Section 4. Equipment Description

Item c. & d.

BBA Pumps BA300E D350 incorporates a 60 cfm diaphragm priming pump engineered and built by BBA Pumps for the specific application of priming portable centrifugal pumps. This type of priming system has many advantages over the compressor driven air injector system called out in the bid package. These include:

1. NO blow-by of material being pumped i.e. contaminated drainage water that is to be transferred and contained will not be discharged by the priming system where it may come into contact with personnel, the public or sensitive environmental areas. This is not the case with an air injector system that works much like a paint gun or sand blaster, allowing the product being pumped to spray out of the air injector exhaust.
2. The BBA Priming system moves 60 cfm of air for quicker and more reliable priming than the air injector systems that normally only moves 13 – 15 cfm.
3. There is NO chance of water being drawn into the air source with the BBA Pumps priming system as the priming system will pull from atmosphere when the unit is primed and pumping.
4. The BBA Pumps priming system requires NO form of daily maintenance or adjustment and follows the same service cycle as does the engine.
5. The small orifices in air injector systems are prone to clogging, therefore rendering the priming system inoperable. This is not the case with the BBA Pumps priming system.
6. The BBA Pumps pump and priming system also has the BEST WARRANTY on the market – 4 years – see warranty program for details.
7. NO foot valve is required.
8. The BBA Pumps BA300E D350 WILL repeatedly cycle from dry suction / pump / snore in manual or automatic modes.

Section 6. Control Panel

Item a.

BBA Pumps BA300E D350 incorporates a Lofa 750 private label panel aka LC30 Auto Control Panel.

Item b.

BBA Pumps BA300E D350 WILL control the unit via float switches AND / OR a level transducer.

Section 14 Warranty

Item a. All standard production BBA Pumps come with a 4 Year Limited Warranty – see warranty program for details.

We are happy to provide demonstrations and references of our products and services.
