Cross-contamination is of major concern not only in hospitals, but in schools, institutions and industry. TRC has been formulated to aid in the reduction of cross-contamination in these areas. TRC is a one-step disinfectant-cleaner that is selective against a broad spectrum of bacteria, is virucidal, fungicidal, and controls the growth of mold and mildew. When used as directed, TRC will also deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

MOLD AND MILDEW CONTROL:

TRC will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

VIRUCIDAL PERFORMANCE:

TRC was evaluated and found to be effective in the presence of 5% serum against the following viruses: **Hepatitis B Virus, HIV-1 (AIDS virus), Influenza A/Brazil, Herpes Simplex Type 1 and Type 2, and Vaccinia**, on inanimate hard non-porous environmental surfaces.

KILLS HIV-1 AND HBV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or bodily fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1. (HIV-1) (associated with AIDS) or Hepatitis B virus (HBV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: Clean-up should always be done wearing protective latex gloves, gowns, masks and eye protection.

CLEANING PROCEDURE: Blood and other body fluids containing HIV or HBV must be thoroughly cleaned from surfaces and objects before application of ASSURE.

CONTACT TIME: Leave surface wet for 1 minutes (60 seconds) HIV-1 and 10 Minutes for HBV. Use a 10 minute contact time for disinfection against all other viruses, bacteria and fungi.

For Schools, Industry and Medical institutional Use:

TRC has been evaluated in the presence of 5% serum by the AOAC Use-Dilution test and found to be effective against a broad spectrum of gram negative and gram positive organisms tested: (Bacteria): *Pseudomonas aeruginosa*, *Enterobacter aerogenes*, *Staphylococcus aureus* (Staph), *Streptococcus faecalis*, *Salmonella choleraesuis*, *Shigella dysenteriae*, *Escherichia coli* (E. coli), *Salmonella typhi*, *Staphylococcus aureus* Multi-Drug Resistant, (Viruses): **Hepatitis B Virus (HBV), HIV-1, (AIDS), Herpes Simplex 1&2, Respiratory Syncytial (RSV), Vaccinia (Pox Virus) (Fungi): Aspergillus Niger (Black Mold), Trichophyton Mentagrophytes (Athlete's Foot Fungus) (Animal Viruses): Canine Distemper, Avian Influenza, Avian infectious Bronchitis, Newcastle, Pseudorabies**

FUNGICIDAL CONTROL:

TRC is an effective fungicide against Tichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities.

DISINFECTION - To disinfect hard, non-porous surfaces, treated surfaces must remain wet for 10 minutes.

Apply this TRC undiluted to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, toilets, glazed porcelain, and bedframes with a cloth, mop, pump or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. For spray applications, use a coarse spray device. Spray 6-8 inches from surface, rub with brush, sponge or cloth. Do not breath spray mist.

Non-Acid Toilet Bowl Disinfectant/Cleaner Application: 1. Empty toilet or urinal and apply TRC to exposed surfaces with a cloth, mop, sponge, or mechanical spray. 2. Brush thoroughly over exposed surfaces including under the rim, allow to stand for 10 minutes, and flush.
