## **IMPORTANT NOTICE TO ALL BIDDERS – BID REQUIREMENTS**

Vendors may submit electronic bids with no fee for submission by using Central Auction House. Vendors may visit [www.purchasing.jeffparish.net](http://www.purchasing.jeffparish.net) for further information and for link to Central Auction House or visit them directly at [www.jeffparishbids.net](http://www.jeffparishbids.net). By submitting a bid, vendor agrees to comply with all provisions of Louisiana Law as well as compliance with the Jefferson Parish Code of Ordinances, Louisiana Code of Ethics, as published on <http://ethics.la.gov> and applicable Jefferson Parish ethical standards.

As per LA R.S. 38:2212(A)(3)(c)(ii), the bid form shall contain Bid Security or Bid Bond, Acknowledgment of Addenda, Base Bid, Alternates, Signature of Bidder, Name, Title and Address of Bidder, Name of Firm or Joint Venture Corporate Resolution or other appropriate signature authorization, if required, Louisiana Contractors License Number, and on public works projects where unit prices are utilized, a section on the bid form where the unit price utilized in the bid shall be set forth; however, unit prices shall not be utilized for the construction of building projects, unless the unit price is incorporated into the base bid or alternates. Other documentation required shall be furnished by the low bidder within ten calendar days after the bid opening. Such documentation shall be supplied as originals (no copies).

All such required information or documentation not provided with the bid must be provided by the low bidder within 10 calendar days after the bid opening (originals only, no copies). Failure to provide said information and documentation within 10 calendar days after bid opening shall be grounds to declare the bid non-responsive. This information and documentation includes, but is not limited to, the Public Works Bid Affidavit, current W-9 Form and Tax Identification number (if currently not registered as a Parish vendor), and proof of insurance. However, the payment and performance bonds must be supplied by the successful bidder upon contract signing.

Louisiana Contractor's License shall be in the following category:

### **Building Construction and/or Recreation and Sporting Facilities and Golf Courses**

Probable Construction Cost: \$120,000

Bidder agrees that this bid shall be good and may not be withdrawn for a period of forty-five (45) calendar days after the scheduled closing time for receiving bids. In the event the Owner issues the Letter of Award (copy of adopted resolution awarding bid by Jefferson Parish Council) during this period, the bid accepted shall continue to remain binding until the execution of the Contract.

Attached hereto is the Public Works affidavit which must be provided by the low bidder as an original (not copy) within 10 calendar days after bid opening. This affidavit must be completed, signed and notarized. Failure to do so will cause bid to be rejected.

Low Bidder will execute the formal agreement and will deliver a Performance Bond or Bonds for the faithful performance of the Contract.

Bid Security, in the sum of five percent (5%) of the total bid price (Base Bid and any Alternates), is to become the property of the Owner in the event the successful bidder fails or refuses to execute the Contract or fails to produce performance and payment bonds upon contract signing. If submitting a bid online, vendors must submit an electronic bid bond through the respective online clearinghouse bond management

**Bid Requirements:**

**Pre-Bid Conference:** To be held on April 28, 2016, for 10:00 AM at the location of Kennedy Heights Playground, 248 Mission Court, Avondale, LA 70094

**Bid Bond:** A surety bond in the amount of 5% of bid submission is due with bid submission.

**Performance and Payment Bonds:** A performance bond is due at the signing of the contract in 100% of the contract amount. A payment bond is due at the signing of the contract in 50% of the contract amount.

**Contractor's License Category:** See Important Notice to Bidders.

**Insurance:** See attached for requirement. Please note that Builder's Risk and Owner's Protection Liability are not required for this construction/renovation project.

## **PART 2 – PRODUCTS**

### **2.01 MANUFACTURER**

Basis of design is Landscape Structures, Inc. Custom Aluminum PlayBooster structure (5-12 yrs) and Custom Aluminum PlayShaper structure (2-5 years) as per design number 83346-1-1,, (2) Number CL170533 Custom age appropriate signs with custom JPRD colored logo, and (2) number 141683B 6 foot long TenderTuff benches with backs or "Approved Equal".

### **2.02 SCOPE**

This section includes all materials, components, and associated accessories to complete and install the playground equipment and benches as specified or approved equal. **5-12 year playground slab is existing and needs to be cleaned and have concrete added to it for proper safety zones; see drawings.**

### **2.03 GENERAL SPECIFICATIONS**

- A. **MATERIAL:** All materials shall be structurally sound and suitable for safe play. Durability shall be insured on all steel parts by the use of time tested coatings such as zinc plating, galvanizing, ProShield Finish, Tendertuff (PVC) coating, or equal, etc. Color shall be specified.
- B. **HARDWARE (FASTENERS):** Primary fasteners shall be socketed and pinned tamper-proof in design, stainless steel (SST) per ASTM number F879 unless otherwise indicated. All primary fasteners shall include a locking patch type material that will meet the minimum torque requirements of IFI-125. The material, when allowed the 72-hour cure time, shall require a minimum of 4 times the installation torque to remove the fastener. Manufacturer to provide special tools for pinned hex fasteners. **NOTE: HARDWARE THAT IS NOT VANDAL RESISTANT AS STATED ABOVE SHALL NOT BE ACCEPTABLE.**
- C. **TENDERTUFF COATING (or approved equal):** All metal components to be Tendertuff-coated (or equal) shall be thoroughly cleaned in a hot phosphatizing pressure washer, and then primed with a water-based thermosetting solution. Primed parts shall be preheated prior to dipping in U.V. stabilized, liquid poly vinyl chloride (PVC), and then salt cured at approximately 400 degrees. The finished coating shall be approximately .080 inches thick plus or minus .020 inches, at an 85 durometer hardness and have a matte finish. Standard colors are brown, tan, red and blue.

- G. **PERMALENE PARTS (or equal):** These parts shall be manufactured from ¼ inch thick high-density polyethylene that has been specially formulated for optimum U.V. stability and color retention. Compression molded products shall meet or exceed density of .960 G/cc per ASTM D1505, tensile strength of 2400 PSI per ASTM D638. **FOOTINGS:** Unless otherwise specified, all footings shall be designed for a 2 inch below grade surface mount application (see drawings for exceptions/saw cut locations).
- H. **MAINTENANCE KIT:** An order specific maintenance kit shall be provided for each structure order. The kit shall include a notebook or packet with a 2<sup>nd</sup> set of installation documents and order-specific documentation with recommendations on how often to inspect, what to look for and what to do to keep the equipment in like-new condition. The kit also should include touch up primer, appropriate color touch up paint, sand paper, appropriate color touch up PVC, graffiti remover and additional installation tools for tamperproof fasteners.

## 2.04

### PLAYGROUND GENERAL SPECIFICATIONS

- A. **POSTS:** Post length shall vary depending upon the intended use and shall be a minimum of 42 inches above the deck height. All posts shall be Powdercoated as specified. All posts shall have a "finish grade marker" positioned on the post identifying the top of the protective surfacing. Top caps for posts shall be aluminum die casts form 369.1 aluminum alloy and Powdercoated to match the post color. All caps shall be factory installed and secured in place with (3) self – sealing rivets. A molded low-density polyethylene cap, with drain holes, shall be pressed onto the bottom end of the post to increase the footing area from 2 square inches to 20 square inches.
1. Aluminum Posts (5-12 structure): Aluminum posts should be constructed of 6005-T5 extruded tubing conforming to ASTM B-221 and QQ-A-200/8. Posts shall have a 5 inch outside diameter with a .125 inch wall thickness. Yield Strength minimum 35,000 psi, Tensile Strength minimum 38,000 psi, elongation in 2 inches=10, Modulus of Elasticity =10 x 10(6) psi. **NOTE: STEEL POSTS ARE NOT ACCEPTABLE BECAUSE OF RUSTING EXCEPT ON PLATFORM WITH STAR SEEKER COMPONENT).**

D. **TENDERDECKS:** All Tenderdecks (or equal) shall conform to the General Specifications and utilize 3/8 inch Stainless steel welded studs with stainless steel nuts and washers to secure them to deck hanger clamps. Optional shapes are listed below.

1. ONE-PIECE SQUARE DECK: This Tenderdeck (or equal) shall conform to the "General Specifications" identified above. Finished size of this deck is 47 x 47 x 2 5/8 inches.
2. TWO-PIECE HEX DECK: This Tenderdeck (or equal) shall conform to the "General Specifications" and be fabricated in two equal pieces. The two halves shall be bolted together with (3) 3/8 inch standard fasteners and further stabilized with the use of connecting brackets constructed from 3/8 x 1 3/4 x 28 1/2 inch zinc plated steel. The finished size of the completed deck measures 36 inches per each of the six sides for an overall dimension of 78 inches face to face or 87 inches point to point.
3. 8 inch & 16 inch KICK PLATE: Shall be fabricated from 11 gauge HR flat steel finished with a TenderTuff (or equal) coating.

E. **COMPONENTS AND ATTACHED PLAY EVENTS:**

1. HANDHOLD ENCLOSURES: PERMALENE (or approved equal) enclosure panels should be attached to PlayBooster (or approved equal) posts with two (2) offset hanger assemblies with bolt extensions and to deck faces with four (4) 3/8 inch standard fasteners. Enclosures shall extend above the deck a minimum of 38 inches.
2. PIPE BARRIERS: Barrier weldment shall be comprised of 5/8 inch solid steel vertical rails, 1 1/8 inch O.D. x 11 gauge (.120 inch) horizontal rails with 203 or 303 stainless steel welded inserts with 5/8 inch internal threads, 1 1/2 inch x 1 1/2 inch x 29 1/2 inch angle iron. Barrier measures 33 7/8 inches wide x 39 13/16 inches high. After fabrication, the entire unit shall be TenderTuff-coated or equal.

6. SLIDE HOOD: Single and double slide hoods, when identified, shall be rotationally molded from U.V. stabilized linear low-density polyethylene, color as specified, to provide a full enclosure. Hoods shall extend 38 inches above the deck and attach to posts as an enclosure. **NOTE: SIT-DOWN CHAINS AND BARS ARE NOT ACCEPTABLE AS A SUBSTITUTE FOR SLIDE HOODS. SLIDE HOODS THAT INCLUDE BARS ARE ACCEPTABLE.**
7. DOUBLE SLIDE AND DOUBLE SWOOSH SLIDES: Bedways shall be rotationally molded from U.V. stabilized linear low-density polyethylene, color as specified. Unit shall be designed with a minimum of 6 inch high sidewalls, 16 inch wide sliding surfaces, 15 inch or greater exit length and a center divider for double bedways. Slide shall have an average sliding slope of 30 degrees and face mount with standard 3/8 inch fasteners into molded-in "T" nuts. Powdercoated slide base "T" supports shall have a single 2.375 inch O.D. RS-20 (.095-.105 inch) galvanized steel tubing and ¼ x 3 inch mounting plate. Mid support shall be comprised of 1.660 inch O.D. RS-20 (.085-.095 inch) galvanized steel tubing and ¼ x 3 inch mounting plate, with a powdercoat finish. Single and double slides shall include a slide hood with a built in sit-down bar extruded from 1.125 inch O.D. x .312W. 6061-T6 aluminum with a powdercoat finish. Primary fasteners shall be socketed and pinned, tamperproof in design, stainless steel (SST) per ASTM F879.
8. SLIDEWINDER2 (OR EQUAL): SlideWinder (or equal) shall be rotationally molded from U.V. stabilized linear low density polyethylene and be comprised of one entrance section, one exit section and a combination of left or right elbows and straight sections. Mid-support weldment should be comprised of 1.900 inch O.D. RS-20 (.080-.090 inch) galvanized steel tubing and 3/16 inch x 1 ¼ inch zinc plated steel strap, powdercoated as specified. Exit footer weldment should be comprised of 2.375: RS20 (.095-.105 inch) galvanized steel tubing and 1/3 x 4 x 11 ¾ inch mounting plate, powdercoated as specified. Leg base weldment should be comprised of 1.125 inch O.D. x 11 Gauge (.120 inch) and ¼ x 3 x 8 inch base plate with a powdercoat finish. Rail shall be 1 1/8 inch O.D. x 6061-T6

O.D. RS40 (.130 - .140 inch wall) galvanized steel tube, ¼ x 1 ¼ inch HR flat steel and 12 gauge (.150 inch ) sheet HRPO steel. Finish: Powdercoat (or equal), color specified. Clamps should be cast aluminum with a powdercoat (or equal) finish; color as specified.

14. SUNBEAM CLIMBER (OR EQUAL): Climber weldment should be comprised of 1.315 inch O.D. RS20 (.080 -.090 inch wall) galvanized steel tube, 2.375 inch O.D. RS40 (.130 -.140 inch wall) galvanized steel tube, and ¼ inch HRPO steel sheet with a ProShield finish (or equal). The barrier weldment should be comprised of 1.125 inch O.D. 11 gauge (.120 inch) steel tube per ASTM A513 with 203 or 303 stainless steel threaded insert with 5/8 inch internal threads and ¼ inch tabs with a O.D. 11 gauge (.120 inch) steel tubing with 203 or 303 stainless steel inserts, with 5/8 inch internal threads with a TenderTuff (or equal) finish. Infill panel should be Permalene (or equal), color as specified.

15. SOL SPINNER: Sol Spinner or equal weldment should be comprised of 1.9000 inch (48.26 mm) O.D. RS20 (.090 inch - .100 inch) (2.29 -2.54 mm) wall galvanized steel tube, 1/4 inch HRPO steel plate, 3/8 inch (9.53 mm) HRPO flat steel, the cable assembly (**Cable**) should be made of tightly woven polyester-wrapped, six-stranded galvanized-steel cable with a polypropylene core. Cable connects should be 6063-T6 aluminum. GripX Panels (or equal) should be Permalene, or equal, black in color. Bushing should be oil-filled UHMW PE. The footer weldment should be comprised of 2.375 inch O.D. RS40 (.130 -.140 inch) wall galvanized steel tube, 12 gauge (.105 inch) HR flat steel and 1 7/8 inch steel ball.

inch HRP zinc plated and a powdercoat (or equal) finish.  
**PLASTIC OR PAINTED WHEELS ARE NOT ACCEPTABLE.**

20. BALCONY DECK: Deck shall be straight edge flange formed from 12 Gauge (.105) sheet steel conforming to ASTM A569. Standing surface should be perforated with 5/16" diameter holes. The finished size measures 2 5/8" x 34" (straight edge) x 17" radius (curved edge). Unit shall be TenderTuff or equal coated, brown in color. Barrier weldment should be comprised of 5/8" solid steel vertical rails; 1 1/8" O.D. Steel horizontal rails with 203 or 303 stainless steel welded inserts with 5/8" internal threads. Barrier shall be TenderTuff or equal coated as specified.
21. PLAYSTRUCTURE SEAT: The TenderTuff or equal coated seat shall be made from 11 Gauge steel and shall measure 36 1/2" in length, and 8" wide. Seat shall attach to Playstructures with standard deck hanger clamps.
22. LOOP SEAT: The seat weldment should be comprised of 1.600" O.D. RS-20 galvanized steel tubing and formed 1/4" x 1 3/4" steel clamps with a TenderTuff or equal coating.
23. SQUARE PEAK TILE ROOF WITH CUSTOM LOGO: Roof shall be a rotationally molded, one-piece of U.V. stabilized linear low-density polyethylene and shall measure 53 1/2" x 55 3/4" x 34 3/8" be 54" square. Roof logo should be two color Permalene or equal and measures 41 13/16" wide x 5/18" high allowing for 15 characters. Roof sleeve should be cast from 319 almag which has a powdercoat finish to match roof.
24. HEX POLY ROOF: The hex poly roof shall be rotationally molded from U.V. stabilized linear low-density polyethylene. The mounting bracket weldment should be comprised of 4.688" O.D. 6061-T6 aluminum plate with a powder coat finish to match roof color.

### **PART 3 – INSTALLATION**

All materials must be installed in strict accordance with manufacturer's recommendations and instructions. The installation shall be done by a FACTORY CERTIFIED INSTALLER.

### **PART 4 – WARRANTY**

- **100 – Year Limited Warranty** for all stainless steel fasteners, aluminum posts, clamps, beams and caps, against structural failure due to corrosion/natural deterioration or manufacturing defects. This warranty does not include any cosmetic issues or wear and tear from normal use.
- **15-Year Limited Warranty** for all plastic and steel components, including TuffTimbers™(or equal) against structural failure due to corrosion/natural deterioration or manufacturing defects. This includes TenderTuff™-coating (or equal) against structural failure due to natural deterioration or manufacturing defects. (Except Wiggle Ladders, Chain Ladders and Swing Chain).
- **3-Year Limited Warranty** for all other parts against failure due to corrosion, natural deterioration or manufacturing defects.

**This warranty does not include any cosmetic issues or wear and tear from normal use.**

### **PART 5 –MANUFACTURER REQUIREMENTS**

The manufacturer must have product liability insurance of at least \$1,000,000.

- L. US Consumer Product Safety Commission (CPSC) Handbook for Playground Safety.
- M. IPEMA Certification

**1.4 SUBMITTALS (within 10 day of bid submittal)**

- A. Product Data: Submit manufacturer's product data, including installation instructions and subsurface instructions.
- B. Samples: Submit manufacturer's sample of 1 full tile upon request from owner.
- C. Test Reports: Submit certified test reports from qualified independent testing agency indication results of impact attenuation testing as required in this specification
- D. Certificate of Compliance: Submit manufacturer's certificate of compliance indicating materials comply with specified requirements
- E. Manufacturer's/Installers Project References (upon Owner's request):
  - 1. Submit list of successfully completed projects.
  - 2. Include project name and location, name of owner, and type and quantity of playground safety surfacing tiles furnished.
- G. Installer's Project References (upon Owner's request):
  - 1. Submit Manufacturer's Certified Installer letter for the company doing the installation.
- H. Maintenance instructions: Submit manufacturer's maintenance and cleaning instructions.
- I. Warranty: Submit manufacturer's **10 Year** warranty as specified.

**1.5 QUALITY ASSURANCE**

- A. Installer's Qualifications:
  - 1. Employ persons trained for installation of playground safety surfacing tiles.
  - 2. Approved by manufacturer.

of the tiles during temperature changes. This can cause gaps, tears, etc. that can become a safety hazard.

## 2.2 PLAYGROUND SURFACING TILES

A. Tiles: "SofTile KrosLock" or approved equal

1. Series: **PREMIUM** Series or equal – **50% black, 50% color** (pigmented tiles will not be acceptable).
2. Description: Resilient, interlocking, playground safety surfacing tiles.
3. Compliance: Meet or exceed ASTM F 1292-04 Standards and CPSC guidelines for impact attenuation (per minimal results shown below).
4. Materials: Compression-molded, recycled rubber and binding agents.
5. Tile Locking: U-shaped male and female configuration on all 4 sides to lock tiles to adjacent tiles
6. Top Edges: Chamfered
7. Tile Bottom: Hollow core stanchion pattern. Stanchions shall have density equivalent to wear layer.
8. Wear Layer:
  - a) Premium Series: Virgin TPV rubber granules. Minimum 0.250 inch thick.
9. Size: 24 inches x 24 inches, plus or minus 1/8 inch
10. Thickness: 2.25 inches (-5 playground), 3.25" (5-12 playground) minimum or greater as need to meet ASTM Standards and minimum G-Max and HIC noted further in the specifications.
11. Minimum Weight Each Tile:
  - a) 2.25 – inch thickness: 25.08 pounds
  - b) 3.25 – inch thickness: 28.14 pounds

### **3 EXECUTION**

#### **3.1 EXAMINATION**

- A. Examine areas to receive playground safety surfacing tiles. Notify Architect if areas are not acceptable. Do not begin installation until unacceptable conditions have been corrected.

#### **3.2 PREPARATION**

- A. Prepare subsurface in accordance with the manufacturer's instructions to ensure proper support and drainage for playground safety surfacing tiles.
- B. Concrete subsurface:
  - 1. Concrete subsurface shall be a minimum of 4 inches thick; 3000psi with forte-fiber or mesh reinforcement. See Drawing
  - 2. Apply light broom finish.
  - 3. Ensure concrete is sound with no loose material or cracks over 1/8 inch wide.
  - 4. Ensure concrete is a minimum of 10 days old.
  - 5. Test concrete for moisture in accordance with manufacturer's instructions to ensure it has sufficiently cured and is dry.
  - 6. Power wash existing concrete in accordance with manufacturer'

#### **3.3 INSTALLATION**

- A. Install playground safety surfacing tiles in accordance with manufacturer's instructions at locations indicated on the Drawings.
- B. Ensure prepared subsurface and tiles are dry and clean.
- C. Layout tile surface in accordance with manufacturer's instructions.
- D. Install tiles in a single installation session.
- E. Layout in advance tiles to be installed in a single installation session.
- F. Apply adhesive in accordance with manufacturer's instructions for tile-to-tile and perimeter tile-to base installation.

#### **3.4 CLEANING**

- A. Remove adhesive spills from playground safety surfacing tiles in accordance with manufacturer's instructions.
- B. Clean tiles in accordance with manufacturer's instructions.

#### **3.5 PROTECTION**

- A. Protect playground safety surfacing tiles from foot traffic for a minimum of 12 hours after installation.

Protect completed tiles from damage during construction.

DATE: 4/12/2016

BID NO.: 50-00116064

Page: 2

JEFFERSON PARISH will accept one price for each item unless otherwise indicated. Two or more prices for one item will result in bid rejection. Bidders are required to complete, sign and return the bid form and/or complete and return the associated line item pricing forms as indicated. Vendors must not alter the bid forms. Doing so will cause the bid to be rejected.

If the bid exceeds \$30,000.00 and the company is duly authorized to do business in the state of Louisiana, a corporate resolution must be submitted with the bid or the person signing the bid documents must be listed on the Louisiana Secretary of State's website as an officer of the corporation, unless bidder has otherwise complied with LSA-R.S. 38:2212(B)(5). If the bid is in excess of \$30,000 and bidder is registered out of the state of Louisiana, a corporate resolution must be submitted with the bid, unless bidder has otherwise complied with LSA-R.S. 38:2212(B)(5). Failure to comply will cause bid to be rejected; the Parish reserves the right to award bid to the next lowest responsive and responsible bidder in this event. Bids submitted by Owner or Sole Proprietorships must include certification that he or she owns the entity for which the bid is signed. Sole proprietors submitting bids for public works projects shall within 10 days after bid opening submit sole proprietorship certification.

NOTE: A sample corporate resolution can be downloaded from our website <http://purchasing.jeffparish.net> or you may provide your own document. A sample certification of sole proprietorship can also be downloaded from our website <http://purchasing.jeffparish.net> or you may provide your own document.

### INSTRUCTIONS FOR BIDDERS AND GENERAL CONDITIONS

A. AWARD OF CONTRACT: JEFFERSON PARISH reserves the right to award contracts or place orders on a lump sum or individual item basis, or such combination, as shall in its judgment be in the best interest of JEFFERSON PARISH. Every contract or order shall be awarded to the LOWEST RESPONSIVE and RESPONSIBLE BIDDER, taking into consideration the CONFORMITY WITH THE SPECIFICATIONS and the DELIVERY AND/OR COMPLETION DATE. IN THE EVENT OF SPLIT AWARD, THE PURCHASING DEPARTMENT MAY CONTACT VENDORS TO REQUEST REQUIRED AFFIDAVITS. THOSE VENDORS WILL HAVE 10 DAYS FROM THE DATE OF NOTICE TO SUBMIT COMPLETE, SIGNED AND NOTARIZED AFFIDAVITS IN ORIGINAL FORMATS.

All bid prices shall remain valid for 45 days. Jefferson Parish and the lowest responsive and responsible bidder(s) by mutual written consent may mutually agree to extend the deadline for award by one (1) or more extensions of thirty (30) calendar days.

Preference is hereby given to materials, supplies, and provisions produced, manufactured or grown in Louisiana, quality being equal to articles offered by competitors outside the state. "LSA-R.S.38:2251-2261"

B. USE OF BRAND NAMES AND STOCK NUMBERS: Where brand names and stock numbers are specified, it is for the purpose of establishing certain minimum standards of quality. Bids may be submitted for products of equal quality, provided brand names and stock numbers are specified. Complete product data may be required prior to award.

C. CANCELLATION OF CONTRACT: JEFFERSON PARISH reserves the right to cancel all or any part if not shipped promptly. No charges will be allowed for parking or cartage unless specified in quotation. The order must not be filled at a higher price than quoted. JEFFERSON PARISH reserves the right to cancel any contract at anytime and for any reason by issuing a THIRTY (30) day written notice to the contractor.

For good cause and as consideration for executing a contract with Jefferson Parish, vendor conveys, sells, assigns and transfers to Jefferson Parish or its assigns all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of Louisiana, relating to the particular good or services purchased or acquired by Jefferson Parish.

D. PRICES: Jefferson Parish is exempt from paying sales tax under LSA-R.S. 47:301 (8)(c). All prices for purchases by Jefferson Parish of supplies and materials shall be quoted in the unit of measure specified and unless otherwise specified, shall be exclusive of state and Parish taxes. The price quoted for work shall be stated in figures. In the event there is a difference in unit prices and totals, the unit price shall prevail.

Quantities listed are for bidding purposes only. Actual requirements may be more or less than quantities listed.

Bidders are not to exclude from participation in, deny the benefits of, or subject to discrimination under any program or activity, any person in the United States on the grounds of race, color, national origin, or sex; nor discriminate on the basis of age under the Age Discrimination Act of 1975, or with respect to an otherwise qualified handicapped individual as provided in Section 504 of the Rehabilitation Act of 1973, or on the basis of religion, except that any exemption from such prohibition against discrimination on the basis of religion as provided in the Civil Rights Act of 1964, or Title VI and VII of the Act of April 11, 1968, shall also apply. This assurance includes compliance with the administrative requirements of the Revenue Sharing final handicapped discrimination provisions contained in Section 51.55 (c), (d), (e), and (k)(5) of the Regulations. New construction or renovation projects must comply with Section 504 of the 1973 Rehabilitation Act, as amended, in accordance with the American National Standard Institute's specifications (ANSI A17.1-1961).

## LOUISIANA UNIFORM PUBLIC WORK BID FORM

50-00116064

Page: 5

TO: JEFFERSON PARISH  
PURCHASING DEPT  
200 DERBIGNY ST. SUITE 4400  
GRETN, LA 70053  
(Owner to provide name and address of owner)

BID FOR: Labor, materials, & equipment n  
for improvements to tot lots at  
Heights Playground.  
(Owner to provide name of project and  
other identifying information)

The undersigned bidder hereby declares and represents that she/he; a) has carefully examined and understands the Bidding Documents, b) has not received, relied on, or based his bid on any verbal instructions contrary to the Bidding Documents or any addenda, c) has personally inspected and is familiar with the project site, and hereby proposes to provide all labor, materials, tools, appliances and facilities as required to perform, in a workmanlike manner, all work and services for the construction and completion of the referenced project, all in strict accordance with the Bidding Documents prepared by: JEFFERSON PARISH

(Owner to provide name of entity preparing bidding documents.) and dated: \_\_\_\_\_

Bidders must acknowledge all addenda. The Bidder acknowledges receipt of the following ADDENDA: (Enter the number the Designer has assigned to each of the addenda that the Bidder is acknowledging) 2

TOTAL BASE BID: For all work required by the Bidding Documents (including any and all unit prices designated "Base Bid" \* but not alternates) the sum of:

One Hundred Eighteen Thousand and Forty Eight even Dollars (\$) 118,048.00  
"AS SPECIFIED"

ALTERNATES: For any and all work required by the Bidding Documents for Alternates including any and all unit prices designated as alternates in the unit price description.

Alternate No. 1 (Owner to provide description of alternate and state whether add or deduct) for the lump sum of:

\_\_\_\_\_ Dollars (\$) \_\_\_\_\_

Alternate No. 2 (Owner to provide description of alternate and state whether add or deduct) for the lump sum of:

\_\_\_\_\_ Dollars (\$) \_\_\_\_\_

Alternate No. 3 (Owner to provide description of alternate and state whether add or deduct) for the lump sum of:

\_\_\_\_\_ Dollars (\$) \_\_\_\_\_

## **Public Works Bid Affidavit Instructions**

- Affidavit is supplied as a courtesy to Affiants, but it is the responsibility of the affiant to insure the affidavit they submit to Jefferson Parish complies, in both form and content, with federal, state and parish laws.
- Affidavit must be signed by an authorized representative of the entity or the affidavit will not be accepted.
- Affidavit must be notarized or the affidavit will not be accepted.
- Notary must sign name, print name, and include bar/notary number, or the affidavit will not be accepted.
- Affiant **MUST** select either A or B when required or the affidavit will not be accepted.
- Affiants who select choice A must include an attachment or the affidavit will not be accepted.
- If both choice A and B are selected, the affidavit will not be accepted.
- Affidavit marked N/A will not be accepted.
- It is the responsibility of the Affiant to submit a new affidavit if any additional campaign contributions are made after the affidavit is executed but prior to the time the council acts on the matter.

*Instruction sheet may be omitted when submitting the affidavit*

Public Works Bid

AFFIDAVIT

STATE OF Louisiana

PARISH/COUNTY OF Jefferson

BEFORE ME, the undersigned authority, personally came and appeared: \_\_\_\_\_

Eve Marie Werner (Affiant) who after being by me duly sworn, deposed and said that  
he she is the fully authorized Member of Dyna-Play LLC (Entity),  
the party who submitted a bid in response to Bid Number 60-116064 to the Parish of  
Jefferson.

Affiant further said:

Campaign Contribution Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

Choice A \_\_\_\_\_ Attached hereto is a list of all campaign contributions, including the date and amount of each contribution, made to current or former elected officials of the Parish of Jefferson by Entity, Affiant, and/or officers, directors and owners, including employees, owning 25% or more of the Entity during the two-year period immediately preceding the date of this affidavit or the current term of the elected official, whichever is greater. Further, Entity, Affiant, and/or Entity Owners have not made any contributions to or in support of current or former members of the Jefferson Parish Council or the Jefferson Parish President through or in the name of another person or legal entity, either directly or indirectly.

Choice B ✓ there are NO campaign contributions made which would require disclosure under Choice A of this section.

Affiant further said:

Debt Disclosures

(Choose A or B, if option A is indicated please include the required attachment):

- Choice A \_\_\_\_\_ Attached hereto is a list of all debts owed by the affiant to any elected or appointed official of the Parish of Jefferson, and any and all debts owed by any elected or appointed official of the parish to the Affiant.
- Choice B ☒ There are **NO** debts which would require disclosure under Choice A of this section.

Affiant further said:

That Affiant has employed no person, corporation, firm, association, or other organization, either directly or indirectly, to secure the public contract under which he received payment, other than persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project or in securing the public contract were in the regular course of their duties for Affiant; and

That no part of the contract price received by Affiant was paid or will be paid to any person, corporation, firm, association, or other organization for soliciting the contract, other than the payment of their normal compensation to persons regularly employed by the Affiant whose services in connection with the construction, alteration or demolition of the public building or project were in the regular course of their duties for Affiant.

Affiant further said:

Affiant personally has not been convicted of, nor has he/she entered into a plea of guilty or nolo contendere to any of the crimes or equivalent federal crimes listed below. No individual partner, incorporator, director, manager, officer, organizer, or member, who has a minimum of a ten percent ownership in the Bidding Entity, has been convicted of, or has entered a plea of guilty or nolo contendere to any of the crimes or equivalent federal crimes listed below. A conviction of or plea of guilty or nolo contendere to the following state crimes or equivalent federal crimes shall permanently bar any person or the bidding entity from bidding on public projects:

- (a) Public bribery (R.S. 14:118)
- (b) Corrupt influencing (R.S. 14:120)
- (c) Extortion (R.S. 14:66)
- (d) Money laundering (R.S. 14:230)

A conviction of or plea of guilty or nolo contendere to the following state crimes or equivalent federal crimes shall bar any person or the bidding entity from bidding on public projects for a period of five years from the date of conviction or from the date of the entrance of the plea of guilty or nolo contendere:

- (a) Theft (R.S. 14:67)
- (b) Identity Theft (R.S. 14:67, 16)
- (c) Theft of a business record (R.S. 14:67.20)
- (d) False accounting (R.S. 14:70)
- (e) Issuing worthless checks (R.S. 14:71)
- (f) Bank fraud (R.S. 14:71.1)
- (g) Forgery (R.S. 14:72)
- (h) Contractors; misapplication of payments (R.S. 14:202)
- (i) Malfeasance in office (R.S. 14:134)

The five-year prohibition provided for in this section shall apply only if the crime was committed during the solicitation or execution of a contract or bid awarded pursuant to these provisions. If evidence is submitted substantiating that a false attestation has been made and the project must be readvertised or the contract cancelled, the awarded entity making the false attestation shall be responsible to the public entity for the costs of rebidding, additional costs due to increased costs of bids and any and all delay costs due to the rebid or cancellation of this project.

**Bid #50-116064 Kennedy Heights Playground  
Avondale, LA**

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

By arrangement with the American Institute of Architects, the National Association of Surety Bond Producers (NASBP) ([www.nasbp.org](http://www.nasbp.org)) makes this form document available to its members, affiliates, and associates in Microsoft Word format for use in the regular course of surety business. NASBP vouches that the original text of this document conforms exactly to the text in AIA Document A310-2010, Bid Bond. Subsequent modifications may be made to the original text of this document by users, so careful review of its wording and consultation with an attorney are encouraged before its completion, execution or acceptance.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

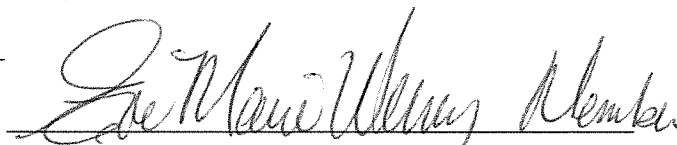

Signed and sealed this 5th day of May, 2016.

PLATTE RIVER INSURANCE COMPANY  
POWER OF ATTORNEY

41345635

KNOW ALL MEN BY THESE PRESENTS, That the **PLATTE RIVER INSURANCE COMPANY**, a corporation of the State of Nebraska, having its principal offices in the City of Middleton, Wisconsin, does make, constitute and appoint

\_\_\_\_\_  
JACK ANDERSON; RONALD KAIHOI

its true and lawful Attorney(s)-in-fact, to make, execute, seal and deliver for and on its behalf, as surety, and as its act and deed, any and all bonds, undertakings and contracts of suretyship, provided that no bond or undertaking or contract of suretyship executed under this authority shall exceed in amount the sum of

-----ALL WRITTEN INSTRUMENTS IN AN AMOUNT NOT TO EXCEED: \$20,000,000.00-----

This Power of Attorney is granted and is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of **PLATTE RIVER INSURANCE COMPANY** at a meeting duly called and held on the 8th day of January, 2002.

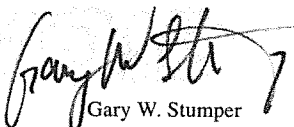

"RESOLVED, that the President, and Vice-President, the Secretary or Treasurer, acting individually or otherwise, be and they hereby are granted the power and authorization to appoint by a Power of Attorney for the purposes only of executing and attesting bonds and undertakings and other writings obligatory in the nature thereof, one or more vice-presidents, assistant secretaries and attorney(s)-in-fact, each appointee to have the powers and duties usual to such offices to the business of the company; the signature of such officers and the seal of the Corporation may be affixed to such power of attorney or to any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signatures or facsimile seal shall be valid and binding upon the Corporation in the future with respect to any bond or undertaking or other writing obligatory in the nature thereof to which it is attached. Any such appointment may be revoked, for cause, or without cause, by any of said officers, at any time."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and authority hereby given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner - Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

IN WITNESS WHEREOF, the **PLATTE RIVER INSURANCE COMPANY** has caused these presents to be signed by its officer undersigned and its corporate seal to be hereto affixed duly attested, this 27th day of July, 2015.

**Request for Taxpayer  
Identification Number and Certification**

Give form to the  
requester. Do not  
send to the IRS.

Print or type See Specific Instructions on page 2.	Name (as shown on your income tax return) <b>DYNA-PLAY, LLC</b>	
	Business name, if different from above	
	Check appropriate box: <input type="checkbox"/> Individual/sole proprietor <input type="checkbox"/> Corporation <input type="checkbox"/> Partnership <input checked="" type="checkbox"/> Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ ..... <input type="checkbox"/> Exempt <input type="checkbox"/> Other (see instructions) ▶	
	Address (number, street, and apt. or suite no.) <b>PO Box 6497</b>	
	City, state, and ZIP code <b>Metairie, LA 70009-6497</b>	
List account number(s) here (optional)		Requester's name and address (optional)

**Part I Taxpayer Identification Number (TIN)**

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I Instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number
OR
Employer identification number <b>20-3028572</b>

**Part II Certification**

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
- I am a U.S. citizen or other U.S. person (defined below).

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

Sign Here	Signature of U.S. person <i>Eric M. W. W.</i>	Date <b>5/7/10</b>
-----------	---	--------------------

**General Instructions**

Section references are to the Internal Revenue Code unless otherwise noted.

**Purpose of Form**

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

- Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
- Certify that you are not subject to backup withholding, or
- Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

**Definition of a U.S. person.** For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,

## Environmental Statement

Avondale, LA

December 14, 2015

83346-1-2 PLAYBOOSTER®

(5-12 YEARS)

Landscape Structures has partnered with the Global ReLeaf program of American Forests to purchase trees which will offset the CO<sub>2</sub> generated in manufacturing this playstructure. These trees will not only sequester the CO<sub>2</sub>, they help filter water, remove air pollution, provide wildlife habitat and improve our natural environment.

AMERICAN FORESTS

### CARBON FOOTPRINT OF LANDSCAPE STRUCTURES PRODUCT:

Tons of CO<sub>2</sub>: 5.44

# of Trees: 16

**Carbon Footprint:** A measurement of the effect on the climate in terms of the amount of greenhouse gases produced in the Landscape Structures manufacturing process measured in units of carbon dioxide (CO<sub>2</sub>).

### RECYCLED CONTENT OF LANDSCAPE STRUCTURES PRODUCT:

	<u>w/Standard Permalene®</u>	<u>w/Recycled Permalene®</u>
Steel	1,054 lbs.	1,054 lbs.
Aluminum	307 lbs.	307 lbs.
Rubber	0 lbs.	0 lbs.
Plastic	0 lbs.	254 lbs.
Total Recycled Content:	1,360 lbs.	1,614 lbs.

#### Loose fill Material Sample Description:

Engineered Wood Fiber: ☐ Un-compacted Depth: \_\_\_\_\_ Inches  
Loose Fill Wood ☐  
Rubber: ☐  
Sand: ☐ Compacted Depth: \_\_\_\_\_ Inches  
Gravel: ☐  
Other: ☐

#### Unitary Sample Description:

Tiles ☒ Total Thickness: 2.25in.  
Poured in Place ☐ Top Layer: 0.25in.  
Other ☐ Base Layer: 2.0in.

#### Comments:

1. Determine the worst location on the tile to be impacted (Center, Corner, or Seam) based on HIC value.
  2. All testing will be performed at the above determined worst case impact location per tile.
- Per manufacturer, colored top layer varies from 3/16-1/4 in.

The above described sample was tested at :      4      Ft.

The results reported herein reflect the performance of the above described samples at the time of testing and at the temperature(s) reported. The results are specific to the described samples. Samples of surfacing materials that do not closely match the described samples will perform differently. The following data sheet provides an accurate representation of the test results.

Sample in compliance with ASTM F1292-09 at the temperature and rating specified?

## PRODUCT LINE

SoftTILE KrosLOCK Premium DuraSAFE Series 2.25"/4'

SoftTILE KrosLOCK Premium DuraSAFE Series 3.25"/6'

## ISSUE DATE: 5/9/16 - Kennedy Heights Playground Surfacing

In the interest of public playground safety, IPEMA provides a third-party certification service whereby TÜV SÜD America validates a manufacturer's certification of conformance to the ASTM F1292-13, Standard Specification for Impact Attenuation of Surface Systems Under and Around Playground Equipment Standard.

The manufacturer listed below has received written validation from TÜV SÜD America that the products listed below conform with the requirements of ASTM F1292-13.

## DESCRIPTION OF PLAY EQUIPMENT

### DESCRIPTION

SoftTILE KrosLOCK Premium DuraSAFE Series

SoftTILE KrosLOCK Premium DuraSAFE Series

You may verify this certificate by visiting IPEMA's website at <http://ipema.org>

## 10 Year Limited Warranty

SofSURFACES Inc. (the "Seller") warrants that the SoftILE safety surfacing system will be free from defects in materials and workmanship. The Seller further warrants that the SoftILE safety surfacing system complies with the requirements of the ASTM F1292-04 Standard specification for impact attenuation of surface systems under and around playground equipment.

### What does the warranty cover?

- Surface wear due to ordinary abrasion from pedestrian traffic will not penetrate the wear course of the surface.
- The locking system, when installed according to the manufacturers' specifications, will ensure the surface remains fixed and functional.
- The product will comply with the requirements of ASTM F1292-04 at the height for which the SoftILE system was rated by the manufacturer at time of purchase.

### How long does the warranty coverage last?

This is a 10 year limited warranty, prorated as outlined in the warranty coverage schedule shown below. This warranty may be transferred with the property.

### What will we do?

Any segment of a SoftILE surface that meets the warranty criteria will be repaired or replaced, at the Seller's option and in conjunction with the warranty coverage schedule below.

### How do you submit a warranty claim?

A warranty claim should be made directly to the Seller. Claims made via telephone should be directed to 800-263-2363. Written claims should be sent to: SofSURFACES Inc. PO Box 239, 4393 Discovery Line, Petrolia, ON N0N 1R0. If you would like to submit a claim request in writing, please provide the following information: a description of the claimed defect and the date the defect was discovered, photographic images (if applicable) of the claimed defect, the date of the original installation, the project name and your name, address and phone number. The Seller will provide notification of any additional information and physical evidence that may be required to process your claim.

### Warranty Coverage Schedule:

The Seller shall be responsible for 100% of the cost of the repair or replacement of any product found to be defective or not in compliance with the warranty herein within the first six (6) years following the original shipment of the product. Where any product is found to be defective or not in compliance with the warranty herein more than six (6) years following the original shipment of the product, the Seller shall only be responsible for a portion of the cost of the repair or replacement of such products as follows (and the buyer shall bear and pay the remaining portion of such costs):

<u>Number of years from date of original shipment to date of claim</u>	<u>Percentage of purchase price of product for which Seller is responsible</u>
0-6	100%
More than 6, but less than 7	60%
More than 7, but less than 8	40%
More than 8, but less than 9	30%
More than 9, but less than 10	20%

### Warranty Exclusions

This warranty does not cover:

- Product failure caused by accidents, misuse, natural disaster, vandalism, improper installation or maintenance and the like (see installation, care and maintenance instructions)
- Color change caused by exposure to UV and/or normal abrasion from pedestrian traffic
- Failure due to improper sub-surface preparation
- Resilient flooring may suffer visible damage as a result of extreme high forces (up to 2000 pounds per square inch). Common contributors of this type of force include but are not limited to stiletto or high heels, as well as narrow tipped chair supports. SoftILE resilient surfacing is not designed to perform under such concentrated high pressure. SofSURFACES will not accept claims for damage caused by extreme high forces

### Additional Considerations:

- The Seller's liability is limited to the material and transportation costs of repair or replacement of the product at the Seller's option. The Seller shall be responsible for installation costs and the costs of other work in connection with such repair and replacement only if such work was performed by Seller in the original installation. Where SoftILE is installed only in high traffic areas or installed in combination with other surfacing products not sold by the Seller, such SoftILES are excluded from this warranty.
- In the event of repair, replacement, or refinishing under this warranty, the warranty applicable to the replacement material or to the repaired or refinished products will extend only for the time remaining under the original warranty.
- The Seller reserves the right to discontinue or change any design or color of any products at any time and without notice or liability. If, for any reason, products of the type originally purchased are no longer available at the time a warranty claim is made, Seller may substitute another product determined by Seller to be of comparable quality and price.
- THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.
- Your exclusive remedy for any breach of warranty is as set forth in this warranty. This warranty gives you specific legal rights. You may have other rights which vary from state to state and province to province.

## Terms of Sale

**PRICING:** Landscape Structures' list prices do not include delivery and handling charges. Prices are subject to change without notice.

**TERMS:** To tax-supported institutions and those with established credit: net 30 days from the date of the invoice. 1.5% per month thereafter; freight charges are prepaid and applied to the invoice.

**TAXES:** Landscape Structures' list prices do not include applicable taxes, if any.

**WEIGHTS:** Weights are approximate and may vary.

**DELIVERY:** If delivery of the equipment is by common carrier, and there is damage or a shortage, notify the carrier at once and sign delivery documents provided by the carrier noting the damage or shortage. Most products are delivered on large pallets and will require a forklift or similar equipment to unload as a unit on the site.

**INSTALLATION:** All playstructures and/or equipment are delivered unassembled and packaged with recyclable materials. For a list of factory-certified installers in your area, please contact your Landscape Structures playground consultant.

**SERVICE:** We have knowledgeable, qualified playground consultants throughout the world who are available to help you before, during and after the sale. Landscape Structures has exclusive design software that features all of our parts and pieces in pull-down menus. With this software, your playground consultant can design a playground layout that meets not only your needs, but ASTM and CPSC standards as well. In addition, we have a full staff of NPSI-certified designers, along with 2-D and 3-D drawing capabilities and custom capabilities to assist you with your playground plans.

**RETURN POLICY:** As an indication of our commitment to our customers, Landscape Structures will accept returns of new structures and/or new equipment purchased within 60 days of the original invoice date. Advance notification is necessary to ensure proper credit. Parts not included in this return policy are custom parts (including PlayShaper® posts), as well as used or damaged parts. A 20% restock fee plus all return freight charges will apply to all product returns. NOTE: All parts are subject to inspection upon return. Parts returned damaged may not receive a full credit. For this reason, it is important that all returned parts are properly packaged to prevent damage while in transit.

**PRODUCT CHANGES:** Because of our commitment to safety, innovation, and value, we reserve the right to change specifications at any time.

### PLEASE CONTACT US AT:

Landscape Structures Inc.  
601 7th St. South  
Delano, MN 55328-8605  
888.438.6574 (*inside the U.S.A.*)  
763.972.5200 (*outside the U.S.A.*)  
playlsi.com

Landscape Structures Inc. ("Manufacturer") warrants that all playstructures and/or equipment sold will conform in kind and in quality to the specifications manual for the products identified in the Acknowledgment of Order and will be free of defects in manufacturing and material. Manufacturer further warrants:

**100-Year Limited Warranty** On all PlayBooster® and PlayShaper® aluminum posts, stainless steel fasteners, clamps, beams and caps against structural failure due to corrosion/natural deterioration or manufacturing defects, and on PlayBooster steel posts against structural failure due to material or manufacturing defects.

**15-Year Limited Warranty** On all Evos® and Weevos® steel arches, all plastic components (including TuffTimbers™ edging), all aluminum and steel components not covered above, Mobius® climbers, decks and TenderTuff™ coatings (except Wiggle Ladders, Chain Ladders and Swing Chain) against structural failure due to material or manufacturing defects.

**10-Year Limited Warranty** On concrete products against structural failure due to natural deterioration or manufacturing defects. Does not cover minor chips, hairline cracks or efflorescence.

**8-Year Limited Warranty** On Aeronet® climbers and climbing cables against defects in materials or manufacturing defects.

**3-Year Limited Warranty** On all other parts, i.e. Pulse™ products, CableCore® products, all swing seats and hangers, Mobius climber handholds, Wiggle Ladders, Chain Ladders and ProGuard™ Swing Chain, Track Ride trolleys and bumpers, all rocking equipment including Sway Fun® gliders, PVC belting material, HealthBeat™ resistance mechanism, Seesaws, Wiggle Ring Bridge, etc., against failure due to corrosion/natural deterioration or manufacturing defects.

The environment near a saltwater coast can be extremely corrosive. Some corrosion and/or deterioration is considered "normal wear" in this environment. Product installed within 500 yards (457 meters) of a saltwater shoreline will only be covered for half the period of the standard product warranty, up to a maximum of five years, for defects caused by corrosion. Products installed in direct contact with saltwater or that are subjected to salt spray are not covered by the standard warranty for any defects caused by corrosion.

This warranty does not include any cosmetic issues or wear and tear from normal use of the product, or misuse or abuse of the product. It is valid only if the playstructures and/or equipment are erected to conform with Landscape Structures' installation instructions and maintained according to the maintenance procedures furnished by Landscape Structures Inc.

## 2016 Play Equipment Warranty

You have our word.

All the warranties commence on date of Manufacturer's invoice. Should any failure to conform to the above express warranties appear within the applicable warranty period, Manufacturer shall, upon being notified in writing promptly after discovery of the defect and within the applicable warranty period, correct such nonconformity either by repairing any defective part or parts, or by making available a replacement part within 60 days of written notification. Manufacturer shall deliver the repaired or replacement part or parts to the site free of charge, but will not be responsible for providing labor or the cost of labor for the removal of the defective part or parts, the installation of any replacement part or parts or for disposal costs of any part or parts. Replacement parts will be warranted for the balance of the original warranty.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE.

The remedies hereby provided shall be the exclusive and sole remedies of the purchaser. Manufacturer shall not be liable for any direct, indirect, special, incidental or consequential damages.

Manufacturer neither assumes nor authorizes any employee, representative or any other person to assume for Manufacturer any other liability in connection with the sale or use of the structures sold, and there are no oral agreements or warranties collateral to or affecting this agreement. The warranties stated above are valid only if the structures and/or equipment are erected in conformance with Landscape Structures' installation instructions and maintained according to the maintenance procedures furnished by Landscape Structures Inc.; have been subjected to normal use for the purpose for which the goods were designed; have not been exposed to saltwater or salt spray; have not been subject to misuse, negligence, vandalism, or accident; have not been subjected to addition or substitution of parts; and have not been modified, altered, or repaired by persons other than Manufacturer or Manufacturer's designees in any respect which, in the judgement of Manufacturer, affects the condition or operation of the structures.

To make a claim, send your written statement of claim, along with the original job number or invoice number to: Landscape Structures Inc. 601 7th Street South, Delano, Minnesota, 55328-8605.

Signed:  President Date: 01/01/2016

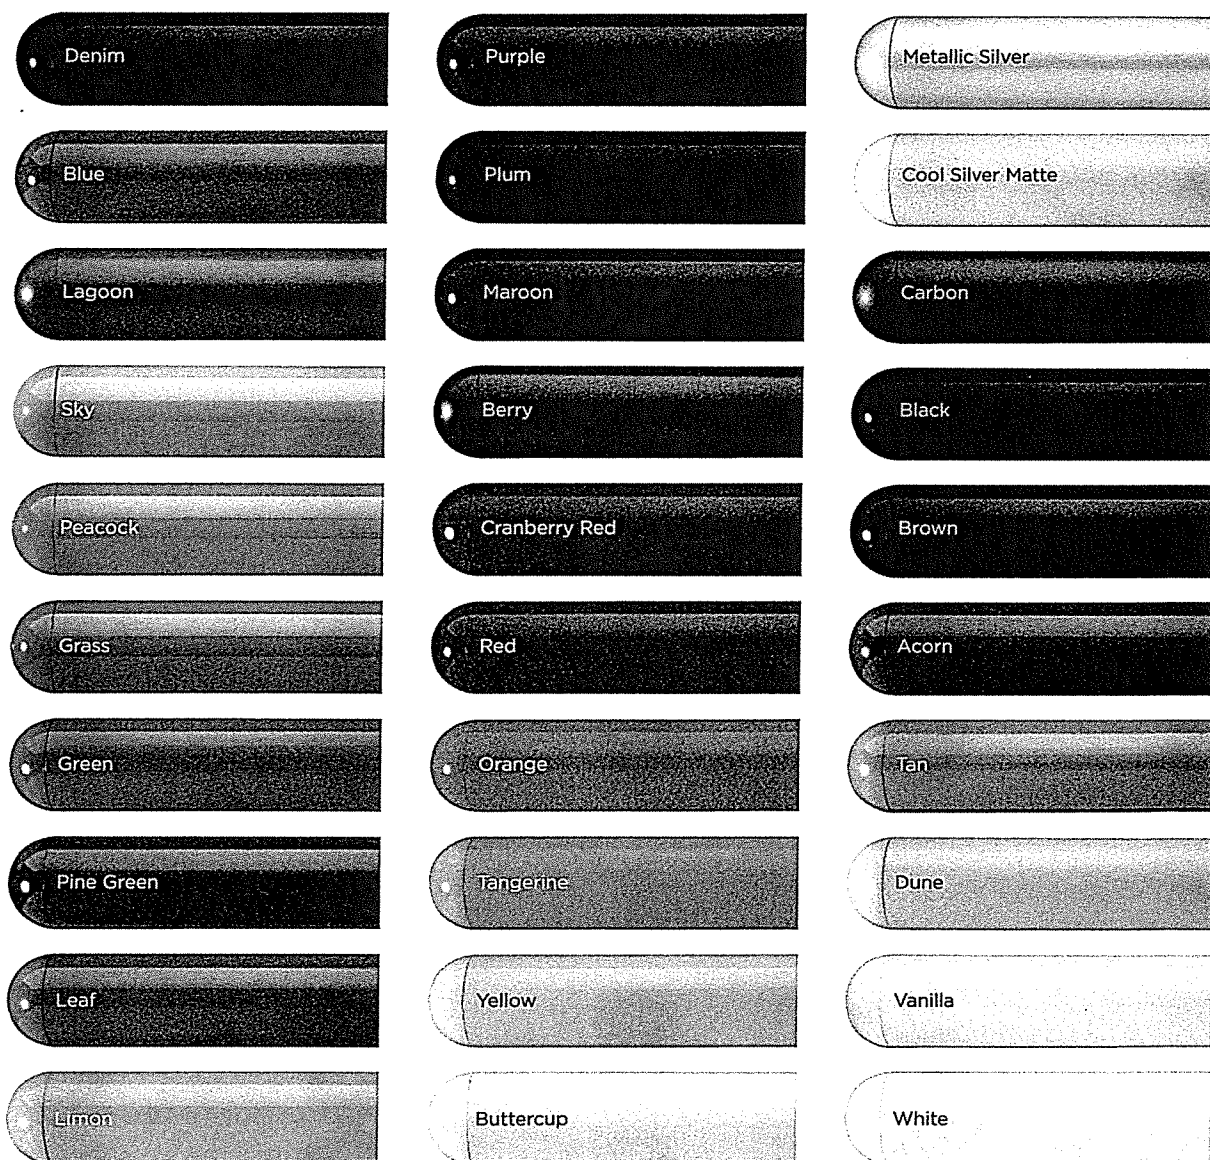

# Color Choices

Vivid colors for lively play

## ProShield® Colors

For posts/arches, components and clamps, ProShield® finish combines a specially formulated primer with a high-quality, architectural-grade powdercoat top layer. The result is enhanced longevity, greater protection against harsh UV rays, prevention from corrosion, and improved product performance. Custom colors are available for an additional charge.

Learn more about our Color Inspirations at [playlsi.com/color-inspirations](http://playlsi.com/color-inspirations)

## Permalene® Color Panels

Permalene panels with a recycled core are a smart choice for your playground and the environment. Available in the 12 colors shown, the distinctive black core results from combining and recycling colored plastic household containers—waste that would otherwise end up in landfills.

Brown

Gray

### TenderTuff™ Coating

For swing chains, handholds, pipe barriers, wheels, rings, etc. Insulates against temperature extremes and provides a safer grip surface compared to painted metal.

Black

Red

### Steel-Reinforced Cables

Made of tightly woven, polyester-wrapped, six-stranded galvanized-steel cable. These abrasion-resistant, color-stable cables are extremely durable and vandal resistant.

**Steel Decks** The heaviest, thickest decks for long-lasting safety: Flange-formed from 12-gauge steel with safe, rounded corners. Reinforced with .105" x 2" ribs welded on cross for superior strength and a consistently flat surface.

**Polyethylene** For slides, tunnels, roofs, etc. The heavy-duty rotationally molded polyethylene material ensures strength and durability while resisting cracking, fading and peeling. \* *Limon, Leaf, Denim, Brick, Tangerine, Acorn and Granite are color blends.*

Tan

Brown

Metallic Silver

Denim

Yellow

Pine Green

Lagoon

Blue

**SkyWays™ and CoolToppers® Shade Systems Fabrics** Designed to block up to 97.1% of UV rays and keep playground temperatures 30 degrees cooler.

*It's no secret that kids have vast imaginations matched only by their relentless pursuit of adventure. To see this up close, just take a trip to the nearest neighborhood playground where a well-designed guardrail is magically transformed into a high-wire act, or a slide becomes a giant to be surfed. In spite of our best intentions, playground equipment is often used in a manner inconsistent with its original design intent and the very nature of childrens play makes falls to the surface inevitable.*

Since 1992, SofSURFACES has been a pioneering voice within the playground safety arena, advocating for safer and higher performing surfacing systems. Ours is a company built on firsts.

In 1998, we revolutionized the industry by introducing the first warranty that included continual compliance with safety standards.

In 2007, we increased this warranty to 10 years, another first and another important step in bringing about change within the safety surfacing industry.

Also in 2007, we became the first and only company to voluntarily increase our

internal benchmarks for safety compliance ensuring that our surfaces performed a minimum of 25% better than regulatory requirements.

The introduction of our DuraSAFE product marks our latest and boldest efforts to set the standard for playground safety performance. SoftILE DuraSAFE has been engineered to comply with the safety ratings mandated for vehicle impact safety by The National Highway Traffic Safety Administration; performance that exceeds current playground regulations by nearly 50%. Our decision to become the first company to engineer a product to comply with this stringent benchmark was based on the simple premise that every child deserves to be as safe on the playground as they are in a vehicle.

In the following pages, we will guide you through the various steps involved in evaluating a playground safety surfacing system. **Durability, Consistency, Value and Safety** are among the topics we will explore. Along the way we hope to offer some insight into the principles that have transformed SofSURFACES into the world's leading manufacturer of playground safety surfacing systems.

**SoftILE DuraSAFE System - 3**

Built on Firsts**

**What is the**

# **SofTILE DuraSAFE System?**

*The pinnacle in playground surfacing, DuraSAFE is an exceptionally durable system that locks in place, is vandal resistant, Class 'A' fire-rated and maintenance-free. More importantly, DuraSAFE offers safety performance that exceeds regulations by nearly 50%. Key features, such as the unique interlocking design and hollow-core impact pedestal, have produced outstanding functional elements, including durability, vandal-resistance and unmatched safety performance. The SofTILE DuraSAFE Series has been designed specifically to eliminate maintenance costs, premature wear, and non-compliance with safety standards, while providing a truly ADA compliant surface.*

## **What Can SofTILE DuraSAFE Offer You?**

### **Engineered Impact Pedestal Design**

SofTILE DuraSAFE utilizes a hollow-core impact pedestal design that has been engineered to reduce the impact force associated with a fall. SofTILE DuraSAFE's impact pedestals act like a series of 64 interdependant shock absorbers on the underside of the tile system. Comparative testing between SofTILE DuraSAFE and competing products consistently demonstrates the vastly superior safety performance of the SofTILE DuraSAFE design.

### **A Wide Range of Accessories**

Architectural excellence and a professional installation are easy to achieve with matching accessories including; profiled edging, inside and outside corner pieces and ADA compliant transitions. All of our accessories are designed to work together seamlessly in form, fit and function. Whether your installation is over concrete or aggregate, retained or open, our line of accessories provides everything you need to create a beautiful finished space.

Outside Corner ✓

SofRAMP Jr. ✓

## Innovative Locking Design

SofSURFACES' unique locking systems have been the corner stone of our product line for nearly 20 years. Our KrosLOCK design represents the pinnacle in locking design technology, ensuring that when properly installed, the system will remain tight, secure and vandal-resistant through years of heavy use.

## Superior Safety Values

SofTILE DuraSAFE has been engineered to provide safety performance at approximately half the allowable limit.

T-Strip

# Safety First

## Did You Know?

- Each year over 200,000 children are sent to the emergency room for playground related injuries
- Nearly 80% of these injuries are directly related to falls to the surface
- Current safety standards are designed to prevent only the most serious brain trauma to the exclusion of all other injuries
- Even compliant surfaces demonstrate up to an 85% risk of "moderate" injury, including skull trauma, facial fractures, and loss of consciousness
- Unfortunately, research has demonstrated that up to 69% of synthetic playground surfaces studied were not compliant with basic safety standards

## Fall Height Assurance

Many surfacing options provide safety performance that approaches the maximum allowable thresholds at the time of installation. Since the performance of playground surfacing deteriorates over time, surfaces that are initially underperforming often result in non-compliance issues after a few short years of use. Relying solely on a manufacturer's laboratory test results can often leave playground owners and caretakers with a false sense of security.

## The DuraSAFE Difference

SofSURFACES has partnered with our local representatives to become the only company to offer free safety performance testing of your installed surface. We are proud of our products' performance and we believe that you deserve to know exactly how your surface is performing before you pay for it.

## HIC & GMAX / POURED-IN-PLACE (PIP) & TILE COMPARISON CHART

## Excellence in Reliability & Consistency

After manufacturing, every SoftTILE undergoes a strict quality control review by way of computerized quality assurance systems. Each tile is weighed, the temperature recorded, and the thickness and dimensions measured.

In addition, each of the 64 hollow-core impact pedestals are individually tested for performance and structural integrity through a sophisticated series of load cells and compression movements. Upon successful inspection, each tile is assigned a serial number for future tracking.

64 Hollow-Core Impact Pedestals

Computerized Quality Assurance System

## Peace-of-Mind

Unlike other synthetic surfaces, such as poured-in-place, our state-of-the-art quality control system ensures that every single square foot of your playground surface has been thoroughly performance-tested prior to installation, and thoroughly field-tested after installation.

## Design

ofSURFACES has designed a proprietary molding process unlike any other system in the world. This unique process allows SofTILE's top wearing course to be compression molded to a significantly higher density when compared to competing products.

## Reliability

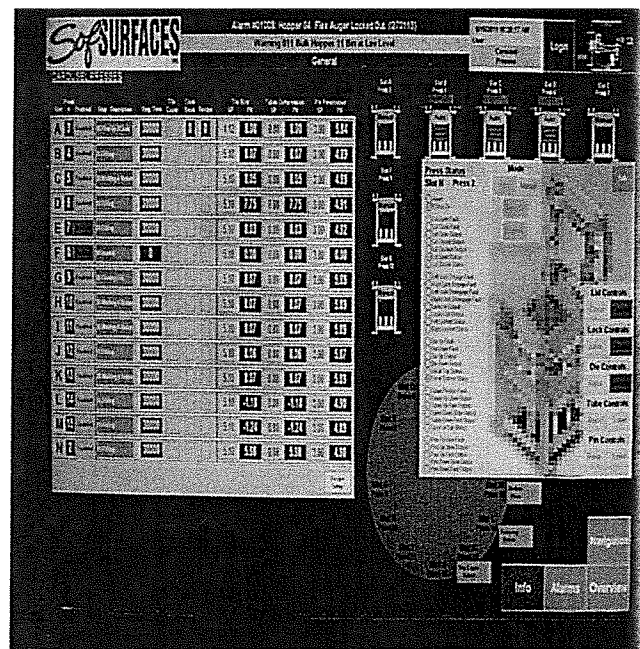

Manufacturing extremely durable surfacing systems is more than just product design. We use only the highest quality materials provided by the premier suppliers in the rubber and polyurethane industries. All materials are certified by our vendors to meet or exceed our stringent specifications, and materials entering our system are catalogued through retained samples for quality control purposes.

## Dependability

Utilizing the latest in process analytics, and HMI (Human Machine Interface) technology, every aspect of the manufacturing process is closely monitored and tightly controlled within the framework of ISO 9001:2008.

## The End Result?

Every square foot of a SofTILE DuraSAFE system has been performance-tested and assigned a serial number for ultimate traceability, repeatability and reliability.

# Sustainability & Energy Stewardship

*At SofSURFACES, we are committed to operating our business in a manner that uses resources wisely, and protects the quality of our environment, as well as the health and safety of our families and communities. As an industry leader in recycled products manufacturing, our products are made in state-of-the-art facilities where we strive to continually improve our quality, efficiency, and responsible resource management.*

1 Million

*All of our production scrap is collected and recycled back into the system so nothing goes to waste. Each year this translates into nearly 1 million pounds of diverted industrial scrap.*

750,000

*This year approximately 750,000 passenger tires will be diverted from North America's landfills to be used in the manufacture of our family of products.*

77%

*77% of our raw material supplies come from within 180 miles of SofSURFACES manufacturing site, resulting in less fuel burned in transporting materials and less waste from excess inventory.*

15/16%

*In 2012 SofSURFACES completed the extensive process of engineering a new production system with a strong focus on energy conservation, resulting in a 15% reduction in natural gas and a 16% reduction in electricity consumption.*

“Just as we cannot blame others for destroying the environment, so we cannot look to others to protect the environment. Responsibility for both begins at home.”

Paul Griss, *The Daily Planet*

100%

*SoftLE DuraSAFE is sustainable in that 100% of the product can be returned to our facility, reprocessed and reintegrated into new products.*

93%

*SoftLE DuraSAFE contains up to 93% post consumer recycled content with each tile utilizing a minimum of 1.5 passenger tires in its manufacture.*

7%

*SofSURFACES has implemented systems to ensure that harmful emissions are not released to the environment. Systematic air monitoring indicates that environmental emissions are less than 7% of allowable limits.*

LEED

*SoftLE DuraSAFE is compatible with a variety of LEED requirements and can contribute to multiple LEED credits over various rating categories.*

# Maintenance

Individual tiles can be easily replaced.

*Some say that no playground surface is truly maintenance-free. We disagree.*

When evaluating playground surfacing, the long-term maintenance costs associated with various options will vary considerably. While most purchasers recognize the significant maintenance costs associated with loose fill systems, few realize that many synthetic surfaces also require considerable ongoing maintenance for optimal structural and safety performance.

SoftTILE DuraSAFE's engineered design, combined with exceptional safety performance, extreme durability, and certified installation, translates into a system that is truly maintenance-free.

## The End Result?

An investment into a SoftTILE DuraSAFE system will prove to be the lowest cost surfacing investment when projected over the life of the product.

High-density wear layer stands up in high traffic areas.

## The Value Equation

Loose fill surfacing can be an attractive option based on lower upfront costs, however significant ongoing maintenance requirements often negate initial savings. Surprisingly, many synthetic surfaces also require periodic maintenance to ensure optimal performance.

For a complete breakdown of the costs of various surfacing options projected over a 10 year time line please visit our website at [www.sofsurfaces.com](http://www.sofsurfaces.com)

### COST COMPARISON OVER A 10-YEAR LIFE EXPECTANCY

# Premium Series

## 50% Black / 50% Color

### SofTILE Premium Delivers

*Pattern, texture, and color capabilities are the hallmarks of the Premium Series. For those with a creative flare, the Premium Series affords the opportunity for original expression through a plethora of visually attractive design options. SofTILE Premium offers outstanding durability, appearance, performance, and safety at an exceptional value.*

### Our Technology Your Creativity

The incorporation of our "In-Play" polymer technology represents the latest evolution in durability and color longevity. In-Play, a colored granule formulated and manufactured as a superior alternative to the traditional EPDM polymers used in the manufacture of playground surfacing. In-Play exhibits excellent abrasion resistance and color retention, and most importantly, In-Play will not become brittle with age.

# Installation

**SofSURFACES Inc.**  
**Certification Program**  
*Total Excellence Assurance*

*No matter what channel our products take to get to our customers, at SofSURFACES we make sure they are installed correctly and live up to expectations.*

All of our installers complete a demanding Certification Program that focuses on installation excellence. SofSURFACES has developed a unique and proprietary installation process which has been designed specifically to eliminate seam separation often associated with the expansion and contraction of traditional tile surfaces. Our techniques are time-tested and proven to perform in any climate condition.

**WARRANTY**  
**Materials & Workmanship**  
INCLUDING  
**Impact Attenuation**  
to ASTM F1292

Navigating through various product warranties can be a confusing process, but asking the right questions can help to ensure you are protected from expensive out of pocket costs if a claim is required.

## Warranty

- SofSURFACES provides a comprehensive 10 year, no cost, limited warranty
- Our warranty is one of the very few that includes long-term compliance to the ASTM F1292 Safety Standard
- SofSURFACES warranty is the only one to include ancillary costs associated with shipping replacement materials to the project
- DuraSAFE is a maintenance-free product and therefore it does not require costly maintenance programs in order to maintain continued warranty coverage
- Our independent certified installation crews often offer extended installation warranties well beyond the industry standard. When purchasing a DuraSAFE system, you can find comfort in knowing that you're protected by the industry's best warranty, supplied by the industry's leading company.

# **SofTILE** *Kros* **LOCK**<sup>®</sup> DURASAFE SERIES<sup>™</sup>

## **Exceeding Performance & Delivering Long Term Peace-of-Mind**

Achieving the highest levels of safety in our industry is ingrained in all that we do and we are proud of our system's performance. So much so that SofSURFACES is the only company in the industry offering free on-site testing of our installed surfaces to ensure compliance with National Safety Standards. But that's not all, our on-site testing will demonstrate conclusively that your installed

surface will exceed current safety standards by up to 50%. When you purchase a SofTILE DuraSAFE system, you can be assured that our commitment to quality will translate into years of maintenance-free performance. But don't take our word for it, call us today to inquire about a SofTILE DuraSAFE reference site near you.

**SoftILE AP**  
Architectural Paver

SoftILE AP™ goes beyond function by creating a truly authentic look and feel to rooftops, terraces, and outdoor spaces.

While offering unlimited design potential, SoftILE AP™ also provides thermal and mechanical protection to the roof membrane. This unique marriage of form and function creates effective use of outdoor spaces above offices, hotels and apartment buildings.

**DuraFLEX™**  
PREMIUM FITNESS FLOORING

SofSURFACES has combined the best features from our existing resilient flooring lines into a product that is as durable & functional as it is visually appealing.

Unmatched noise and shock absorption, interlocking KrosLOCK installation, interchangeable modular design and virtually limitless color options set DuraFLEX™ apart from all other fitness flooring systems.
