**BID FORM**  
Non Public Works

All Public Work Projects are required to use the Louisiana Uniform Public Work Bid Form

All prices must be held firm unless an escalation provision is requested in this bid. Jefferson Parish will allow one escalation during the term of the contract, which may not exceed the U.S. Bureau of Labor Statistics National Index for all Urban Consumers, unadjusted 12 month figure. The most recently published figure issued at the time an adjustment is requested will be used. A request must be made in writing by the vendor, and the escalation will only be applied to purchases made after the request is made.

Are you requesting an escalation provision?

YES \_\_\_\_\_ NO ✓

MAXIMUM ESCALATION PERCENTAGE REQUESTED N/A %

INITIAL BID PRICES WILL REMAIN FIRM THROUGH THE DATE OF N/A, end of contract

For the purposes of comparison of bids when an escalation provision is requested, Jefferson Parish will apply the maximum escalation percentage quoted by the bidder to the period to which it is applied in the bid. The initial price and the escalation will be used to calculate the total bid price. It will be assumed, for comparison of prices only, that an equal amount of material or labor is purchased each month throughout the entire contract.

All other relevant fees and taxes in this pricing structure are held constant throughout the contract. **For bidding purposes, bidder must use the OPIS PADD 3 New Orleans, Louisiana rack unbranded fuel issued December 19, 2016 for all price moves confirmed through December 15, 2016 (OPIS Vol. 36, No. 51).**

**Octane:**

The minimum octane and product specifications shall be as specified:  
87% Octane and low sulfur diesel. The EPS Energy Policy Act of 2005 states the national standard applicable to gasoline refiners and importers for 2008 is 7.76% of gasoline production and imports. The expectation is that, on average, the national pool of gasoline will contain at least 7.76% Ethanol – the RFS standard is a minimum requirement, so actual Ethanol use may be higher. The standard will be met by blending gasoline with 10% ethanol and some ethanol will find its way to E85. All motor fuels must meet or exceed federal state specifications for the ASTM test method. The motor fuel products shall be equivalent to Texaco, Exxon, or Shell. Should any equipment perform improperly from poor quality fuel, the fuel will be tested by the Parish. If fuel is found to be of lesser quality than the manufacturers listed, it shall be removed and replaced at contractor's expense.

**Fuel Tankers:**

(For Emergency Events (Hurricanes/Flood/Etc.)

Vendor must provide one (1) fuel tanker and driver on an as needed basis to be available within a twenty-four (24) hour notice during Hurricane Season or any other declared emergency.

Trucks are to arrive fully filled at designated locations on the east bank of Jefferson Parish. They MUST have full access to company owned depots to refuel as needed. Jefferson Parish MUST have first priority rights to the company's fuel depots for the duration of the emergency. The fuel tanker is to have an 8,500 gallon capacity and to be filled with 4,000 gallons of diesel fuel and 4,500 gallons unleaded fuel. Truck and driver will remain under the director of the Jefferson Parish President for the duration of the emergency.

Jefferson Parish will provide the driver with room and board with the Emergency Staff of Jefferson Parish. Driver must be licensed, insured and HAZMAT certified.

Jefferson Parish will only pay for the amount of diesel and unleaded fuel actually pumped from the tanker for Jefferson Parish use.

Jefferson Parish will pay for the time that the driver is under the direction of Jefferson Parish.

The EPA Energy Policy Act of 2005 states "the national standard application to gasoline refiners and importers for 2008 is 7.776 percent of gasoline production and imports. The expectation is that, on average, the national pool of gasoline will contain at least 7.76% of ethanol – the RFS standard in minimum requirement. Increasingly, gasoline without ethanol will be more difficult to find and it may be limited to certain areas. The change to ethanol gasoline will not affect pricing under our current contract and due to changes no additional equipment is needed at any of our on-site fueling locations.

Pricing to be for one (1) fuel tanker and one (1) driver.
