## **General Professional Services Questionnaire Instructions**

- The General Professional Services Questionnaire shall be used for all professional services except outside legal services and architecture, engineering, or survey projects.
- **The General Professional Services Questionnaire should be completely filled out. Complete and attach ALL sections. Insert “N/A” or “None” if a section does not apply or if there is no information to provide.**
- Questionnaire must be signed by an authorized representative of the Firm. Failure to sign the questionnaire shall result in disqualification of proposer pursuant to J.P. Code of Ordinances Sec. 2-928.
- All subcontractors must be listed in the appropriate section of the Questionnaire. Each subcontractor must provide a complete copy of the General Professional Services Questionnaire, applicable licenses, and any other information required by the advertisement. Failure to provide the subcontractors' complete questionnaire(s), applicable licenses, and any other information required by the advertisement shall result in disqualification of proposer pursuant to J.P. Code of Ordinances Sec. 2-928.
- If additional pages are needed, attach them to the questionnaire and include all applicable information that is required by the questionnaire.

**General Professional Services Questionnaire**

**A. Project Name and Advertisement Resolution Number:**

DRUG SCREENING

Resolution No.  
140604

**B. Firm Name & Address:**

LAB ANALYTICS LLC  
40070 CANE AVENUE STE 400  
SLIDELL, LA 70461

**C. Name, title, & contact information of Firm Representative, as defined in Section 2-926 of the Jefferson Parish Code of Ordinances, with at least five (5) years of experience in the applicable field required for this Project:**

DEMTARIUS BRAILEY  
MANAGER / OWNER  
(985) 265-4252

**D. Address of principal office where Project work will be performed:**

40070 CANE AVENUE STE 400  
SLIDELL, LA 70461

**E. Is this submittal by a JOINT-VENTURE? Please check:**

YES \_\_\_\_\_ NO ☒

If marked "No" skip to Section H. If marked "Yes" complete Sections F-G.

**F. If submittal is by JOINT-VENTURE, list the firms participating and outline specific areas of responsibility (including administrative, technical, and financial) for each firm. Please attach additional pages if necessary.**

1.

N/A

2.

## General Professional Services Questionnaire

G. Has this JOINT-VENTURE previously worked together? Please check: YES \_\_\_\_\_ NO ☒

H. List all subcontractors anticipated for this Project. Please note that all subcontractors must submit a fully completed copy of this questionnaire, applicable licenses, and any other information required by the advertisement. See Jefferson Parish Code of Ordinances, Sec. 2-928(a)(3). Please attach additional pages if necessary.

CENTERS FOR MEDICARE & MEDICAID SERVICES  
CLINICAL LABORATORY IMPROVEMENT AMENDMENTS  
CERTIFICATE OF REGISTRATION

LABORATORY NAME AND ADDRESS  
LAB ANALYTICS LLC  
663 BROWNSWITCH ROAD, SUITE 2  
SLIDELL, LA 70458

CLIA ID NUMBER  
19D2204239

EFFECTIVE DATE  
03/23/2021

LABORATORY DIRECTOR  
VIDHYA D NARAYANAN Ph.D.

EXPIRATION DATE  
03/22/2023

Pursuant to Section 353 of the Public Health Services Act (42 U.S.C. 263a) as revised by the Clinical Laboratory Improvement Amendments (CLIA), the above named laboratory located at the address shown hereon (and other approved locations) may accept human specimens for the purposes of performing laboratory examinations or procedures.

This certificate shall be valid until the expiration date above, but is subject to revocation, suspension, limitation, or other sanctions for violation of the Act or the regulations promulgated thereunder.

*Monique Spruill*  
Monique Spruill, Director  
Division of Clinical Laboratory Improvement & Quality  
Quality & Safety Oversight Group  
Center for Clinical Standards and Quality

2190 Certs1\_051821

- If this is a Certificate of Registration, it represents only the enrollment of the laboratory in the CLIA program and does not indicate a Federal certification of compliance with other CLIA requirements. The laboratory is permitted to begin testing upon receipt of this certificate, but is not determined to be in compliance until a survey is successfully completed.
- If this is a Certificate for Provider-Performed Microscopy Procedures, it certifies the laboratory to perform only those laboratory procedures that have been specified as provider-performed microscopy procedures and, if applicable, examinations or procedures that have been approved as waived tests by the Department of Health and Human Services.
- If this is a Certificate of Waiver, it certifies the laboratory to perform only examinations or procedures that have been approved as waived tests by the Department of Health and Human Services.

FOR MORE INFORMATION ABOUT CLIA, VISIT OUR WEBSITE AT [WWW.CMS.GOV/CLIA](http://WWW.CMS.GOV/CLIA)  
OR CONTACT YOUR LOCAL STATE AGENCY. PLEASE SEE THE REVERSE FOR  
YOUR STATE AGENCY'S ADDRESS AND PHONE NUMBER.

PLEASE CONTACT YOUR STATE AGENCY FOR ANY CHANGES TO YOUR CURRENT CERTIFICATE.

**COLA ID:** 30990  
**CLIA ID:** 19D2204239  
03/19/21

Dear Vidhya Narayanan:

This letter confirms that LAB ANALYTICS LLC, directed by Vidhya Narayanan is enrolled in the COLA Laboratory Accreditation program.

COLA is approved by the Centers for Medicare and Medicaid Services (CMS) as a private, non-profit accrediting organization under the Clinical Laboratory Improvement Amendments of 1988 (CLIA '88).

If you are a new laboratory, please remember that you must have a valid CLIA certificate and a qualified Laboratory Director before you can test patient samples.

All of your Accreditation documents will be available exclusively online at COLAcentral®. We are requesting that you, as the Lab Director, and at least one other key lab staff member with a separate email account be enrolled and actively use COLAcentral® to access documents, and to take advantage of the many tools available to you. Please feel free to call us at 800-981-9883 between 9:00 am and 5:00 pm Eastern Standard Time, for assistance with enrollment and guidance on how to use COLAcentral® to retrieve your documents or any other questions concerning the accreditation process.

Sincerely,

Susan Densford, BS, MT (ASCP)  
Director of Accreditation

# NOTICE

THIS LABORATORY IS ACCREDITED BY

If you have concerns or questions regarding safety or quality of patient testing performed at this facility that cannot be resolved through internal communications protocol, please contact COLA. You will not be required to give your name. COLA takes all inquiries seriously.

Phone: 800.981.9883

9:00 AM to 5:00 PM Eastern, after hours leave message

The President and Faculty  
of  
The Georgia Institute of Technology

To all to whom these presents may come, Greeting: Whereas

**Vidhya Narayanan**

has completed all the requirements for Graduation, now, therefore, We, under  
the authority vested in us, do hereby confer the degree of

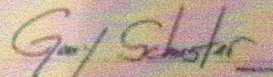

**Doctor of Philosophy**

with all the rights, privileges and honors, thereunto appertaining.  
In witness whereof, the signatures of the Chancellor of the University System,  
the President and the Registrar of The Georgia Institute of Technology are  
hereto subscribed, and the seal of the Institute is affixed.

Given at Atlanta on the first day of August, two thousand and eight.

# New York State Department of Health

## Certificate of Qualification

CQ Code: NARAV1

Vidhya Narayanan, Ph.D.  
10030 High Falls Pointe  
Johns Creek GA 30022

has qualified to act as a Laboratory Director in the following categories  
in accordance with Article 5, Title V, Section 573 of the Public Health Law.

*Diagnostic Immunology  
Virology  
(limited to molecular methods)*

Amended

Effective Date: August 21, 2020  
Expiration Date: July 29, 2022

Subject to Revocation  
Certificate Not Transferable

The Qualifications Of

**Vidhya Narayanan,**  
**Ph.D.**  
**2021**

have been examined. We find that the qualifications of academic achievement and professional experience established by the American Board of Bioanalysis (ABB) have been met. All other requirements having been fulfilled, the Board does hereby confer certification as a

**High-complexity Clinical Laboratory Director**  
**HCLD(ABB)**

in the discipline of

**Molecular Diagnostics**

with all the rights and privileges there unto appertaining.

In witness whereof, the seal of the Board is hereunto affixed for the year ending December 31, 2021.

Number of years certified: 1

CERTIFICATION ID# 20172693

Brooks A. Keel, Ph.D., HCLD(ABB)  
CHAIRMAN

ABB is a CLIA-approved certifying board for High Complexity Clinical Laboratory Directors and Clinical Consultants - see Section 493.1443.(b)(3)(i).

To All to whom these Presents shall come, Greetings.  
Know ye that:

**Vidhya Narayanan, Ph.D., MDxT(AAB)**

is a certified

**Molecular Diagnostics Technologist**

in the discipline(s) of

Molecular Diagnostics

### **HIGHLIGHTS**

- 12 years of experience in High complexity molecular testing clinical laboratories
- 13 years of clinical laboratory management supervising experience
- Microbiology, molecular biology, genetics and genetic engineering, biotechnology, Immunology, Quality control and compliance
- DNA manipulations including cloning, PCR, pulse field gel electrophoresis, Southern blot hybridizations, microarrays and whole genome analyses.
- Luminex Xtag assay, Biofire GI and Respiratory, Luminex Aries assay, Illumina Miseq platform, Thermofisher Quant studio platform and extensive ELISA experience
- Expertise with Bacterial and Fungal microbiology
- Expertise in genetic engineering techniques
- Expertise with Next Generation Sequencing platforms, Map to Reference Genome and De novo assembly.
- Experience with Bioinformatics analyses
- Expertise in statistical analysis with regards to biological problems
- Expertise with developing quality control procedures and compliance
- Expertise with developing standard operating procedures

### **EDUCATION**

#### **Georgia Institute of technology, Atlanta, Georgia**

Ph.D., School of Biology, August 2008

Thesis: *Inverted repeats as a source of eukaryotic genome instability*

#### **University of Madras, Chennai, India**

Bachelor of Engineering, Electronics and Instrumentation Engineering, August 2002

### **CERTIFICATIONS**

**HCLD (ABB)**- High Complexity Lab Director

**MDxT (AAB)** - Molecular Diagnostics Technologist from AAB BOARD OF REGISTRY

**NY Certificate of Qualification** in Virology and Diagnostic Immunology

## HONORS AND AWARDS

- Served as a formal reviewer for evaluating manuscript submitted to the international Scientific Magazine, *Mutation Research*, (2009).
- Best graduate research award (2007), Suddath symposium, Institute of Bioengineering and Biosciences, Atlanta, Georgia
- Best teaching assistant award(2004), School of Biology, Georgia Institute of Technology, Atlanta, Georgia
- University rank (2002), University of Madras

## EMPLOYMENT HISTORY

**Scientific Director (consultant) April 2020- Current**

**Employed by Premier Medical Laboratory Services, Greenville, South Carolina (April 2020-Current)**

*Highlights:* serve as the **Scientific Director** and **Lab Manager** to support Clinical Molecular Genetics Department

- Supervise Clinical Operations and offer technical support.
- Manage Research and Development activities
- Work closely with quality department in developing and implementing quality control monitoring procedures.
- Perform patient data release on a daily basis.

**Clinical Lab Manager (consultant) employed by DLS Research and Ventures, Conyers, Georgia (January 2019- January2020)**

*Highlights:* serve as the **Clinical Lab Manager** to support Product Development and Serum Based Allergy Testing assays.

- Supervise Clinical Operations and offer technical support.
- 
- Work closely with quality department in developing and implementing quality control monitoring procedures.
- Perform patient data release on a daily basis.

**Technical Lab Consultant employed by Infinite Laboratories, Duluth, Georgia (July 2018-May2019)**

*Highlights:* serve as the **Technical Lab Consultant** to support serum based allergy-testing assays.

- Perform IgE, IgG and IgG4 food allergy testing on human serum samples.
- Supervise Clinical Operations and offer technical support.

- Write SOP, validation documents and protocols.
- Work closely with quality department in developing and implementing quality control monitoring procedures.
- Perform patient data release on a daily basis.

**Technical Supervisor/Chief Science Officer (Consultant) employed by DRG laboratories, Alpharetta, Georgia (June 2017- December 2019)**

*Highlights:* serve as the **Technical supervisor** to support clinical Operations and R&D for High complexity molecular testing and ELISA assays for human GI-related pathogens and parasites and inflammation markers.

- Direct R&D for the design, development and validation of high complexity molecular testing of Gut microbial pathogens, parasites and antibiotic resistant genes.
- Supervise Clinical Operations and offer technical support.
- Write SOP, validation documents, protocols and patents for developed assays
- Work closely with quality department in developing and implementing quality control monitoring procedures.
- Perform patient data release on a daily basis.

**Genomics Scientist (Contractor) employed by IHRC, Inc. in the Department of Parasitic Diseases at CDC, Atlanta, Georgia (July 2015-December 2016)**

*Highlights:* provide scientific and **technical consulting services** to support the identification of potential inter-/intra-species targets of Leishmania and parasitic diseases that can be used to improve the US diagnostic response for these diseases and thereby improve clinical management and patient outcomes.

- Perform cultures to propagate Leishmania parasites and extracting genomic DNA (and possibly RNA, depending on need) from harvested cultures
- Produce libraries for parallel /next generation sequencing analysis from genomic DNA (and possibly RNA) preparations
- Accumulate genome sequences from multiple strains of *L. donovani*, *L. infantum*, *L. major*, *L. [V.] braziliensis*, *L. [V.] panamensis*, and *L. mexicana* for identification of strain-level discrimination markers
- Perform de-novo genomic sequencing and assembly of *L. tropica*, *L. aethiopica*, *L. amazonensis*, *L. [V.] guyanensis* (and potentially other Leishmania species as available) to create annotated reference genomes of these species
- Perform comparative genomics to identify variable regions within the Leishmania genomes that can be used in species/strain-specific assays
- Develop and validate multiplex TaqMan PCR assays capable of simultaneous identification of multiple species in the same reaction

- Provide support to improve the profile of diagnostic testing offered by PDB for leishmaniasis by implementing a comprehensive molecular testing algorithm consisting of multiplex TaqMan PCR assays that can detect all Leishmania species of public health importance
- Participate in collaboration activities within CDC and partners as needed to move the project forward
- Conduct evaluation of laboratory experiments to determine whether data generated are accurate and valid to identify unusual or unexpected results and their probable causes
- Conduct evaluation of various testing methods and designs to determine if conducive for field or laboratory implementation
- Actively participate in the laboratory quality management system by ensuring the full range of applicable quality controls are correctly conducted
- Assist in proper collection and storage of laboratory data and samples including keeping laboratory inventories up to date
- Analyze data using various software platforms to determine results, prepare for presentations or publications, and to guide further/future experiments
- Calibrate and operate laboratory instruments that are necessary to perform specialized tests, analyses and other standard procedures in conducting experiments and studies
- Develop and validate standard operating procedures including performing experiments to define optimal test performance
- Conduct evaluation of laboratory experiments to determine whether data generated are accurate and valid to identify unusual or unexpected results and their probable causes.

**Product Development Specialist in the Department of Molecular biology and Immunology, Genova Diagnostics, Duluth, Georgia (December 2011-July 2015)**

*Highlights:* serve as the **Technical supervisor** to support clinical Operations and R&D for High complexity molecular testing and ELISA assays for human GI-related pathogens and parasites and inflammation markers.

- Design and develop molecular and microbiological assays to detect and quantify gut bacteria, yeasts and parasites
- Engineer molecular assays to efficiently extract nucleic acid from biological samples (fecal samples and saliva)
- Design and develop Molecular and Microbiological workflows to identify commensal, opportunistic and pathogenic bacteria
- Develop standard operating procedures for the technicians to carry out assays in the production environment
- Interact with other departments to ensure smooth transition of R&D assays into a live operation environment

- Supervise Clinical Operations and offer technical support.
- Lead the troubleshooting of any operation issues

**Postdoctoral Fellow- School of Biology, Georgia Institute of Technology, Atlanta, Georgia  
(August 2008-2011)**

*Highlights: Mutagenesis, Mapping mutants, DNA intermediate detection*

- Designed and built an experimental assay system in yeast *S.cerevisiae* to carry out a global mutagenesis screen
- Mapped several mutations to genes that alter chromosomal breakage at location of palindromic sequences
- Dissected molecular mechanisms underlying chromosomal breakage induced by inverted repeats
- Detected of breakage and replication structural intermediates

*Highlights: human subtelomeric sequences, chromosomal breakage assay, breakage intermediate detection, mutant analyses*

- Clone problematic sequences from subtelomeric regions of human patients in yeast experimental system
- Assess the breakage potential using physical assays
- Carry out mutant screen to identify prone genetic backgrounds that either augment or compromise chromosomal breakage

**Graduate Research Assistant- School of Biology, Georgia Institute of Technology, Atlanta, Georgia  
(August 2004-2008)**

*Highlights: Whole genome analysis, microarrays, CHEF gels, molecular combing and fiber FISH*

- Designed and built an experimental assay system in yeast *S.cerevisiae* to analyze the effect of palindromic sequences on genome integrity
- Analyzed the gross chromosomal rearrangements resulting from palindrome-mediated breakage using CHEF gels, Southern hybridization and CGH-microarrays
- Designed and developed a cutting edge approach to visualize chromosomes at single molecular level that allows to analyze the pattern of rearrangements
- Studies helped to predict the nature of gene amplifications that are found in human cancers

## LEADING AND CRITICAL ROLES

### 1. Product development specialist/Technical Supervisor-Biotechnology

As a Product Development specialist, I have been involved in designing and validating molecular and microbiological assays for detection the gastrointestinal flora. In addition, I was also involved in training technicians on the validated assays and developing quality control procedures for the assays. I also helped with technical trouble shooting of the assays. I mentored and managed four technicians working directly under me.

### 2. Teaching

During my graduate career I have taught basic molecular biology courses and biotechnology courses. Being the senior most professional at the time in the laboratory I was routinely training PhD and masters student and mentor undergraduate students.

### 3 Research-Academic

My primary job as a postdoctoral fellow was to carry out active research and move forward the scientific directions in the laboratory. My research was funded by the federal and state government. I managed and lead my research group as a senior Post-doctoral research scientist.

### 3. Review of other people's work

Reviewer for journals:

I have reviewed a number of papers for the best journal in genetics namely, Mutations Research and Microbiology

6. Kim H-M., **Narayanan V.**, Mieczkowski P, Petes T.D, Krasilnikova M.M., Mirkin S.M., Lobachev K.S., "Chromosome fragility at the expanded GAA/TTC tracts in yeast depends on repeat orientation and requires the mismatch repair system", EMBO journal, **2008**, 27:2896-906
7. Shishkin AA, Voineagu I, Matera R, Cherng N, Chernet BT, Krasilnikova MM, **Narayanan V**, Lobachev KS, Mirkin SM., "Large-scale expansions of Friedreich's ataxia GAA repeats in yeast.", Mol Cell. **2009** Jul 10;35(1):82-92.

## EXPERIMENTAL SKILLS

I have eight years of biotechnology experience and three years of independent research experience. I have successfully designed and executed experiments and have trained technicians successfully. With the years of scientific education and training, I am very confident with my skills. Below, I have summarized my scientific skills.

- Molecular biology: cloning, PCR, restriction digestion, pulse field electrophoresis, Southern blot hybridization, molecular combing and FISH analyses, two dimensional gel electrophoresis and analyses, CGH microarrays, NGS library preparation, MiSeq operation, real time PCR analysis.
- Microbiology: proficient in both E.coli and yeast genetics, culturing and propagating bacteria and fungi. Experience with AST assays and Maldi TOF assay
- Parasitology: Worked with fecal samples and biopsy samples infected with parasitic worms and protozoans. Proficient with fecal sample handling for nucleic acid extraction and subsequent nucleic acid analyses.
- Microscopy: FISH, nucleic acid hybridization and antibody staining.
- AFM: analyses of chromosomal intermediates

## SOFTWARE SKILLS AND OTHER SKILLS

With a strong education in molecular and microbiology, I have had the opportunities to master several key software packages that can be applicable to a broad spectrum of applications. Working in a Biotechnology firm has given me opportunity to learn the business side aspect of Biotechnology, particularly the transition from product to market.

Below, I have listed the software applications I have utilized during my career.

- Adobe creative suite package  
Adobe Photoshop, Adobe illustrator, Adobe distiller and Adobe acrobat
- Clone manager SciEd software  
Clone manager software is an advanced software that allows to analyze DNA and protein sequences and in simulating genetic manipulations at nucleotide and amino acid level.
- Bioinformatics software  
NCBI blast, Patmatch, SNP hunter and other routinely used sequence analysis software.

- NGS data analysis  
CLC workbench, Geneious
- Care stream Kodak imaging software  
The Kodak software allows imaging gels and carrying out analysis of DNA and protein levels at the resolution electrophoretic gels.
- End note  
End note software is a key software that helps in preparing references to be cited for manuscripts.
- Microsoft Office  
Microsoft word, excel, power point and image editor.
- LIMS system  
Database for entering patient results.

# Belgado Community College

hereby certifies that

**Demetrius Danielle Ransom**

has satisfied the requirements prescribed

by the Board of Superbisors of the  
Louisiana Community and Technical College System  
for the degree of

Associate of Applied Science  
in

Medical Laboratory Technician

and has been awarded this degree with all the honors, rights, and privileges appertaining thereto. Under the authority of the Board and upon the recommendation of the faculty, the Chancellor of Belgado Community College has presented this diploma bearing the College seal in New Orleans, Louisiana, on this fourteenth day of December, 2007.

**Objective:** Currently seeking a Clinical Laboratory Scientist position

**Education:** University of New Orleans 2009-2012 (Civil Engineering/Education)  
Delgado Community College 2004-2007 (Clinical Laboratory Scientist)  
Gretna Career College 2000-2001 (Medical Assistant)

**Experience:** Lab Analytics LLC 05/20 – Current (Manager/Owner – FT)  
Job Description: Manages the day-to-day operations. Performed patient sample testing in Hematology, Toxicology, Chemistry and Molecular.

Department of Veterans Affairs 03/2018-03/2019 (Medical Technician-FT)  
Job Description: Performed patient sample testing in Chemistry, Microbiology, Urinalysis, Blood Bank, Hematology, Toxicology and Molecular.

Lakeview Regional Medical Center 12/2017-06/2018 (Medical Lab Tech-PRN)  
Job Description: Performed patient sample testing in Blood Bank, Hematology, Urinalysis/Serology, and Microbiology.

Addiction Recovery Resources 08/2015-01/2017 (Medical Lab Lead Tech-FT)  
Job Description: Sole operator of Toxicology Laboratory day to day operations. Operated Siemens Viva E, AB SCIEX, LC-MS analyzer to test for drugs of abuse. Performed all required maintenance for the analyzer. Developed and Monitored Laboratory record keeping system, and Logs. Maintained lab Accreditations/Licensures/Proficiency. Performed result interpretations, requested confirmations, ordered/tracked lab inventory/supplies. Participated in Medical Director interviews and Audits. Conducted Sample Collection education videos and Seminars.

Renaissance Rx 08/2012-01/2015 (DNA Laboratory Lead Technician- FT)  
Job Description: Sample accessioning, DNA extraction from buccal swabs, and running samples on QiaCube HT & MagMax instruments. Instrument troubleshooting/maintenance technician, SOP writing/revisions, Document Control Technician.

East Jefferson General Hospital 12/2007-01/2011 (Clinical Lab Scientist- FT)

Job Description: Process ABO&RH samples, elutions, antibody workups & id, transfusion reaction workups, instrument troubleshooting, data entry, antigen typing, platelet irradiation, telephone technique, emergency release, aliquots, billing, ordering, resulting runs. Performed generalist duties in Chemistry, Micro, and Urinalysis.

**License  
and  
Certifications:**

LSBME- Clinical Laboratory Scientist Technician/Licensure: 12/07-12/22  
ASCP- Clinical Laboratory Scientist Technician/Certified: 06/08-06/23

**Training:**

Clinical Laboratory Scientist- Ochsner Medical Center (Jefferson, LA)  
(September 2006-November 2007)

Targeted Areas: Hematology, Urinalysis, Immunology,  
Chemistry, Special Chemistry, Parasitology,  
Microbiology, Blood Banking, Molecular.

Education/Civil Engineering - University of New Orleans (New Orleans, LA)  
(August 2009-December 2012)

Targeted Areas: Early Childhood Education  
Surveying, Engineering Economics,  
Mechanical Materials, Dynamics, Hydrology,  
Program Graphics.

**Summary  
of  
Qualifications**

I have been employed in the medical field for over 20 years, and actively working in the laboratory for 15 years. I possess immense experience in several different areas which includes HIPPA compliance, CAP, Joint Commission, and COLA. I am efficient with various office & laboratory equipment and capable of troubleshooting issues as they may arise. I have a (3) year background in the field of Civil Engineering/Education which serves as an integral aspect in any medical facility. I am a team player, and have a proven record of my hard work and dedication to the medical field.
