**Subject:** Requested Quotes  
**Attachments:** JEFFERSON PARISH - LA AVL-9 LAMARQUE.pdf; JEFFERSON PARISH - LA AVL-9 LAMARQUE - AC ONLY.pdf

Good Morning Sterling,

Attached with this e-mail are the two quotes you requested, for a Mavron AVL-9 animal transport conversion, Jefferson Parish.

The first quote includes an auxiliary heat/ac unit which would provide both air conditioning and heat ducted into the animal cages. The second quote assumes the use of the factory ac unit only. This second bid (using the factory AC), creates a few problems with cage assembly/installation, but these can be worked out. I have inserted below, part of an e-mail sent to another customer, relating to these problems.

It has come to our attention that the new full size Ford Transit cargo van Heat/ac system is radically different that the system used in the Econoline series vans, and will not work with many of Mavron's Conversions. Here are the problems with the new Ford Transit's factory rear heat/ac system.

- 1) The rear heater is no longer together with the rear AC system. Rear AC coil is installed in the back left corner, same vicinity as the Econoline, but the heater coil is now located quite inconveniently under the cab passenger seat.
- 2) The rear ac system protrudes much further into the cargo aisle than the old Econoline system, several inches beyond the wheel well, thus interfering with proper cage installation, in many applications.
- 3) While we have not measured the airflow with a meter, it appears by feel as though CFM airflow has been diminished, thereby impeding proper airflow to animal cages.

Taking all things into consideration, your location and limited requirements for heat, etc., the factory unit may be acceptable. This is decision that needs to be made by Jefferson Parish's Animal Control.

Once you have reviewed this information, do not hesitate to call or e-mail me if I can be of further assistance, you have any questions, or require additional information.

Best Regards,

**U.S. person.** Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee.

In 3 above, if applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.
