The nature of the pieces to be machined and the type of machining operation are categorized and grouped for bidding purposes. It is most probable that several categories of machining operations will be required upon any specific piece.
- (B) This contract shall be in force for a period of two (2) calendar years starting upon the date of the execution of the contract. The unit price bid must be held firm. Bids containing escalation will not be considered.
- (C) The unit price bid for each of the various categories of work shall include all direct and indirect costs attributable to that category of work including (but not limited to) equipment/machinery/tool operator, machine tool cost, consumables, welding rods, lubricants, small tools and equipment, supervision, insurance, payroll and other taxes, overhead, profit, etc.

- (F) All material, rough stock, etc. To be used in performing the work of the various categories will be furnished by the owner unless the contractor is instructed by the owner to furnish such items for a particular work effort. Contractor furnished items shall not exceed \$5,000 dollars and will be invoiced to the owner at wholesale cost or dealer's cost with no markup. Supporting data i.e., a copy of actual invoicing showing the contractor's procurement cost for such items shall be submitted with request for payment. All required materials must be noted on the estimate form along with who is to supply and the cost of the material.
- (G) Each of the work categories has associative therewith an estimated number of machine hours which represents the annual work effort as might be required in the event that significant repair efforts become necessary. The work may or may not be continuous, and the contractor may be required to perform more, less, or none at all of the hours for each class of work. The contractor will be paid only for work actually performed.
- (H) Bidders must bid upon all proposed classes of work. All classes will be awarded to a single bidder.

### **1-02 GENERAL CONDITIONS**

Bidder shall be available 24/7 and respond to call within 1 hour.

### **1-03 QUALIFICATION OF BIDDERS**

All machines shall be capable of high quality precision machine work in all of the various categories of work in the contract. All as judged solely by the owner prior to award. The nature of available accessories, measurement devices, and workmen skill will also be evaluated.

### **1-04 DEFECTIVE WORK:**

- (A) The contractor shall remedy any defective work performed by him, all in such manner as solely determined by the owner, and perhaps including the replacement of the piece so damaged. Defective work will be considered as work performed outside of the tolerance limits established, inaccurate setup, distortion of work piece, and/or such damage as results from improper handling. There will be no compensation allowed to remedy any defective work.

- (B) The owner reserves the right to stop work at any time, and to withhold payment thereon, whenever in his judgement the work is not being properly performed. The owner also reserves the right to cancel the contract if in his judgement inferior work is being repeatedly performed.

#### **1-05 SPECIFIC DEFINITION OF WORK, INSPECTION:**

- (A) The work to be performed will be defined by the owner for each specific job in the “description of work” box on the estimate form (machine shop form 101). All machining shall meet or exceed the pump/driver manufacture tolerances for all components. The contractor is to complete the estimate form listing all contract items required, note any special material needed, give a total cost, give a date promised, sign the form and return it to the department for approval. No work should begin until estimate form is approved and dated by an authorized parish employee.
- (B) Each piece will be shop inspected for size, tolerances, conformance to the work description, freedom from damage and the work accepted when loaded, by means of written signature by the owner’s inspector upon an appropriate lading receipt form.
- (C) The contractor shall fully assist in said inspection, moving the part as required, and furnishing instruments, measurement devices and skilled labor as required. All such costs of the contractor associative with quality control shall be absorbed within the prices bid, exclusive of the cost of the owner’s employees or agents.
- (D) If the magnitude of the work effort warrants, then the owner may utilize a full time inspection effort, and the contractor shall cooperate in all ways with said inspection, and shall present and submit time sheets and other documentation for daily signature.

#### **1-06 DRAYAGE:**

All drayage of work pieces (i.e., one delivery and one pick-up per piece) will be by others, generally upon parish vehicles, but occasionally upon vehicles of other contractors with parish approval. In each case, the work of this contract shall include the necessary hoisting and help to secure the load; however, there shall be no direct compensation for all such coordination in loading or unloading as this will be considered as part of the contractor’s overhead and thus absorbed in the unit price bid.

#### **1-07 SET-UP TIME:**

The time required to set up a work piece for machine work will be allowed as work time, provided that such work is done in an effective manner.

#### **1-08 PROGRESS OF THE WORK; PAYMENT ALTERNATIVES:**

All work must proceed at an effective rate of production, as judged by the owner. In the case of certain significant work pieces, the owner may request a detailed estimate of work time, and in such event, he shall begin work only upon the written approval of said estimate. The contractor shall not exceed this estimated

time without prior approval. Also in the case of certain work pieces, wherein the work effort can be precisely defined, and tolerances, surface finish and dimensions precisely established, then the owner reserves the right, subject to mutual agreement to make payment on the basis of a lump sum dollar amount, cognitive of the total direct and indirect costs therewith, and also cognitive of the value of the piece. In case of disagreement, the owner reserves the right to utilize the services of another contractor in the performance of the work.

### **1-09 SUB-CONTRACTORS:**

It is the intent of the owner, in order that quality assurance and inspection be done with efficiency that the contractor be capable, in terms of the machine tools and skilled workmen required, of performing all the work of the schedule with no more than 20% of the work being sub-contracted.

### **1-10 PREMIUM TIME WORK:**

The regular Jefferson Parish work day schedule shall be from 7:00 A.M. to 5:00 P.M., Monday thru Friday. All work performed during this time period shall be performed on straight time basis. Premium time will apply only when work is performed on weekends, Jefferson Parish legal holidays or before 7:00 A.M. and after 5:00 P.M.

No premium time work may be done unless specifically authorized by the owner, and the unit price bid shall be for work done during basic work time conditions. In the event of an emergency, the owner may request premium time work, in which case compensation for the specific operation being performed shall be 1.5 times the regular hour rates.

### **1-11 PAYMENT:**

The contractor shall submit detailed invoices (to include all daily time sheets of equipment and labor) for payment, as the various work items he is assigned are completed and accepted. In general, ten working days will be required for checking said invoices and the supporting data by the department of public works, and thereafter another seven working days for processing through the department of finance, all upon the assumption that re-submission of the invoices because of error is not required. If deemed necessary by owner, a certified payroll may be required.

## **STANDARD INSURANCE REQUIREMENTS FOR BIDDING PURPOSES**

All required insurance under this bid shall conform to Jefferson Parish Resolution No. 113646 or No. 113647, as applicable. Contractors may not commence any work under any ensuing contract unless and until all required insurance and associated evidentiary requirements thereto have been met, along with any additional specifications contained in the **Invitation to Bid**. Except as where otherwise precluded by law, the Parish Attorney or his designee, with the concurrence of the Director of Risk Management or his designee, may agree on a case-by-case basis, to deviate from Jefferson Parish's standard insurance requirements, as provided in this Section. Vendors requesting deviation therefrom shall submit such requests in writing, along with compelling substantiation, to the Purchasing Department prior to the bid's due date. Any changes to the insurance requirements will be reflected in the bid specifications and addenda. Prior to contract execution and at all times thereafter during the term of such contract, contractors must provide and continuously maintain all coverages as required by the foregoing Resolutions, and the contract documents. Failure to do so shall be grounds for suspension, discontinuation or termination of the contract.

---

For bidding purposes, bidders must submit with bid submission a current (valid) insurance certificate evidencing the required coverages. Failure to comply will cause bid to be rejected. The current insurance certificate will be used for proof of insurance at time of evaluation. Thereafter, and prior to contract execution, the low bidder will be required to provide final insurance certificates to the Parish which shall name **the Jefferson Parish, its Districts Departments and Agencies under the direction of the Parish President and the Parish Council** as additional insureds regarding negligence by the contractor for the Commercial General Liability and the Comprehensive Automobile Liability policies. Additionally, said certificates should reflect the name of the Parish Department receiving goods and services and reference the respective Jefferson Parish bid number.
