

**BID ITEM # 1**

**LAWN AND LEAF RAKE**

**PRODUCT #: MSR-224U**

## Specs

- ✓ Overall length (inches): 69
- ✓ Overall weight (pounds): 2-1/5
- ✓ Approximate head width (inches): 23
- ✓ Number of tines: 24
- ✓ Handle material: American ash
- ✓ Handle length (inches): 54
- ✓ Handle diameter (inches): 1

## Product Features

- ✓ Durable steel tines
- ✓ Inverted V-shaped end tines
- ✓ Steel spring brace
- ✓ Sturdy American ash handle
- ✓ Extended connection with two bolts

## Product Benefits

- ✓ Reinforced, continuous tine design and additional spring greatly enhance durability
- ✓ The 1-inch diameter handle decreases hand fatigue and increases the sturdiness of the tool
- ✓ Extended head-to-handle connection with two bolts provides a secure connection that will not loosen

## Warranty

We cover this product with our lifetime warranty.

**BID ITEM # 2**

**LEONARD BOW RAKE**

**PRODUCT #: R16**

**Specs**

- ✓ Overall length (inches): 70
- ✓ Overall weight (pounds): 4-3/10
- ✓ Head width (inches): 16
- ✓ Tine count: 16
- ✓ Socket thickness (gauge): 14
- ✓ Handle material: Northern ash
- ✓ Handle length (inches): 62

**Product Benefits**

- ✓ Great for spreading topsoil, mulch, and compost or removing trash, stones, or other debris
- ✓ Bow design provides a slight flex when hitting obstacles instead of bending or breaking
- ✓ Curved tines pick up more material per stroke
- ✓ Riveted socket prevents the head from separating from the handle
- ✓ Ash handle is lightweight yet durable and resists splintering

**Product Features**

- ✓ Heat-treated head
- ✓ Curved tines
- ✓ Welded steel socket riveted through handle
- ✓ Northern ash handle

**Warranty**

Lifetime

**BID ITEM # 3**

**LEONARD FIBERGLASS BOW RAKE**

**PRODUCT #: FR16**

In addition, the 14 gauge socket is riveted all the way through the handle, not just held in place with a nail or a screw. It just won't pull apart! Features a high strength heavy wall fiberglass handle with a solid core at the riveted handle connection. Bow Rake teeth are curved to help you move more of what you are raking. Bow style rakes also have a little more flex than an ash head rake, for extra give when you hit that inevitable rock or root. Ship wt 4.3lb **Lifetime warranty.**

**BID ITEM # 4**

**LEONARD GARDEN HOE**

**PRODUCT #: AG575**

### Specs

- ✓ Blade width: 5-3/4 inches
- ✓ Handle material: Lacquered ash
- ✓ Handle length: 60 inches

### Product Features

- ✓ 3 beveled sides
- ✓ Blade welded to socket
- ✓ Head riveted to handle for extra strength

### Warranty

## CORONA RAKER RAZOR TOOTH PRUNING SAW

**PRODUCT #: 4534R**

## Specs

27in. overall length, 3-sided razor teeth, self-cleaning raker pattern, impulse hardened teeth, tempered steel alloy, D-style handle, cuts on pull stroke. NOTE: The TSS Saw Sharpener will not work for this; TSS does not work on impulse-hardened steel.

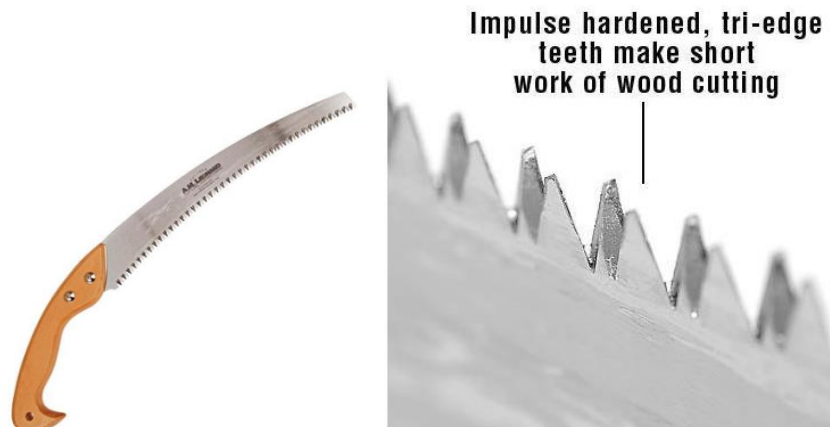

## Warranty

Lifetime

**BID ITEM # 14**

**LEONARD TRI-EDGE PRUNING SAW**

**PRODUCT #: 641H**

**Specs**

- ✓ 12 and 1/2" blade
- ✓ 7 teeth per inch
- ✓ Tri-edge teeth

**Product Features**

- ✓ Chrome plated blade
- ✓ Tri-edge tooth pattern
- ✓ Comfortable wood handle

**Product Benefits**

- ✓ The chrome plating adds to the rust-resistance, and helps keep sap off
- ✓ The tri-edge teeth add to the speed of the cut, and the offset pattern helps keep the teeth clear of wood debris

**Warranty**

Lifetime

**FAQ**

**Q:** What is Impulse Hardening? **A:** Using a special high frequency heating technique, teeth are heated instantly and hardened. Because of this localized heating process only the teeth of the blade are heated and hardened; the remainder of the blade is unchanged and still retains its normal flexibility. The hardened teeth are harder than an ordinary file and stay sharp about three times longer than non-hardened teeth.

**BID ITEM # 15**

**FELCO MODEL 31 ANVIL HAND PRUNERS**

**PRODUCT #: 31FEL**

### Specs

- ✓ Overall length 8.3"
- ✓ Weighs 7.9 oz
- ✓ Approximately 1 inch cutting capacity

- ✔ Product weight (pounds): 45
- ✔ Hose capacity (feet): 300
- ✔ Tire type: Pneumatic
- ✔ Tire count: 4

### Product Safety

 Prop 65

### Product Benefits

- ✔ Powder-coated steel frame resists rust and corrosion
- ✔ Swivel crank makes it easy to unwind and rewind hose
- ✔ Brass and galvanized plumbing resist corrosion and prolong service life
- ✔ Accessory basket holds your hose attachments and other tools
- ✔ Built-in nozzle hanging notch secures hose when not in use

### Product Features

- ✔ Sturdy 13-gauge powder-coated steel frame
- ✔ Easy-to-operate swivel crank
- ✔ Holds up to 300 feet of 5/8-inch hose
- ✔ Connects via an 8-foot inlet hose
- ✔ Brass and galvanized plumbing
- ✔ Galvanized metal rims
- ✔ Wire accessory basket
- ✔ Built-in nozzle hanging notch

## **BID ITEM # 51**

### **CHAPIN HAND HELD SPRAYER INDUSTRIAL 3GAL**

**PRODUCT #: 15309**

### **Specs**

Brass shut-off assembly, reinforced hose, carrying strap with pad, built-in relief valve, pressure gauge, brass shut-off, poly tank, 36in. hose, 9in. pump, 18in. brass extension, steel-reinforced threaded pump cap, 3 gallon, viton check valves and gasket, weight 6lbs. Max. 40-45 psi.

## BID ITEM # 52

### CHAPIN HAND HELD SPRAYER INDUSTRIAL 2GAL

PRODUCT #: 26021XP

#### Specs

- ☑ 2-gallon tank
- ☑ 40 to 40 PSI
- ☑ 0.4 GPM
- ☑ Weighs 5 lbs dry
- ☑ 48in hose
- ☑ 20in wand

#### Product Features

- ☑ SureSpray Anti-Clog filter
- ☑ Poly wand
- ☑ Cushion grip poly shut-off
- ☑ Adjustable brass and poly cone nozzles
- ☑ Ergonomic handle for easy carrying

## BID ITEM # 53

### CHAPIN HAND HELD SPRAYER INDUSTRIAL 1GAL

PRODUCT #: 26021XP

#### Specs

- ✓ 1-gallon tank
- ✓ 40 to 60 psi
- ✓ 1/2 GPM flow rate
- ✓ 42in hose
- ✓ 16in poly wand
- ✓ Dry weight 4.8 lbs

#### Product Features

- ✓ Cushion grip poly shut-off with adjustable brass, poly-fan and poly-cone nozzles
- ✓ Top handle for easy carrying

**FIRE HOSE**

**PRODUCT # 9RSL3Z41J3**

**1-1/2" Rack & Reel Fire Hose (500 LB Test)**

1-1/2" rack fire hose (500 LB Test) that is designed to be lightweight while offering maximum flow for all your indoor rack hose needs. Our rack fire hose can be used in conjunction with pin racks. Our 1.5 inch rack fire hose is available with the following pressure ratings:

- ✓ 250# Service Test Pressure
- ✓ 500# Proof Test Pressure
- ✓ 750# Burst Pressure

**Features & Applications**

Designed for use in conjunction with pin racks, reels, hump rack, cabinets or other fire protection equipment.

- ✓ Couplings - 1 1/2" Brass (Choose NH/NST or NPSH/IPT)
- ✓ Hose Inside Diameter - 1 1/2"
- ✓ Approx. Lay Flat Width - 2 1/2"
- ✓ Materials - Single Jacket Polyester
- ✓ Length - 50 Feet / 75 Feet / 100 Feet
- ✓ Inside Liner - Polyurethane
- ✓ Color - White

## Chemical Resistant Single Jacket Rack Fire Hose

Our rack fire hoses feature a single jacket construction woven from 100% virgin polyester that is resistant to most chemicals, petroleum products, UV exposure and mildew.

The lining of each rack fire hose is a single-ply extruded tube of synthetic polyurethane /thermoplastic (T.P.U.), designed to increase packing ability for interior firefighting applications. The liner of these rack fire hoses produces a thin, smooth waterway that yields extremely low friction loss for maximum flow rates. The rack hose manufacturing process ensures positive adherence to the jacket to prevent delamination.

## Rack Hoses Available In a Variety of Specifications

Our rack fire hose is available with internal expansion ring-type threaded aluminum or brass. Standard thread patterns for these rack hoses are NH/NST or IPT/NPSH, custom threads are available upon request. All rack hoses are temperature rated for -40°F to 180°F (-40°C to 82°C).

Our rack hoses are FM approved and labeled, and meet or exceed Underwriters Lab (U.L.) and NFPA 1961. While standard lengths for these rack hoses are 50', 75', and 100', custom lengths are available upon request. All hoses are stenciled with 1" characters stating, "Service Test to 250 PSI per NFPA 1962" and the service date in a contrasting color, indelible ink. This rack hose is pre-folded for ease of installation.

## Construction

- ✓ 100% polyester single woven jacket. Lining is single ply urethane/ thermoplastic.
- ✓ Temperature Range
- ✓ -40 degrees F to 180 degrees F
- ✓ -40 degrees C to 82 degrees C
- ✓ Special Characteristics

## FM Label

Standard lengths come prefolded for easy installation in pin racks. Also available in coiled lengths. Impervious to mildew. Never needs drying.

Hose Size 1-1/2" Bowl Size 1-11/16" Weight per 50' Uncoupled 5 LBS

## Number of Folds

- ✓ 100'- 24 Folds
- ✓ 75'- 17 Folds
- ✓ 50'- 15 Folds
