For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

The power to meet your needs

The Cummins L9™ has a reputation across North America as a proven workhorse, boasting 35+ years of production with more than 5 million engines manufactured globally. The 2024 L9 delivers class-leading power and torque ratings, an unmatched power-to-weight ratio, and the dependability and uptime you expect from Cummins.

2024 L9 engines do more than just provide the power, reliability and durability you need to get the most difficult jobs done. With ratings ranges of 260 hp to 380 hp (194-283 kW) and up to 1,250 lb-ft (1,695 N • m) of peak torque, the L9 is designed to excel in some of the toughest duty cycles.

High-strength components and features, like replaceable cylinder liners for easier rebuilding, add life to the engine and its residual value.

An unparalleled ability to look ahead

Cummins customers can expect a digitally enriched experience over the life of their vehicles. Newly released features connect in-mission operations directly to maintenance and repair processes, giving customers an unparalleled ability to look ahead, optimize operations and minimize downtime.

ALL ABOUT UPTIME

To improve uptime, we extended the recommended engine maintenance intervals so you can go longer between oil drains and fuel filter changes. A completely maintenance-free breather means you'll never have to change a crankcase ventilation filter again. Trucks go longer between trips to the garage for scheduled maintenance and more money goes back to your bottom line. New for 2024, the L9 offers advancements in connectivity to help you identify, prevent and resolve issues faster.

Of course, all Cummins engines are backed by the largest, most capable support network in North America so you can get great service no matter where you are.

ENGINE MAINTENANCE INTERVALS

TRUCKS THAT WORK THE HARDEST AND THE SMARTEST.

**MORE COMFORT, MORE SAFETY AND
MORE PRODUCTIVITY FOR ANY
VOCATIONAL APPLICATION.**

When it comes to getting the job done, you need trucks that work as hard, and as safely, as you do. The versatile 108SD Plus and 114SD Plus are the same reliable workhorses you know and trust from Freightliner, only better. We built on the reliable foundation you love and added more of it all. More comfort, more safety and more productivity – all on the most reliable and proven platform.

SAFETY THAT POWERS PRODUCTIVITY.

The Detroit Assurance® Suite of Safety Systems is one of the most advanced and comprehensive safety systems on the road. Delivering increased uptime by helping mitigate collisions, Detroit Assurance improves even the most seasoned operator's awareness.

ACTIVE BRAKE ASSIST 5 HELPS MITIGATE COLLISIONS:

Detroit Assurance Active Brake Assist 5 (ABA 5) helps mitigate potential collisions by constantly detecting the distance of objects ahead, calculating speed and providing a warning or even full braking if necessary.

LANE DEPARTURE WARNING KEEPS DRIVERS BETWEEN THE LINES:

Lane Departure Warning (LDW) tracks the truck's position and sounds a warning if the truck initiates an unintentional lane departure, increasing the safety of everyone on the road.

ADAPTIVE CRUISE CONTROL FOR MAINTAINING A SAFE DISTANCE:

Detroit Assurance Adaptive Cruise Control (ACC) automatically adjusts the truck's cruising speed to maintain a safe following distance, even in stop-and-go traffic, allowing the driver to focus on their surroundings.

SIDE GUARD ASSIST CAN SAVE LIVES:

Whether driving or on the jobsite, Detroit Assurance Side Guard Assist (SGA) alerts the driver about objects and pedestrians in the truck's passenger-side blind spot, making it a valuable addition to any vehicle.

BENDIX INTELLIPARK HELPS PREVENT ROLLAWAYS:

Keep operators and their surroundings safer with the optional Bendix® Intellipark®, a sophisticated electronic parking brake system that's designed to help prevent rollaways caused by an improperly set or accidentally disengaged parking brake.

DESIGNED WITH OPERATORS IN MIND.

The 108SD Plus and 114SD Plus have a modern dash and offer a full range of operator-centric features, making them easier to operate while reducing fatigue and increasing productivity. Choose from three new trim levels with high-quality materials designed for superior fit and finish.
