

TEC Professional Services Questionnaire

A. Project Name and Advertisement Resolution Number:

As-Needed Basis for Architectural Services – SOQ No. 20-20 (Res. No. 136764)

B. Firm Name & Address where Project work will be performed:

Mathes Brierre
ARCHITECTS

201 St. Charles Avenue, Suite 4100
New Orleans, Louisiana 70170-4100

504.586.9303 - telephone
www.mathesbrierre.com

C. Name, title and contact information of Principal, as defined in Section 2-926 of the Jefferson Parish Code of Ordinances, who is a registered, licensed architect, professional engineer, or surveyor in the State of Louisiana:

E. Will Tregre, II, AIA, NCARB
President
Louisiana Architecture Certificate No. 4158
(504) 586-9303 – telephone
wtregre@mathesbrierre.com

D. Name and contact information of employee who is a registered and licensed architect, professional engineer, or surveyor in the State of Louisiana in the applicable discipline. A subcontractor may be substituted here only if the advertised Project requires more than one discipline.

E. Will Tregre, II, AIA, NCARB
President
Louisiana Architecture Certificate No. 4158
(504) 586-9303 – telephone
wtregre@mathesbrierre.com

E. Please provide the number of employees whose primary function corresponds with each category:

<u>6</u> Administrative	<u>2</u> **Estimators	<u>1</u> * Specification Writers
<u>14</u> Architects (Licensed)	<u> </u> Geologists	<u> </u> Structural Engineers
<u> </u> Chemical Engineers	<u> </u> Geotechnical Engineers	<u> </u> Graduate Engineers
<u>1</u> **Civil Engineers	<u>3</u> Interior Designers (Licensed)	<u> </u> Project Managers
<u>2</u> Construction Inspectors	<u>2</u> Landscape Architects (Licensed)	<u> </u> Clerical
<u> </u> Ecologists	<u> </u> Land Surveyor	<u> </u> Grant/Funding Specialist
<u> </u> Electrical Engineers	<u> </u> Mechanical Engineers	<u> </u> Sanitary Engineers
<u> </u> Engineer Intern	<u> </u> Environmental Engineers	
<u> </u> Professional Land Surveyors	<u>3</u> Architects (Interns)	<u>30</u> TOTAL

* Specification Writer is also a Licensed Architect in addition to the 13 licensed architects.

**Estimator is also a Construction Inspector. **Civil Engineer is a Construction Inspector and Estimator.

MBA employs 5 LEED Professionals.

(* employees with multiple disciplines are counted only once)

F. Is this submittal by a JOINT-VENTURE? Please check: YES ☐ NO ☒

If marked "No" skip to Section I. If marked "yes" complete Sections G-H.

TEC Professional Services Questionnaire

G. If submittal is by JOINT-VENTURE, list the firms participating and outline specific areas of responsibility (including administrative, technical, and financial) for each firm. Please attach additional pages if necessary.

1.

2.

H. Has this JOINT-VENTURE previously worked together? Please check:

YES ☐ NO ☐

I. List all subcontractors anticipated for this Project. Please note that all subcontractors must submit a fully completed copy of this questionnaire, applicable licenses, and any other information required by the advertisement. See Jefferson Parish Code of Ordinances, Sec. 2-928(a)(3). Please attach additional pages if necessary.

Name & Address:	Specialty:	Worked with Firm Before (Yes or No):
1. GVA Engineering, LLC 2615 Edenborn Avenue, Suite C Metairie, Louisiana 70002	Mechanical and Electrical Engineering	Yes
2. Morphy, Makofsky, Inc. 336 N. Norman C. Francis Pkwy New Orleans, Louisiana 70119	Civil and Structural Engineering	Yes
3.		

J. Please specify the total number of support personnel that may assist in the completion of this Project:

6 Dependent on size and complexity of any given project.

TEC Professional Services Questionnaire

K. List the professional in charge, key persons, specialists, and individual consultants anticipated for this Project and provide their relevant information below. If necessary, please attach additional documentation (i.e. resume) that demonstrates the employment history and experience of the Firm's key persons that may assist in the completion of this Project. Please attach additional pages if necessary.

PROFESSIONAL IN CHARGE OF PROJECT:

Name & Title:

E. WILL TREGRE, II, AIA, President

Project Assignment:

Principal-in-Charge of Firm participation (Landscape Architecture)
Mr. Tregre will execute any agreements necessary, during this project. He will monitor progress and budgets.

Name of Firm with which associated:

Mathes Brierre
ARCHITECTS

201 St. Charles Avenue, Suite 4100
New Orleans, Louisiana 70170-4100

Years' experience with this Firm:

36 with Mathes Brierre Architects

Education: Degree(s)/Year/Specialization:

University of Louisiana Lafayette, School of Architecture, Lafayette, LA
Bachelor of Architecture, 1984

Active registration: Year first registered/discipline:

1990 Architecture 4158 Louisiana Certificate

Other experience and qualifications relevant to the proposed Project:

With over 36 years of experience, Mr. Tregre has managed practically every project type for the firm. He has served as a lead and key member of a number of large-scale planning efforts, including a Riverfront Development Charrette. Will is also a Board Member for the City Park Improvement Association from 2001-2019, serving on multiple committees including recreation, sustainability, golf, and development. Below is a small sample of recent projects under Mr. Tregre's direction:

- Hurricane Laura Repairs - Calcasieu Parish School Board, Oak Park Elementary School, Lake Charles, LA
- Hurricane Laura Repairs - Calcasieu Parish School Board, Oak Park Middle School, Lake Charles, LA
- Hurricane Laura Repairs - Calcasieu Parish School Board, T.H. Watkins Elementary School, Lake Charles, LA

<p>ION Marine Imaging Systems Interior Build-Out, Fixtures & Finishes Harahan, Louisiana</p> <p>MBA Team: Angela Morton, Principal</p> <p>Owner's Project Manager: Billy Pittman 504.733.6061</p>	<p>This project consisted of the conversion of a 91,000-sf metal warehouse originally built in the early 1970s to a new advanced research and manufacturing facility ION Geophysical Marine Imaging. Mathes Brierre Architects provided programming and space planning to provide unique areas to support creative collaboration for 80 mechanical, electrical and software engineers. Research laboratories house a diverse array of processes for product development. Light manufacturing includes clean rooms and another 80 workstations for assembly line production of small, sensitive parts. Larger equipment and parts are assembled in the heavy manufacturing area. Administrative suite provides offices for 60 personnel including conference rooms, reception area, and storage. All departments center on a two-story common area, including a large exercise room and bicycle storage area to form a cohesive, healthy work environment. A color palette that reflects ION's brand was incorporated into the design to create a bright office space. A state-of-the-art conference room and meeting space includes the latest technology and A/V equipment for teleconferencing and presentations with clients and other ION locations.</p> <p>This project was fast-tracked using a design-build delivery method. ION's new space was available in just 4 months. The McDonnell Group was the Contractor.</p>

<p>C&M Medical Services Office Building Replacement 3223 8th Street Metairie, Louisiana</p> <p>MBA Project Team: Edward C. Mathes, Principal Ann Schmuelling, Interiors</p> <p>Owner's Project Manager: Dr. Chris Mandry cmandry@cm-med.com 504.833.7770</p>	<p>Hurricane Katrina damaged the office building that C&M Medical Services occupied on 8th Street in Metairie in 2005, and levee breaches caused flooding to the First Floor. It was decided that it would be more cost effective to demolish the existing building and to re-build. The Owner requested a new Three-story building. Mathes Brierre Architects programmed and planned the Third Floor for the C&M Medical Services' Administrative Offices. The Second Floor was constructed as raw tenant space until leased. The First Floor consists of a Lobby and Parking.</p> <p>The Owner mandated that this building have the construction and finishes typical of any Class "A" building in New Orleans. With raised panel mahogany doors, high ceilings, and spacious offices, this building achieved that status.</p>

Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility	
<p>Desire Florida Multi-Service Center City of New Orleans New Orleans, Louisiana</p> <p>MBA Team: Tony Alfortish, Principal George Hero, Senior Architect Keith Scarmuzza, Landscape Arch.</p> <p>Owner's Project Manager: Jerry Harris jeharris@nola.gov 504.658.8681</p>	<p>The City of New Orleans hired Mathes Brierre Architects to design a replacement multi-purpose facility for a community center that was destroyed during Hurricane Katrina. Since the original facility had a valuable design quality, the intent of the City of New Orleans is to replace the facility with a building that also had a high design value. The program consisted of flexible multi-purpose spaces for different types of activities from community meetings to recreational classes. The scope of work also included full site design with on-site parking and outdoor gathering/activity spaces. Taking cues from the historic residential forms such as the Dogtrot House and Shotgun House, Mathes Brierre created a residential feel that is respective of the majority of the residential make-up of the Desire and Florida neighborhoods. Understanding the communal environment of working-class family homes across the New Orleans area, we can recreate a feeling of every home's favorite hangout, "The Porch". The front and rear porch element allows for users to have the space to congregate in a multitude of locations around the facility.</p>

Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility:	
<p>Low Barrier Shelter Phases I & II City of New Orleans 1530 Gravier Street New Orleans, Louisiana</p> <p>MBA Team: Tony Alfortish, Principal Angela Morton Mary Thibodeaux, Interiors</p> <p>Owner's Project Manager: Rodney Dionisio radionisio@nola.gov 504.658.8042</p>	<p>The Low Barrier Shelter Phase I is an interior build out within one floor of the existing VA Hospital building. The shelter is a substantial step toward ending homelessness altogether in the City of New Orleans. This facility will ensure the community's safety net for vulnerable and chronically homeless people is maximally accessible and will provide both security and dignity to a population that otherwise feels overlooked and neglected. The shelter is open 24 hours a day, year-round and offers support to all homeless adults. The new shelter consists of living/ lounge space, sleeping for approximately 100, restrooms and showers, kitchen, and flexible office space. At the heart of the facility is the Command Center. The Command Center is the check-in point for those entering the shelter. It provides a vantage point for monitoring and functions as a reception desk, an information desk and a staff workstation. The renovation also included the new construction of an exterior stair and an outdoor space provided with large fabric sunshades.</p> <p>Phase II expands space on the second floor and builds out the third floor for additional beds, a full-service commercial kitchen, showers, and restrooms.</p> <p style="text-align: center;">Phase I – 13,120 sf Phase II – 43,521 sf</p>

PROJECT NO. 9

Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility:	
<p>Plaquemines Medical Center Port Sulphur, Louisiana</p> <p>MBA Team: Angela Morton, Principal Mary Thibodeaux, Interiors Keith Scarmuzza, Landscape Arch.</p> <p>Owner's Project Manager: Plaquemines Medical Center Dale Adams, Chairman chairman@plaqueminesmedicalcenter.com 504.628.6321</p>	<p>After the existing facility was destroyed by Hurricane Katrina in 2005, it was decided that Plaquemines Medical Center would be rebuilt, with the help of FEMA funding, as an updated storm protected facility at a new more convenient site in Port Sulphur. As a FEMA "improved project", the structure was raised to be clear of a 23-foot-high storm surge and a ramp was provided to bring emergency vehicles up to the urgent care center on the Second Floor, with a Helipad on the roof.</p> <p>Plaquemines Medical Center was built as a 24-hour hold facility, with the ability to convert in the future as needed to full inpatient hospital care. The facility includes emergency services, including imaging and diagnostic and treatment rooms on its main level. Additionally, a full Pharmacy was built-out, leased to a separate vendor, on the lower level of the facility. The upper level, or 3rd floor, includes multiple specialty suites built as tenant-ready facilities. The owner group realized that multiple specialties could benefit from the space, but the best use of resources was to bring different specialists on different days. Tulane established a multi-specialty clinic in the building. A specialized suite was built for an Ophthalmology clinic. A full suite was built out for a Dentist, including x-ray, 3 exam and cleaning stations, and state of the art bench as well as lab area.</p> <p>The new Medical Center is fully supported with emergency generation and water supply, outdoor utility hook-ups installed for mobile dialysis unit, and multi-purpose large van clinics. The structure is constructed entirely of concrete; the exterior façade is of precast concrete and tinted laminated glass.</p>

Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility:	
<p>Hancock Whitney Center New Office and Bank Branch 701 Poydras Street Floor 2, Floors 13-16, 30-34 New Orleans, Louisiana</p> <p>Owner's Project Manager: Mr. Stephen Barnett Steven.barnett@hancockwhitney.com</p>	<p>The project consists of nine (9) floors of 701 Poydras Street and includes offices for 54 departments (+800 employees), and the main bank branch on the plaza level. The Executive Floor includes a 22-person Board Room with state-of-the-art A/V facilities, warming/catering kitchen, additional restrooms and dining facility. Other office spaces utilized premanufactured DIRRT wall systems with Level 4 Electrical. A fully equipped 700sf employee breakroom is located Floor 15 and there are 2 coffee points per floor. Elevator Lobby renovations consists of minor finish upgrades as well as new ceiling treatment at the existing coffers as well as replacement lighting. Entrance doors will be relocated and be on the new card access system.</p> <p>Hancock Whitney relocated their headquarters from its historical St. Charles Avenue location to the newly named Hancock Whitney Center, the former One Shell Square. The relocated Bank Branch includes a Conferencing Center for meetings with bank customers and clients. The space has been designed to bring some of the elegant design elements of their original bank into their new contemporary setting. The rebranding reflecting the Hancock Whitney merger also required new signage for all their facilities including the atop the Hancock Whitney Center.</p>

OFFICE CAPABILITIES

Our office has the capability and availability for as-needed architectural services. **Our projected availability** in the next two years has increased, as some major projects will have completed in our office, including the \$330 million campus for The National World War II Museum. With a professional staff of 30, including 2 full time Contract Administrators, a Specification Writer, and our professional architects, interior designers, and landscape architects we have the flexibility to accommodate the workload for as-needed services. Our office also includes an in-house estimator, whose first career was as a contractor, and provides estimating support on our work. We are able to deliver projects on budget with a Change Order average of less than 2.5% on publicly bid work. We pride ourselves on maintaining the owner's budget throughout the process through careful design, detailed documentation, and frequent cost-estimating. Our firm has maintained a staff of over 30 for decades; this stability provides us with consistent availability for the needs of Jefferson Parish.

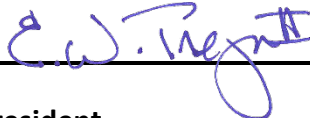

We have managed a number of long-term on-call contract services, as well as work for numerous municipalities and public entities to provide publicly bid design service. Our on-call work includes a decades long relationship with AT&T in multiple states, Chevron, Cox Communications, and Entergy. This work has included building waterproofing and envelope work, mechanical and site upgrades, as well as office space planning and interior build out for all types of buildings including critical infrastructure, maintenance support, and professional office.

Our public works experience includes many Louisiana Parishes as well as state projects. We have completed successful municipal and public projects in Plaquemines, St. Bernard, St. Tammany, and Orleans. Most recently, we are in the construction phase on a new media center for Grambling State University, a new library for St. Bernard Parish, and have recently completed construction on the City of New Orleans' Low-Barrier Shelter Phase I. We were also selected and are starting construction services on a major expansion of this shelter to meet new demands and, we completed design work in a fast-track process.

We also have a history of **successful projects in Jefferson Parish**, including major office construction and interior fit outs, renovations and expansion of Metairie Country Club, a new building for St. Philip Neri Early Learning Center, renovations of the Holiday Inn Metairie, interior build-out for the School of Rock, and renovations Jefferson Rise Charter School, as well as projects for corporations including Cox, and AT&T in Jefferson Parish.

We are hopeful of the opportunity to begin a long-term, successful relationship with Jefferson Parish.

O. To the best of my knowledge, the foregoing is an accurate statement of facts.

PROFESSIONAL IN CHARGE OF PROJECT:

Name & Title:

David C. Code, P.E., Principal

Project Assignment:

Principal-in-Charge of Mechanical Design

Name of Firm with which associated:

GVA Engineering, L.L.C.

Years' experience with this Firm:

With this firm: 26 years (38 total years experience)

Education: Degree(s)/Year/Specialization:

Tulane University - 1983, BS in Mechanical Engineering

Active registration: Year first registered/discipline:

LA Professional Mechanical Engineer, 1988
National Council of Examiners for Engineers and Surveying
LEED Accredited Professional: 2008

Other experience and qualifications relevant to the proposed Project:

David remained at Guillot-Vogt until the establishment of GVA Engineering, L.L.C. in 1995. GVA Engineering, L.L.C., was established to continue the mechanical and electrical departments of Guillot-Vogt upon the retirement of its founder, E. Carlton "Corky" Guillot. David serves the firm as the principal in charge of mechanical design. He conducts design and quality control reviews for GVA's projects throughout the design process. He also immerses himself in considerable hands-on activities during programming, design, and construction administration phases.

David has served as project mechanical engineer and principal-in-charge for numerous Jefferson Parish and Indefinite Delivery projects including:

- Jefferson Parish Indefinite Delivery Contract Dept. of Gen. Services and Procurement (2001-2004)
- Jefferson Parish Emergency Telecommunications and Emergency Operations Center Gretna, LA - New Facility
- Jefferson Parish 24th Judicial Courthouse Renovations
- Keesler Air Force Base; Biloxi, MS 12-year Indefinite Delivery Contract
- Indefinite Delivery Contract for LSU Health Sciences Center New Orleans Downtown Campus

Mr. Code has served as Project Mechanical Engineer for numerous projects involving design of HVAC, plumbing and fire protection systems, including the following:

- Renovations to the Louisiana State Supreme Courthouse – 400 Royal Street, New Orleans, Louisiana
- Numerous projects at West Jefferson Medical Center including the New Central Plant completed in 2006.
- St. Bernard Hospital Replacement Project
- New school projects in Jefferson, St. Charles, Orleans and St. Bernard Parishes
- Katrina Repairs to the USPS Mail Handling Facility – New Orleans
- Ten Story Elmwood Towers (opposite the Yenni Building) Katrina Repairs and Renovations

David is a LEED Accredited Professional for the Green Building Certification Institute and is currently working on several certified (Green) buildings.

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
Leon R. Pesses, P. E., Principal
Project Assignment:
Principal-in-Charge of Electrical Design
Name of Firm with which associated:
GVA Engineering, L.L.C.
Years' experience with this Firm:
With this firm: 26 years (50 total years experience)
Education: Degree(s)/Year/Specialization:
Tulane University - 1971, BS in Electrical Engineering
Active registration: Year first registered/discipline:
LA Professional Electrical Engineer, 1979
Other experience and qualifications relevant to the proposed Project:
<p>Leon joined Guillot-Vogt Associates in 1978 after obtaining design/build experience with Fischbach and Moore Electrical Contractors. He served Guillot-Vogt Associates as Electrical Department Head for fifteen years until organizing GVA Engineering, L.L.C. in May 1995. Leon serves the firm as the principal in charge of the electrical design. He is hands-on in the design effort for most projects and also directs the efforts of others. He has an extremely wide range of experience that allows him to quickly evaluate and determine system types appropriate for each project.</p> <p>Leon served as Project Manager and Lead Electrical Engineer for the 4-megawatt electrical engine generator project at East Jefferson General Hospital. Leon has served as Project Electrical Engineer for over 2,300 projects including Hospitals, Nursing Homes, Assisted Living Facilities, Airports, Convention Centers, Schools, Prisons, Commercial Facilities and Military Facilities.</p> <p>Mr. Pesses has served as project electrical engineer and principal-in-charge for numerous Jefferson Parish and Indefinite Delivery projects including:</p> <ul style="list-style-type: none"> • Jefferson Parish 24th Judicial Courthouse Renovations - Gretna, LA • Jefferson Parish Mike Miley Playground Metairie, LA - New Facility • West Jefferson Medical Center; Marrero, LA - Indefinite Delivery Contract Support Services & Energy Ctr. • United States Postal Service Indefinite Delivery Contract - New Orleans, LA • Veterans Administration Medical Center Indefinite Delivery Contract; New Orleans, LA <p>Mr. Pesses served as Project Manager and Lead Electrical Engineer for the 4-megawatt electrical engine generator project at East Jefferson General Hospital. Mr. Pesses also served as Project Manager and Lead Electrical Engineer for a similar project at the USDA National Finance Center at the Michoud Assembly Facility involving a 6-megawatt engine generator plant. The USDA project included paralleling and closed-transition transfer switchgear to serve the entire Finance Center.</p> <p>Mr. Pesses has served as Project Engineer for the design of a complete fire alarm system replacement at the East Jefferson General Hospital, the 27-story Hibernia National Bank Building, the Thibodaux General Hospital, the Veterans Administration Medical Center in New Orleans, the West Jefferson General Hospital, 25 buildings at the U. S. Public Health Service Hospital in Carville and 10 buildings at the University of New Orleans. These fire alarm systems were installed while these facilities were fully occupied and functioning.</p>

M. List all prior and/or on-going litigation between Firm and Jefferson Parish. Please attach additional pages if necessary.

Parties:		Status/Result of Case:
Plaintiff:	Defendant:	
1. N/A		
2.		
3.		
4.		

N. Use this space to provide any additional information or description of resources supporting Firm's qualifications for the proposed project.

BACKGROUND - GVA Engineering L.L.C. is a mechanical and electrical engineering firm that provides planning, design, and construction administration services for commercial, institutional, and governmental facilities in Louisiana, Mississippi, and surrounding states. These services include mechanical, electrical, fire suppression systems, medical gas systems, construction phase administration, and construction phase analysis. Leon R. Pesses P.E. and David C. Code P.E. established GVA in May 1995. Both Mr. Pesses and Mr. Code had served as department heads at Guillot-Vogt Associates prior to their organization of GVA Engineering. With its roots in the decades-old company of Guillot-Vogt Associates, GVA has experience and resources beyond its years. Since Hurricane Katrina in 2005, GVA has played a key role in numerous rebuilding projects throughout the Gulf Coast region.

MANAGEMENT/ORGANIZATION/PRODUCTION/QUALITY CONTROL CAPABILITY - GVA Engineering, L.L.C. has completed numerous projects for buildings throughout the New Orleans area. Many of these projects entail specialized climate control to accommodate archival storage, libraries, or museum exhibits. David Code P.E. would serve as the principal-in-charge of the project. David would be GVA's direct point of contact for the work. David would attend project meetings and would stay fully engaged throughout the term of the work. David would be assisted by Chris Cox P.E. Chris is one of GVA's registered professional mechanical engineers and serves the firm as Lead Engineer / Project Manager for many of our projects. Any necessary electrical engineering support would be provided by Leon Pesses, P.E. or Jonathan Bernard P.E. Principals David Code P.E. and Leon Pesses P.E. are actively involved in the design and review of all projects. With over 60 years combined experience, these men are experts in their field. They, along with their team, aim to deliver the highest quality of professional services to all clients. The Principal-In-Charge takes a hands-on approach in each project from conception to completion. Design is reviewed for technical accuracy, constructability, cost, and conformance with client goals.

CAPACITY FOR TIMELY COMPLETION OF NEWLY ASSIGNED WORK - GVA's Principals are involved in critical decision making and continuously oversee project schedules, providing additional staff and resources when necessary. One of GVA's primary strengths is its ability to work on a large range of projects. GVA provides professional mechanical and electrical services on both large and small projects in all types of facilities. GVA's engineers have worked on hospitals, outpatient and surgical centers, medical imaging centers, cancer treatment centers, elementary and secondary schools, university campus projects, historic buildings, central plants, and a multitude of other project types. These projects include new construction, renovations, additions, and multiple types of updates. This immense diversity of experience allows GVA to effectively approach each new task by calling on knowledge from all areas of the construction industry. GVA completes an average of 90 - 100 projects annually.

FIRM SIZE - GVA has several licensed engineers with more than 10 years of healthcare experience including three licensed professional mechanical engineers and three licensed professional electrical engineers. All of these professionals can be assigned to the project if the assigned workload demands. GVA's staff also includes two graduate engineers, two senior level designers, and two technical support staff members used to assist with Revit 3D & AutoCAD production and provide other technical support. The above listed team members will be directly involved with project evaluation, project design, drafting of technical plans, development of technical specifications and construction administration. Three of GVA's Professional Engineers are accredited professionals in executing Leadership in Energy and Environmental Design (LEED). The firm has completed many LEED certified projects which meet or exceed the latest standards in energy efficiency.

PAST PERFORMANCE ON GVA PROJECTS - GVA, currently and in the past has successfully worked on a wide range of projects. Our projects have been delivered on time and within funding available without design inadequacies.

REFERENCES - The following are a few references who are well familiar with multiple projects GVA has designed for their facilities.

he/ she is the fully authorized Member of GVA Engineering, LLC (Entity),

the party who submitted a Statement of Qualifications (SOQ) to Jefferson Parish Architectural and Engineering Projects Resolution No. 136764 (Briefly describe the services the SOQ will cover), to the Parish of Jefferson.

Affiant further said:

Campaign Contribution Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A _____

Attached hereto is a list of all campaign contributions, including the date and amount of each contribution, made to current or former elected officials of the Parish of Jefferson by Entity, Affiant, and/or officers, directors and owners, including employees, owning 25% or more of the Entity during the two-year period immediately preceding the date of this affidavit or the current term of the elected official, whichever is greater. Further, Entity, Affiant, and/or Entity Owners have not made any contributions to or in support of current or former members of the Jefferson Parish Council or the Jefferson Parish President through or in the name of another person or legal entity, either directly or indirectly.

Choice B √

there are **NO** campaign contributions made which would require disclosure under Choice A of this section.

Affiant further said:

Debt Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A _____

Attached hereto is a list of all debts owed by the affiant to any elected or appointed official of the Parish of Jefferson, and any and all debts owed by any elected or appointed official of the Parish to the Affiant.

Choice B ✓

There are **NO** debts which would require disclosure under Choice A of this section.

Affiant further said:

Solicitation of Campaign Contribution Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A _____

Attached hereto is a list of all elected officials of the Parish of Jefferson, whether still holding office at the time of the affidavit or not, where the elected official, individually, either by **telephone or by personal contact**, solicited a campaign contribution or other monetary consideration from the Entity, including the Entity's officers, directors and owners, and employees owning twenty-five percent (25%) or more of the Entity, during the two-year period immediately preceding the date the affidavit is signed. Further, to the extent known to the Affiant, the date of any such solicitation is included on the attached list.

Choice B ✓

there are **NO** solicitations for campaign contributions which would require disclosure under Choice A of this section.

Affiant further said:

Subcontractor Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A _____ Affiant further said that attached is a listing of all subcontractors, excluding full time employees, who may assist in providing professional services for the aforementioned SOQ.

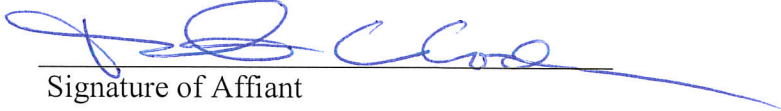

Choice B ✓_____ There are **NO** subcontractors which would require disclosure under Choice A of this section.

Affiant further said:

That Affiant has employed no person, corporation, firm, association, or other organization, either directly or indirectly, to secure the public contract under which he received payment, other than persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project or in securing the public contract were in the regular course of their duties for Affiant; and

[The remainder of this page is intentionally left blank.]

That no part of the contract price received by Affiant was paid or will be paid to any person, corporation, firm, association, or other organization for soliciting the contract, other than the payment of their normal compensation to persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project were in the regular course of their duties for Affiant.

F. Is this submittal by a JOINT-VENTURE? Please check: YES ☐ NO ☒

If marked "No" skip to Section I. If marked "yes" complete Sections G-H.

TEC Professional Services Questionnaire

G. If submittal is by JOINT-VENTURE, list the firms participating and outline specific areas of responsibility (including administrative, technical, and financial) for each firm. Please attach additional pages if necessary.

1.

N/A

2.

N/A

H. Has this JOINT-VENTURE previously worked together? Please check:

YES ☐ NO ☐

I. List all subcontractors anticipated for this Project. Please note that all subcontractors must submit a fully completed copy of this questionnaire, applicable licenses, and any other information required by the advertisement. See Jefferson Parish Code of Ordinances, Sec. 2-928(a)(3). Please attach additional pages if necessary.

Name & Address:	Specialty:	Worked with Firm Before (Yes or No):
1. N/A		
2. N/A		
3. N/A		

J. Please specify the total number of support personnel that may assist in the completion of this Project:

N/A

TEC Professional Services Questionnaire

K. List the professional in charge, key persons, specialists, and individual consultants anticipated for this Project and provide their relevant information below. If necessary, please attach additional documentation (i.e. resume) that demonstrates the employment history and experience of the Firm's key persons that may assist in the completion of this Project. Please attach additional pages if necessary.

PROFESSIONAL IN CHARGE OF PROJECT:

Name & Title:

Jamie Saxon, P.E.
President

Project Assignment:

Senior Project Manager

Name of Firm with which associated:

Morphy, Makofsky, Inc.

Years' experience with this Firm:

28

Education: Degree(s)/Year/Specialization:

Bachelor of Science, Civil Engineering, 1992
University of Adelaide, Australia

Active registration: Year first registered/discipline:

Professional Engineer Louisiana License No. 30529 - 2003

Other experience and qualifications relevant to the proposed Project:

Jamie Saxon has been responsible for foundation and structural design and analysis on residential, commercial, military, industrial, levee structures (earthen and pile supported T-walls), and drainage pump stations. Many of these projects have included dock and wharf structures. His designs have included many complex and unique foundation systems. He has also designed temporary and permanent cantilevered and anchored sheet pile bulkheads and cofferdams as part of the Hurricane Protection systems in the post Katrina landscape. Mr. Saxon also has experience with damaged wharves. His duties have included field investigations to assess damages, formulation and detailing of necessary repairs, cost estimation, and supervision of the repairs. These wharves are located along the Mississippi River, canals, and the Mississippi Delta region.

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
Jonathan Sofranko, P.E. Secretary/Treasurer
Project Assignment:
Senior Structural Engineer
Name of Firm with which associated:
Morphy, Makofsky, Inc.
Years' experience with this Firm:
27
Education: Degree(s)/Year/Specialization:
Bachelor of Science, Civil Engineering, 1994 Tulane University, New Orleans, Louisiana
Active registration: Year first registered/discipline:
Professional Engineer Louisiana License No. 28228 – 1999 Also Licensed in 15 other states
Other experience and qualifications relevant to the proposed Project:
<p>During his tenure with MMI, Jonathan Sofranko has worked his way from Junior Engineer to Partner. He has been responsible for the design and production of construction documents for buildings and structures ranging in size from large residential homes to mid-rise hotel towers. He is proficient in designing the super-structures of buildings in steel, conventionally reinforced concrete, post tensioned concrete, and wood. His structural experience includes the design and analysis of reinforced concrete, post-tensioned concrete, structural steel, and composite framing systems, as well as foundations. Mr. Sofranko has performed wind, seismic, and adaptive reuse analyses for multiple types of structures including various high rise hotels, medical facilities, and corporate facilities. He has extensive experience and knowledge in three dimensional modeling.</p>

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
Alexander Hart, P.E.
Project Assignment:
Junior Structural Engineer
Name of Firm with which associated:
Morphy, Makofsky, Inc.
Years' experience with this Firm:
3
Education: Degree(s)/Year/Specialization:
Bachelor of Science, Civil Engineering, 2011 (Structural Specialization) Georgia Institute of Technology, Atlanta, Georgia
Active registration: Year first registered/discipline:
Professional Engineer Louisiana License No. 40504 - 2016
Other experience and qualifications relevant to the proposed Project:
Alex Hart is knowledgeable in the design of structural steel, concrete, wood and masonry structures and has experience in the design of pile and soil supported foundations. He is also proficient with multiple computer design programs including RISA, RAM, Etabs and Elements. Mr. Hart's structural design experience has included working on projects of varying scales of cost and complexity. These projects range from small to mid-rise structures, multi-story historic restorations and large school projects.

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
Greg Eckert, AIA, NCARB Technical Assistant
Project Assignment:
Technical Specifications
Name of Firm with which associated:
Morphy, Makofsky, Inc.
Years' experience with this Firm:
10
Education: Degree(s)/Year/Specialization:
Bachelor of Arts, Architecture, 2003 Louisiana State University, Baton Rouge, Louisiana
Active registration: Year first registered/discipline:
Louisiana Architectural License No. 8239 – 2015 NCARB Certificate No. 80339
Other experience and qualifications relevant to the proposed Project:
<p>Mr. Eckert is responsible for the production of MMI's construction specifications as a written counterpart to the construction drawings. This role requires a thorough understanding of structural and civil materials with an emphasis in concrete, steel, and pile supported construction as well as an understanding of the quality of construction required by each client. Mr. Eckert is familiar with all MasterSpec formats and ensures that each set of project specifications is tailored to the meet the client's needs and the requirements of the code. Mr. Eckert is practiced in authoring not only the structural and civil components of the project manual, but also coordinating the addition of sub-consultant specifications, Division 00 Procurement & Contracting Documents, and Division 01 General Requirements for the client.</p>

TEC Professional Services Questionnaire

KEY PERSON, SPECIALIST, OR INDIVIDUAL CONSULTANT:
Name & Title:
Shishir C. Pedamkar, EIT Civil Engineer
Project Assignment:
Civil Engineer
Name of Firm with which associated:
Morphy, Makofsky, Inc.
Years' experience with this Firm:
13
Education: Degree(s)/Year/Specialization:
Master of Engineering, Lamar University, 2003 Bachelor of Science, Civil Engineering, Mumbai University, 2000
Active registration: Year first registered/discipline:
Texas Engineer in Training, 2015
Other experience and qualifications relevant to the proposed Project:
<p>Prior to working at Morphy, Makofsky, Inc., Mr. Pedamkar had spent four years working in and around the construction industry in different districts of Florida and Georgia. He possesses a broad range of technical and leadership skills and uses rigorous logic to come up with effective design solutions to meet the client's requirements.</p> <p>Mr. Pedamkar's experience in the design requirements of Environmental Protection permit programs (DEP, TPDES, TCEQ and NPDES) has proven to be valuable asset to MMI. Mr. Pedamkar is also very proficient with relevant civil engineering design software's such as AutoCAD, Civil 3D, and Storm-Sewer Extensions to Civil 3D.</p>

TEC Professional Services Questionnaire

L. Work by Firm or Joint-Venture members which best illustrates current qualifications relevant to this Project. Please include any and all work performed for Jefferson Parish. Please attach additional pages if necessary.

PROJECT NO. 1

Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility:	
Patrick Taylor Science & Technology Academy 701 Churchill Pkwy Avondale, Louisiana Owner: JEDCO 3445 Causeway Blvd. Suite 300 Metairie, LA 70002	Provided structural and civil engineering services for the construction of the 114,000 square foot state-of-the-art facility. The project includes the construction of three major classroom buildings, cafeteria, auditorium, robotics and biotech laboratories and an 11,000 square foot event center that will be the western gateway to the business park.	
Completion Date (Actual or estimated):	Estimated Cost:	
	Entire Project:	Work for which Firm was Responsible:
2013 (Actual)	\$31,250,000	\$10,000,000

PROJECT NO. 2

Project Name, Location and Owner's contact information:	Nature of Firm's Responsibility:	
JEDCO Office Building 700 Churchill Pkwy Avondale, Louisiana Owner: JEDCO 3445 Causeway Blvd. Suite 300 Metairie, LA 70002	Provided structural and civil engineering services for three separate buildings built to be energy efficient inside the Churchill Technology and Business Park.	
Completion Date (Actual or estimated):	Estimated Cost:	
	Entire Project:	Work for which Firm was Responsible:
2013 (Actual)	\$4,856,000	\$1,550,000

Morphy, Makofsky, Inc.'s consulting services include design, studies, estimates, contract administration of engineering projects, and the structural phases of architectural projects. MMI currently employs twenty-two structural, foundation, and civil engineers; CAD technicians; construction observers; specification writers; and administrators. Professional personnel are appropriately registered as professional engineers or engineers in training. It is our goal to execute designs which will simplify construction and minimize construction schedules, while maintaining an impeccable standard of care during and after the construction process. The MMI administrative team works closely with all disciplines to ensure that deadlines are met and that projects remain on schedule and on budget. MMI's expert team of drafters produces the highest-quality and most accurate drawings using cutting-edge software including the latest release of Autodesk Revit Structure, AutoCAD, AutoCAD Civil 3D, and Microstation. It has been, and will continue to be, the aim of Morphy, Makofsky, Inc. to render its services in accordance with the highest moral and ethical standards. This knowledge, together with the vast experience accumulated over the years, provides clients with the assurance that Morphy, Makofsky, Inc. is uniquely qualified to render professional engineering services.

O. To the best of my knowledge, the foregoing is an accurate statement of facts.
