in the Dreyfous Tract region. (\$2,970 (fee); 2020)

Kent Avenue Sewer Improvements, Yale to Rye, Jefferson Parish, LA. BFM provided topographic surveying services for the project. (\$9,593 (fee); 2009)

Kennedy Heights Sewer Lift Station, Jefferson Parish, LA. BFM provided topographic surveying services for the project. (\$4,520 (fee); 2017)

Lift Station C4-1A (N. Sibley and Boone), Metairie, Jefferson Parish, LA. BFM executed a topographic survey for the project. (\$3,660 (fee); 2017)

Cleary Avenue & West Napoleon Lift Station & Force Main, Jefferson Parish, LA. BFM provided topographic surveying services for the project. (\$9,116 (fee); 2016)

East Bank Sewer Treatment Plant, Jefferson Parish, LA. BFM executed a topographic survey for the project. (\$7,500 (fee); 2012)

Route Topographic (including Lift Station/Force Main) Surveying Services, Jefferson Parish, LA. BFM provided boundary and topographic surveys for the project, which included a force main survey involving Veterans Boulevard, between the Suburban Canal and North Hullen Street (lift station improvements). Both full and partial route surveys were executed. (\$20,000 (fee); 2016)

Lift Station D4-2 and Proposed D4-2B Surveying Services, Metairie, Jefferson Parish, LA. BFM provided boundary and topographic surveying services for the existing Lift Station, D4-2, and the proposed Lift Station, D4-2B, to be located at the corner of Olga Avenue and Howard Avenue in Metairie. BFM also provided Right-of-Way to Right-of-Way of associated streets and sites of the existing and proposed lift stations. (\$22,860 (fee); 2016)

Lakeside Mall Lift Station Servitude, Jefferson Parish, LA. BFM prepared a survey of the area needed for the replacement of a lift station on Severn Avenue. (\$2,540 (fee); 2015)

Emergency Generators for Sewer Lift Stations and Helios and West Napoleon Pump Stations, Jefferson Parish, LA. BFM prepared topographic surveys at the Helios PS and at the West Napoleon PS for the placement of emergency generators. (\$5,888 (fee); 2012)

Transcontinental & Wabash Sewer Treatment Plant, Jefferson Parish, LA. BFM executed a topographic survey for the project (Lot 1, Square 20, Pontchartrain Gardens - Sec B). (\$2,500 (fee); 2012)

TEC Professional Services Questionnaire

Other experience and qualifications relevant to the proposed Project:

Gary J. Lambert, Jr., LSI (continued)

Lift Station F8-3, Metairie, Jefferson Parish, LA. For the project (located at West Esplanade Avenue & Houma Boulevard, in the Dreyfous Tract), BFM executed a topographic survey; scope included two TBMs (Temporary Benchmarks), three point ties, and location of improvements within limits & monuments to establish apparent rights-of-way (ROW). Baseline was set parallel to West Esplanade Avenue. (\$11,890 (fee); 2019)

Sewer Lift Station L-11-1, Saddler Road at Westbank Expressway, Marrero, Jefferson Parish, LA. BFM provided surveying services for Sewer Lift Station L-11-1 (Saddler Road at Westbank Expressway) on the West Bank of Jefferson Parish in Marrero, a continuation of a previous surveying project. The new contract involved a boundary survey with servitude acquisition, updating the boundary and creating servitude, as provided by the client, which was used to create the final survey. (\$4,140 (fee); 2020)

Destrehan Lift Station Upgrades, Jefferson Parish, LA. BFM provided a full boundary survey update of the 2700 Destrehan Lift Station Upgrade project. (\$11,710 (fee); 2019)

Sewer Lift Station F8-3, W. Esplanade Avenue at Houma Boulevard, Metairie, Jefferson Parish, LA. BFM's services involved a boundary survey with servitude acquisition (updating boundary and creating servitude, which was provided by the client and utilized to create the final survey). The project was located on the East Bank of Jefferson Parish in the Dreyfous Tract region. (\$2,970 (fee); 2020)

Airline Highway Sewer Servitude Survey, City of Kenner, LA. BFM Corporation was contracted by the City of Kenner to provide surveying services for the project site. This involved the recovery of property corners on the subject lot (Stone Interiors retail site) and adjacent lots to establish and verify boundaries. BFM set 5/8 inch iron rods at the corners of the sewer servitude. The City provided BFM with the rerouted sewer line plans to facilitate placement of the servitude on the existing lot. (\$2,125 (fee); 2018)

North Arnoult Drainage Pump Station Improvements, Jefferson Parish, LA. BFM's project services included both boundary and topographic surveying of the project site. (\$6,870 (fee); 2019)

Coventry Drainage Pump Stations, Jefferson Parish, LA. BFM provided a Route Topographic Survey with Hydrographic Survey for the project, located in River Ridge, Louisiana. The limits of survey extended from right-of-way to right-of-way along Jefferson Highway, including properties southwest of Jefferson Highway between Coventry Court and Colonial Heights Road. The levee and hydrographic survey area was noted as 400 feet wide (200 ft. in either direction of the extended centerline of Colonial Heights Road). The hydrographic survey extended 500 feet into the river from the water's edge. (\$89,780 (fee); 2020)

Orange Lane Pump Station Project, Grand Isle, Jefferson Parish, LA. BFM prepared a drainage map survey for the project at the Orange Lane Pump Station located in Grand Isle. (\$23,040 (fee); 2020)

BFM CORPORATION, LLC

Professional Land & Hydrographic Surveying

PROFESSIONAL TRAINING AND EXPERIENCE

Established in 1982, **BFM Corporation, LLC, Professional Land & Hydrographic Surveying**, has provided services to public & private concerns throughout Louisiana and the Gulf South. The firm provides surveying services covering all facets of engineering, construction, and forensics; topographic, hydrographic, and high definition laser scanning.

BFM is a majority Woman-Owned Business Enterprise (WBE) as well as a Hudson Initiative certified Small & Emerging Business and Small Entrepreneurship in Louisiana.

Our capabilities include the following and more:

- **Topographic Surveys** (*determine relative positions & elevations of natural & man-made features*)
- **Drone Surveying** (*detailed multi-acre data-capturing surveying*)
- **Bathymetric / Hydrographic Surveys** (*determine shoreline and depths of bodies of water*)
- **Property, Boundary, and Right-of-Way Surveys** (*preparation of Legal Descriptions, property, and ROW maps to define project boundaries and for acquisition of property*)

TEC Professional Services Questionnaire

N. continued.

- **Maps, Cross-Sections, and Data Sets** (*plan drawings, maps, diagrams, and data sets*)
- **3D Laser Scanning** (*unify raw data & model*)
- **Benchmarks** (*establishment of permanent, temporary, and construction benchmarks*)
- **Construction-Related Surveying** (*all types*)
- **Builder's Package** (*Boundary Survey & Construction Benchmark, Certificates including Form Board, Top of Slab, & Final FEMA Elevation*)
- **ALTA Surveys** (*American Land Title Association-compliant surveys*)

Project work (property, utilities, rights-of-way, etc.) routinely involves **extensive records & related research** as an element of successful completion, as well as coordination with the client, agency or department. BFM has personnel in place to make sure this is done correctly and expeditiously.

Our **Survey Field Crews** are equipped with Leica Viva & Leica Captivate Data Collectors, as well as Leica GPS Smart Antennas. Each GPS unit is linked to the Leica SmartNet Network, giving each crew the ability for Real Time Kinematic Positioning (RTK), derived from the Global Navigation Satellite System (GNSS). Furthermore, each crew is outfitted with Leica TS series robotic total stations, simplifying and expediting projects. BFM's crews are trained to use this equipment to its full potential to maximize accuracy and efficiency in the field.

BFM offers **Drone Surveying Services**, featuring a DJI Matrice 600 Pro drone outfitted with a Sony A7R3 42 megapixel camera, Pixhawk Triggering System, VMAP PPK system, and an A3 Pro Flight Controller. It can fly with payload for 20 minutes and can capture 50 acres of land in that time (with a flight ceiling of 165 feet, pixel quality is 0.71 CM). This allows BFM to quickly & accurately capture data and facilitates quicker field work to produce highly accurate and precise surveying information. Deliverables feature Clean Point Cloud, 3D Mesh, Orthomosaic, and AutoCAD DWG Topographic.

BFM's **3D modeling capabilities** provide the ability to process and model for any design purpose. High definition scanner data is processed using software from Leica and Autodesk. Furthermore, BFM is working on non-traditional survey deliverables, including virtual tours, live walkthroughs, detailed pipe rack modeling, and modeling for use with Autodesk Revit Architecture.

Further, BFM has the ability to perform **automated bathymetry** to handle any **hydrographic surveying** task. For large rivers and bodies of water, BFM is equipped with Teledyne Odom Hydro Solutions' Hydro Trac Single Beam Echo Sounder. For smaller bodies of water, BFM uses SL20 Remote Controlled Boat equipped with CEE Scope Dual Channel Echo Sounder. The firm uses Hypack Software to process collected data. Further, BFM has the ability to execute multi-beam scans, side scans and magnetometer upon request.

PERSONNEL

BFM Corporation's **Ralph P. Fontcuberta, Jr., PLS**, is a **Louisiana-Registered Professional Land Surveyor (since 1974)** and meets or exceeds any minimum requirements for any surveying project. He has been providing surveying services in Louisiana **for over 50 years** and brings an almost incalculable wealth of experience in the region to any project, especially in Southeast Louisiana.

TEC Professional Services Questionnaire

N. continued.

BFM's **Chad M. Poché, P.E.** brings **more than 25 years of experience** to assist in completing projects on time and within budget. He has been a consulting geotechnical engineer for **more than 20 years in South Louisiana** and has been the geotechnical engineer of record for thousands of projects throughout his career.

Our personnel included **multiple survey crews** and a **fully-staffed drafting department** to handle any project needs; they are thoroughly trained and extensively familiar with the region and needs of various types of surveying projects.

SIZE OF FIRM & ABILITY TO MEET PROJECT DEADLINES

As noted, BFM has the manpower and equipment to execute any surveying task within the reasonable time set forth by the contract or project engineer. BFM has no issue with meeting the project deadlines set forth by our clients, both municipal and private. It is our continual goal to keep this reputation solid. Further, we establish base costs and fees for our services, and work with our clients to meet all project budgets.

EXPERIENCE WITH JEFFERSON PARISH

BFM has provided surveying services in **Jefferson Parish since 1982**, both **directly to Parish agencies and as a consultant to firms serving the Parish**. The firm has executed many hundreds of projects in the Parish, including both direct Parish projects and agency projects (CPRA, Louisiana DOTD, etc.), not to mention the scores of surveying projects for private individuals and industry.

As noted, Mr. Fontcuberta has **over half a century of professional land surveying experience**, including nearly 40 years with BFM. He has provided professional surveying services for **thousands of projects for and throughout Jefferson Parish**. Additional information beyond the scope of this RFQ response is available upon request.

An overview of our project work would include, but certainly not be limited to, the following:

- *Sewer Lift Station L-11-1, Saddler Road at Westbank Expressway, Marrero, Jefferson Parish, LA*
- *Sewer Lift Station F8-3, W. Esplanade Avenue at Houma Boulevard, Metairie, Jefferson Parish, LA*
- *Lift Station F8-3, Metairie, Jefferson Parish, LA*
- *Destrehan Lift Station Upgrades, Jefferson Parish, LA*
- *Sewer Lift Station L-13-6, Ehret Road, Marrero, Jefferson Parish, LA*
- *Lift Station E3-2 (Elmwood & Citrus), Metairie, Jefferson Parish, LA*
- *Saddler Street Sewer Lift Station, Marrero, Jefferson Parish, LA*
- *Lift Station F7-12 (Grace King and Rockford), Metairie, Jefferson Parish, LA*
- *Lift Station F1-1, Elmwood Industrial Park Subdivision, Jefferson Parish, LA*
- *Lift Station F7-13B (SCIP Project No. D55102), Jefferson Parish, LA*
- *Lift Station No. 6 Improvements, City of Harahan, Jefferson Parish, LA*
- *Lift Station F1-1, Elmwood Industrial Park Subdivision, Jefferson Parish, LA*
- *Lift Station C4-1A (N. Sibley and Boone), Metairie, Jefferson Parish, LA*
- *Hanson City Area Force Main Improvements, Kenner, Jefferson Parish, LA*
- *Kennedy Heights Sewer Lift Station, Jefferson Parish, LA*

TEC Professional Services Questionnaire

N. continued.

- Rehabilitation of D8-3 Lift Station (Purdue Drive & 37th Street), Metairie, Jefferson Parish, LA
- Cleary Avenue & West Napoleon Lift Station & Force Main, Jefferson Parish, LA
- Lift Station D4-2 and Proposed D4-2B Surveying Services, Metairie, Jefferson Parish, LA
- Transcontinental & Wabash Sewer Treatment Plant, Jefferson Parish, LA
- East Bank Sewer Treatment Plant, Jefferson Parish, LA
- G6-4A Sewage Treatment Plant, Jefferson Parish, LA
- West Napoleon Avenue Sewage Treatment Plant, Jefferson Parish, LA
- Elizabeth & Utica Sewerage Lift Station, Jefferson Parish, LA
- Emergency Generators for Sewer Lift Stations, Jefferson Parish, LA
- Haring Ditch Sewer Improvements, Jefferson Parish, LA
- Effluent Pump Station & Structures at Harvey Wastewater Treatment Plant, Jefferson Parish, LA
- Sewer Force Main, Kent Avenue to Transcontinental, City of Kenner, Jefferson Parish, LA
- Kent Avenue Sewer Improvements, Yale to Rye, Jefferson Parish, LA
- Bucktown Harbor Sewer Upgrade Survey, Jefferson/Orleans Parishes, LA
- Parish Line Pump Station (Pump Station No. 5), Jefferson Parish, LA
- Churchill Farms Sewer Force Main, JEDCO Business Park Southeast Land District, Jefferson Parish, LA

LOCATION OF PRINCIPAL OFFICE

BFM has called Jefferson Parish home office location since the firm's inception in 1982; our principal office is located in Jefferson Parish at **15 Veterans Memorial Boulevard** in Kenner.

PAST PERFORMANCE ON PUBLIC CONTRACTS / REFERENCES

BFM has worked with virtually every municipality in the region. We enjoy a high repeat-business rate with all our municipal & private clients. Further, we offer the following specific references for contact:

Mark R. Drewes, P.E., Director, Jefferson Parish Department of Public Works

504-736-6783; mdrewes@jeffparish.net

Tom Schreiner, Deputy CAO Public Works & Capital Projects, City of Kenner

504-468-7515; tschreiner@kenner.la.us

David Taylor, Jefferson Parish School Board Facilities Department

504-349-8595; david.taylor@jppss.k12.la.us

Keith J. LaGrange, Director, City of New Orleans Department of Public Works

504-658-8000; Keith.Lagrange@nola.gov

Our professional work history is exemplary. We strive to provide on-time and technically thorough project deliverables at the budget set by our clients.

O. To the best of my knowledge, the foregoing is an accurate statement of facts.

PROFESSIONAL TRAINING AND EXPERIENCE

Steel Inspection Services. The visual inspection of structural steel at the site or in the shop including welded and bolted connections, steel and pipe coating sampling, welder certification, and the performance of ultrasonic and x-ray testing. These services are performed by AWS Certified technicians.

Pile Logging, Load Test, and Vibration Monitoring. Provision of inspection of timber piles and other timber products, logging of job piles and test piles, furnishing of calibrated hydraulic rams, and performance of pile load tests with formal reports interpreted and signed by a registered engineer. Use of electronic instruments to monitor construction vibrations.

N. Use this space to provide any additional information or description of resources supporting Firm's qualifications for the proposed project.

Concrete Inspection Services. Design and review of mix designs, quality control at both the plant and in the field, pre-placement and post-placement inspection, aggregate sampling & testing, cementitious material sampling and testing, post tension inspection, precast inspection, and mortar and grout inspections. These services are provided by ACI certified technicians.

Soil Testing in the Laboratory. All tests are performed in accordance with ASTM, AASHTO, or LDOTD standards as per project specifications. Qualified technicians perform each test.

Soil Testing in the Field. The performance of field density tests (by nuclear gauge or sand cone method), fill placement inspection, and depth checks. Troxler certified technicians performs these services.

Asphalt Inspection Services. Review of mix designs, quality control at both the plant and in the field, materials sampling and testing. These services are performed by qualified technicians and a State certified asphalt plant inspector.

CAPACITY FOR TIMELY COMPLETION

The Beta Group has over 75 employees and is expanding in order to meet our growing client base. Our work force is composed of three Louisiana-registered professional engineers, a business development manager, an operations manager, four secretaries, and over 50 technicians.

Our laboratory has been inspected by the U.S. Army Corps of Engineers and several independent calibration laboratories. We are also certified with the American Association of State Highway and Transportation Officials (AASHTO). We have the manpower and equipment to meet the deadlines and time-frame requirements set forth by our clients.

The Beta Group has an exemplary record in regards to cost control. We employ a comprehensive cost checking program throughout the execution of the project, and have had no problems in meeting budgetary guidelines.

The Beta Group has an exemplary record in regards to cost control. We employ a comprehensive cost checking program throughout the execution of the project, and have had no problems in meeting budgetary guidelines.

PAST PERFORMANCE ON PUBLIC CONTRACTS

The Beta Group has provided services to Jefferson Parish, the City of New Orleans, Plaquemines Parish, St. Tammany Parish, St. John the Baptist Parish, St. Charles Parish, the City of Slidell, the Town of Jean Lafitte, the City of Mandeville, Hancock County, Jackson County, the City of Gulfport, the City of Biloxi, the City of Ocean Springs, the U.S. Army Corps of Engineers, the Federal Aviation Administration, not to mention clients including the Port of New Orleans, West Jefferson Medical Center and the Louis Armstrong International Airport.

As professional reference, we offer the following to attest as to the quality and caliber of our services:

Mike Noto, 985-646-4381, Director of Public Works, City of Slidell
David Degeneres, P.E., 985-624-3106, City Engineer, City of Mandeville
Buster Lyons, P.E., 504-812-6456, Sr. Project Manager, H. Davis Cole & Associates
Mark Drewes, 504-736-6505, Director of Engineering, Jefferson Parish
Geoffrey Clemons, P.E., 228-467-2770, Compton Engineering, Bay St. Louis

SIZE OF THE FIRM/WORKLOAD

Beta's workload is such that we can assign personnel to the project immediately upon Notice to Proceed. As evidenced by this form, we have over 4 dozen employees available to work on any given assignment.

N. Use this space to provide any additional information or description of resources supporting Firm's qualifications for the proposed project.

COST CONTROL

The Beta Group has an exemplary record in regards to cost control. We employ a comprehensive cost checking program throughout the execution of any project, and have encountered no problems in meeting budgetary guidelines.

STATEMENT OF LITIGATION

The Beta Group is not involved in litigation with Jefferson Parish.

STATEMENT OF OWNERSHIP

The Beta Group is majority-owned (51%) by Murray D. White, President of the firm. Mark A. Cheek owns 24.5%, and John P. Laughlin, Jr., owns 24.5% of the firm.

RE: SLDBE Re-certification Approval

Dear Murray White:

We are pleased to inform you that **The Beta Group Engineering & Construction Services, L.L.C.** has been approved for recertification as a State & Local Disadvantaged Business Enterprise (SLDBE). This approval represents certification with: City of New Orleans, Sewerage & Water Board of New Orleans, Louis Armstrong New Orleans International Airport and Harrah's New Orleans Casino & Hotel.

Your firm's contact information will be active on the online SLDBE Directory (<http://www.nola.gov/economicdevelopment/supplier-diversity/directory/>). It will reflect your areas of certification. Your specialties will be listed as:

CERTIFICATION DESCRIPTION: CONSTRUCTION MATERIALS TESTING; GEOTECHNICAL ENGINEERING; FORENSIC ENGINEERING; CIVIL ENGINEERING; SURVEYING SERVICES

NAICS 236220: PROJECT MANAGEMENT
NAICS 541330: CIVIL ENGINEERING SERVICES
NAICS 541330: ENGINEERING SERVICES
NAICS 541360: GEOPHYSICAL SURVEYING AND MAPPING SERVICES
NAICS 541370: SURVEYING AND MAPPING (EXCEPT GEOPHYSICAL) SERVICES
NAICS 541380: GEOTECHNICAL TESTING LABORATORIES OR SERVICES

A re-certification notice will be emailed to you prior to your renewal anniversary date. **However, should you not receive notification from this office for your re-certification, it is your responsibility to contact us.** Submittal of this information is necessary to ensure that there is no interruption in your certified status during your certification period. If a re-certification application is not received, we will proceed with decertification procedures.

We invite you to view City of New Orleans, Sewerage & Water Board of New Orleans, Louis Armstrong New Orleans International Airport and Harrah's New Orleans Casino & Hotel websites for SLDBE opportunities.

If we can be of further assistance, you may contact us at 504-658-4275 or via e-mail at saoliva@nola.gov.

Sincerely,

Sonia Oliva

Re: 2020 Annual Update

Dear Mr. White:

Thank you for having responded to our request for your 2020 annual update to maintain your Disadvantaged Business Enterprise (DBE) certification. We have reviewed your Affidavit of No Change, along with the supporting documents, and have determined that your firm continues to meet the DBE guidelines in 49 CFR Part 26. Thus, your firm is certified to fulfill DBE requirements on specified NOAB contracts until your next anniversary date (i.e. *March 31, 2021*).

Service(s):
