**LABOR, MATERIALS, AND EQUIPMENT NECESSARY TO LASER GRADE
FIELD THEN INSTALL SOD AT OWENS PLAYGROUND**

Bid # 50-135290

Section 1.0 – Site Visits:

Job site: Owens Playground, 11101 Newton Street, River Ridge, LA
70123

Bidders must inspect the site and perform their own measurements in order to determine the proper quantity of materials and equipment required to complete this project. All measurements given in these specifications are informational only.

To view jobsite, or set up an appointment, please contact Gary Schmidt at 504-349-5000 or gschmidt@jeffparish.net.

Section 2.0 – Scope:

The owners extend this bid to cover all labor, materials and necessary essentials to do the following:

- Laser Grade field for proper drainage and safety
- Jefferson Parish Recreation Department will provide all materials needed for grading
- A skid steer with an automated laser grade attachment and tractor with 8' drag scraper should be used to finish the grade and prepare it for sod installation
- Installation of Sod (in rolls)
 - Celebration Bermuda Sod in 90' length and 42" width will be provided

- A lightweight sod installer must be used. All equipment provided by vendor must be approved prior to awarding of bid
- All sod netting should be removed during installation process and there should no gaps or overlap in seams (between the rolls) to avoid safety issues

Section 3.0 – Bid Specifications:

Renovation of Owens Playground field for Jefferson Parish Recreation. The field is approximately 220' x 250' or 55,000 sq. ft. The field will need to be laser graded to ensure that the area will drain properly and the field is level and safe to be played on. Jefferson Parish Recreation will provide all materials that will need to be graded and the existing grade will be +/- 2". Upon completion of the laser grading, the field should have a tolerance of within ¼" over 100' and no low spots that will hold water. A skid steer with an automated laser grade attachment should be used to get the grade close to finish grade and a tractor with an 8' drag scraper should be used to finish the grade and leave the area prepared for sod.

Once the grade work is complete, sod should be installed to protect the grade and prevent washout. Certified Celebration Bermuda sod will be provided by JPRD and should be installed in Magnum rolls that are 42" wide and 90' long. Sod is installed in rolls to decrease the number of seams and decrease the amount of time the field takes to establish. Sod should be offloaded from the trucks using a skid steer and staged near the field for installation. The sod should be installed using very lightweight equipment (i.e. KWMI track mounted sod installer). This equipment is to prevent disruption of newly installed sod and reduce the disruption of the finished grade. All plastic netting should be removed from the rolls of sod during install and all seams should be pulled or pushed to prevent any gaps in between

the rolls of sod or overlap. All tubes in the sod rolls, plastic netting, and any debris should be disposed of and removed offsite.

Section 4.0 – Hours of Work:

Work shall be performed during normal working hours. All work must be scheduled with owner representative in advance.

Section 5.0 – Cleaning Area and Safety:

Job site must be clean and free of all litter and debris daily and upon completion of the contract. Passageways must be kept clean and free of material, equipment and debris at all times. Inflammable material must be removed from the job site daily, because storage will not be permitted on the premises. Precautions must be exercised at all times to safeguard the welfare and safety of the general public, employees of Jefferson Parish, and other Parish officials.

Section 6.0 – Existing Structure:

Should any cutting, patching, alteration, addition, or repairs to existing field, structure, wall, floor, ceiling or part of building be required of this project, the successful bidder shall restore the alteration to its original condition, with the same type materials, finish and workmanship.

Section 7.0 – SDS (Safety Data Sheets):

The bidder shall notify the Jefferson Parish Department of Recreation contact person of any hazardous substances that will be bought to and/or used at the workplace.

Section 8.0 – Permits:

The successful bidder shall obtain any and all permits required by the Jefferson Parish Department of Inspection and Code Enforcements. The successful bidder shall also be responsible for payment of these permits. All permits must be obtained prior to the start of the project.

Section 9.0 – Pre-Construction Conference and Notice to Proceed:

A Pre-Installation Conference shall be held between the successful bidder and the owner before any work commences.

Section 10.0 – Construction Term

Upon receiving a notice to proceed, the Bidder agrees that all work shall be completed as follows: Vendor agrees to commence actual physical work on the site with an adequate force and equipment within 10 days from the date of Notice of Proceed. All work shall be substantially completed in **TEN (10)** consecutive calendar days from date of Notice to Proceed.

STANDARD INSURANCE REQUIREMENTS FOR BIDDING PURPOSES

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the **Invitation to Bid**. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

The current insurance certificate will be used for proof of insurance at time of evaluation.
